3. We are dependent on our management team for success whose loss could seriously impair the ability to continue to manage and expand business efficiently.

Our success largely depends on the continued services and performance of our management and other key personnel. The loss of service of the Promoters and other senior management could seriously impair the ability to continue to manage and expand the business efficiently. Further, the loss of any of the senior management or other key personnel may adversely affect the operations, finances and profitability of our

Satkar Finlease Limited-Draft Prospectus

Company. Any failure or inability of our Company to efficiently retain and manage its human resources would adversely affect our ability to implement new projects and expand our business.

4. In the 12 months prior to the date of filing the Draft Prospectus, the Company had issued Equity Shares at a price, which is lower than the Issue Price.

In the 12 months prior to the date of filing of the Draft Prospectus, the Company had issued Equity Shares at a price, which is lower than the Issue Price, as set forth below:

Subscriber	Date of Allotment	Number of Equity Shares	Issue Price (Rs.)	Consideration	Reasons for Allotment
Mahadhushi International Trade Limited & TCL Management Services Pvt. Ltd.	01.08.2013	25,00,000	10	Cash	Preferential allotment to infuse funds

In addition to that, We have allotted 57,70,000 Equity Shares as bonus in the ratio of 1:1 to our existing Equity shareholders on 1st August, 2013 by capitalization of free reserves.

5. Our growth will depend on our ability to develop our brand and failure to do so may have a negative impact on our ability to compete in the finance industry.

We believe that continuous brand building is necessary for achieving widespread recognition of our services. As per the objects of the issue, we plan to utilize Rs. 60.00 lacs of the Issue Proceeds in establishing our brand and create a presence in the finance industry. Promoting and positioning our brand will depend largely on the success of our marketing efforts and our ability to provide high quality services. Brand promotion activities may not yield increased revenues, and even if they do, any increased revenues may not offset the expenses we incur in building our brand. If we fail to promote and maintain our brand, our business, financial condition and results of operations could be adversely affected.

6. Our business is vulnerable to interest rate risk. Volatility in interest rates may adversely affect our income from our operations and adversely affect our financial performance and profitability.

We propose to enhance the NBFC related activities of providing funding to prospective clients to cater their various financial requirements. We would be exposed to the risk of higher interest rates. If the yield on our Company's interest-earning assets does not increase at the same time or to the same extent as our cost of funds, or our cost of funds does not decline at the same time or to the same extent as the yield on its interest earning assets, our net interest income and net interest margin would be adversely impacted. This could have a material adverse effect on our Company's financial condition. In addition, potential customers may be deterred from entering into any financing arrangements in an increasing interest rate scenario.

7. Our Company may experience delays in enforcing the collateral when borrowers default on their obligations, which may result in failure to recover the expected value of collateral and adversely affect the financial performance.

Although our Company seeks to maintain a collateral value to funding/loan ratio of at least 125% for the loans, any changes in the underlying asset prices, (which is very frequent in the case of securities), may cause the value of our collateral to decline and our Company may not be able to realize the full value of the collateral as a result of delays in bankruptcy and foreclosure proceedings, inability to foreclose, defects in the title of collateral, fraudulent transfers by borrowers and other factors, including legislative changes and judicial pronouncements. Failure to recover the expected value of collateral could expose

our Company to potential losses, which could adversely affect the business and future financial performance.

8. We face risks associated with providing loans against shares (LAS) in our lending business.

We are presently involved in providing LAS and propose to continue the LAS operations. As such, a substantial part of the Issue Proceeds is being ear-marked towards expanding our financing operations. In the case of highly volatile market or adverse movements in share price, it is possible that our clients may not be able to repay the debt. Failure to repay the debt for the aforementioned reasons or otherwise, would be detrimental to our business and profitability. We follow internal risk management guidelines while extending credit, including limits on leverage, quality of collateral, diversification, pre-determined margin call thresholds and pre-determined thresholds to liquidate collateral. These risk management guidelines require frequent reviews and updations, and at times may be inadequate. However, we are subject to risks inherent in extending credit, particularly during periods of rapidly declining markets in which the value of the collateral held by us could fall significantly below the client's indebtedness. In addition, there may be risk due to concentration of exposure(s) to a few clients. The occurrence of an unforeseen event of magnitude resulting in an adverse movement in share prices could severely impact our business if we are unable to successfully limit our losses caused by bad debts.

9. Our Company's investments include unquoted investments which involve a degree of risk and such investments will not be adequately reflected in our Company's financial statements.

A major portion of our Company's investments is in companies which are not listed on any stock exchange in India. Our Company's ability to dispose of such unquoted investments may be constrained due to several factors such as appropriate valuation of such investments and if required completing an initial public offering thereof. In view of the inherent uncertainty in valuations of unquoted assets, the determination of fair value of such investments may differ considerably from the value that would be assessed if a ready market for such unquoted investments existed. Our Company may not be able to liquidate its unquoted investments at their fair market value. These risks will further increase if for any reason our Company is urgently required to liquidate any investment..Our Company is required by accounting policies as per the Accounting Standards issued by ICAI, subject to limited exceptions, to record the unquoted investments at their book values. Therefore, our Company's financial statements may not reflect the fair market value of such investments.

10. Our company is exposed to provisioning norms as prescribed by RBI and any increased provisioning due to NPA or doubtful assets may result in deterioration of our asset portfolio and affect our financial conditions adversely.

Our Company is exposed to the risk of deterioration in the quality of asset portfolio. Our Company recognizes loan as an NPA if the interest or principal repayment is overdue for a certain period of time as per the norms specified by RBI. Any change in the provisioning policy by the RBI in the future may require us to make additional provisioning. If we are not able to maintain the asset quality, this may result in some non performing assets and further increase in provisioning which would adversely affect our financial performance in the future.

11. Due to lack of independent and credible source, we depend on the customers / third parties for accuracy and completeness of information about customers.

In deciding whether to extend credit or enter into other transactions with the customers and counter parties, our Company largely relies on information furnished to it by or on behalf of its customers, including the financial information, based on which it performs the credit assessment. Our Company may also rely on certain representations as to the accuracy and completeness of that information as provided by the customers. Further, any changes in this information may not be made available to us nor may the

information that we have gathered be sufficient for completely assessing the risk profile of the customer. Our financial conditions and result of operations could be negatively affected by relying on financial information or other information that may be materially incorrect or incomplete or misleading. Incomplete information regarding creditworthiness of customers may expose us to a risk of fraud. Our financial condition and results of operations could be negatively affected by relying on information that may not be true or materially misleading and future financial performance and the price of our Equity Shares may be adversely affected.

- 12. Company is vulnerable to risk arising from the failure of employees to adhere to approved procedures, system controls, fraud, system failure, information system disruptions, communication systems failure and interception during transmission through external communication channels or networks.**

Our Company's day-to-day operations and businesses are largely dependent on various systems. Failure to protect fraud or breach in security may adversely affect our Company's operation and financial performance. Our Company's reputation could also be adversely affected by significant fraud committed by the employees, agents, customers or third parties. However there are no instances in the past of major frauds, lapses of control or system failure which has affected the performance of our Company.

- 13. Failure to manage the growth of our Company effectively may adversely impact the business.**

Our future growth depends primarily upon the ability to manage key issues such as selecting and retaining skilled manpower, maintaining an effective technology platform that may be continually upgraded, developing a knowledge base to face emerging challenges, and ensuring a high standard of customer service. There can be no assurance that our Company will be able to maintain or accelerate its growth, and any failure to do so could adversely affect our Company's business and future financial performance.

- 14. We do not have any insurance coverage for protecting us against any material hazards.**

At present, we do not have any insurance policy for protecting us against any material hazards. Any damage suffered by us in respect of any events would not be covered under any insurance and we would bear the effect of such losses.

- 15. Material changes in the Regulations that govern our Company could cause the business to suffer.**

NBFCs in India are subject to supervision and regulation by the RBI. Any changes in the regulatory framework affecting NBFCs including the provisioning for NPA, capital adequacy requirements, applicable tax rates could adversely affect the profitability of our business and our future financial performance.

- 16. Our Company's revenue and operating results will be influenced by factors affecting the companies or funds in which it has invested.**

Presently, our Company's revenue is partly dependent on sale of its investments. The profitability of our Company's investments is, therefore, dependent on the factors affecting the companies in which it has invested or the performance of entities in which investments have been made. The companies in which our Company has invested may experience decreased revenues, financial losses, difficulty in obtaining access to financing and increased funding costs owing to difficult market conditions, slowdowns in a particular sector or other factors beyond our company's control. Any decline in the profitability of these companies or the performance of entities, in which our Company has invested, would directly affect our Company's revenue.

- 17. There is no monitoring agency appointed by our Company and the deployment of funds are at the discretion of our Management and our Board of Directors, though it shall be monitored by the Audit Committee.**

As per SEBI (ICDR) Regulations, 2009 appointment of monitoring agency is required only for Issue size above Rs. 50,000 Lacs. Hence, we have not appointed a monitoring agency to monitor the utilization of Issue proceeds. However, the audit committee of our Board will monitor the utilization of Issue proceeds. Further, our Company shall inform about material deviations in the utilization of Issue proceeds to the BSE Limited and shall also simultaneously make the material deviations / adverse comments of the audit committee public.

- 18. Pending utilization of issue proceeds, our Company will have the flexibility in deploying the net proceeds received by us.**

Pending utilization of issue proceeds, our Company intends to utilize the issue proceeds for providing short term loans to clients, investments in interest bearing liquid instrument including deposits with the bank and investments in mutual funds and other financial products such as principal protected funds, derivatives like debt instruments, other fixed and variable return instruments, listed debt instruments and rated debenture and other permitted business for NBFC. However the management of our Company will have the flexibility in deploying the net proceeds in accordance with the policies established by our Board from time to time.

- 19. Delay in raising funds from the IPO could adversely impact the implementation schedule.**

The proposed expansion, as detailed in the section titled "*Objects of the Issue*" is to be largely funded from the proceeds of this IPO. We have not identified any alternate source of funding and hence any failure or delay on our part to mobilize the required resources or any shortfall in the Issue proceeds may delay the implementation schedule. We therefore, cannot assure that we would be able to execute the expansion process within the given timeframe, or within the costs as originally estimated by us. Any time overrun or cost overrun may adversely affect our growth plans and profitability.

- 20. The Company has not appointed any independent agency for the appraisal of the proposed Project.**

The Project, for which we intend to use our Issue proceeds as mentioned in the objects of the Issue, has not been appraised by any bank or financial institution. The total cost of Project is our own estimates based on current conditions and are subject to changes in external circumstances or costs. Our estimates for total cost of Project has been based on various quotations received by us from different suppliers and our internal estimates and which may exceed which may require us to reschedule our Project expenditure and may have an adverse impact on our business, financial condition and results of operations.

- 21. Our trademark is not registered under the Trade Marks Act our ability to use the trademark may be impaired.**

Our company's business may be affected due to our inability to protect our existing and future intellectual property rights. Currently, we do not have a registered trademark over our name and logo under the Trade Marks Act and consequently do not enjoy the statutory protections accorded to a trademark registered in India and cannot prohibit the use of such logo by anybody by means of statutory protection. Our Company has made application for registration of our corporate logo. We cannot guarantee that all the pending application will be decided in the favor of the Company. If our trademarks are not registered it can allow any person to use a deceptively similar mark and market its product which could be similar to the products offered by us. Such infringement will hamper our business as prospective clients may go to such user of mark and our revenues may decrease.

EXTERNAL RISK FACTORS

22. Political, economic and social changes in India could adversely affect our business.

Our business, and the market price and liquidity of our Company's shares, may be affected by changes in Government policies, including taxation, social, political, economic or other developments in or affecting India could also adversely affect our business. Since 1991, successive governments have pursued policies of economic liberalization and financial sector reforms including significantly relaxing restrictions on the private sector. In addition, any political instability in India may adversely affect the Indian economy and the Indian securities markets in general, which could also affect the trading price of our Equity Shares.

23. Our business is subject to a significant number of tax regimes and changes in legislation governing the rules implementing them or the regulator enforcing them in any one of those jurisdictions could negatively and adversely affect our results of operations.

The revenues recorded and income earned is taxed on differing bases, including net income actually earned, net income deemed earned and revenue-based tax withholding. The final determination of the tax liabilities involves the interpretation of local tax laws as well as the significant use of estimates and assumptions regarding the scope of future operations and results achieved and the timing and nature of income earned and expenditures incurred. Changes in the operating environment, including changes in tax laws, could impact the determination of the tax liabilities of our Company for any year.

24. Natural calamities and force majeure events may have an adverse impact on our business.

Natural disasters may cause significant interruption to our operations, and damage to the environment that could have a material adverse impact on us. The extent and severity of these natural disasters determines their impact on the Indian economy. Prolonged spells of deficient or abnormal rainfall and other natural calamities could have an adverse impact on the Indian economy, which could adversely affect our business and results of operations.

25. Our transition to IFRS reporting could have a material adverse effect on our reported results of operations or financial condition.

Our Company may be required to prepare annual and interim financial statements under IFRS in accordance with the roadmap for the adoption of, and convergence with, the IFRS announced by the Ministry of Corporate Affairs, Government of India through a press note dated January 22, 2010 ("IFRS Convergence Note"). The Ministry of Corporate Affairs by a press release dated February 25, 2011 has notified that 32 Indian Accounting Standards are to be converged with IFRS. The date of implementation of such converged Indian accounting standards has not yet been determined and will be notified by the Ministry of Corporate Affairs after various tax related issues are resolved. We have not yet determined with certainty what impact the adoption of IFRS will have on our financial reporting. Our financial condition, results of operations, cash flows or changes in shareholders' equity may appear materially different under IFRS than under Indian GAAP or our adoption of IFRS may adversely affect our reported results of operations or financial condition. This may have a material adverse effect on the amount of income recognized during that period.

26. Restrictions on foreign investment limit our ability to raise debt or capital outside India.

Indian laws constrain our ability to raise capital outside India through the issuance of equity or convertible debt securities and restrict the ability of non-Indian companies to invest in us. Foreign investment in, or an acquisition of, an Indian company requires approval from the relevant government authorities in India, including the Reserve Board of India and the Foreign Investment Promotion Board.

27. Any downgrading of India's debt rating by a domestic or international rating agency could negatively impact our business.

Any adverse revisions to India's credit ratings for domestic and international debt by domestic or international rating agencies may adversely impact our ability to raise additional financing, and the interest rates and other commercial terms at which such additional financing is available. This could have an adverse effect on our financial results and business prospects, ability to obtain financing for capital expenditures and the price of our Equity Shares.

28. Hostilities, terrorist attacks, civil unrest and other acts of violence could adversely affect the financial markets and our business.

Terrorist attacks and other acts of violence or war may adversely affect the Indian markets on which our Equity Shares will trade. These acts may result in a loss of business confidence, make travel and other services more difficult and have other consequences that could have an adverse effect on our business. In addition, any deterioration in international relations, especially between India and its neighboring countries, may result in investor concern regarding regional stability which could adversely affect the price of our Equity Shares. In addition, India has witnessed local civil disturbances in recent years and it is possible that future civil unrest as well as other adverse social, economic or political events in India could have an adverse impact on our business. Such incidents could also create a greater perception that investment in Indian companies involves a higher degree of risk and could have an adverse impact on our business and the market price of our Equity Shares.

29. Third party statistical and financial data in this Draft Prospectus may be incomplete or unreliable.

We have not independently verified any of the data from industry publications and other sources referenced in this Draft Prospectus and therefore cannot assure you that they are complete or reliable. Discussions of matters relating to India, its economies or the industries in which we operate in this Draft Prospectus are subject to the caveat that the statistical and other data upon which such discussions are based may be incomplete or unreliable.

RISKS RELATING TO THE EQUITY SHARES

30. Any future issue of Equity Shares may dilute your shareholding and sales of our Equity Shares by our Promoters or other major shareholders may adversely affect the trading price of the Equity Shares.

Any future equity issues by us, including in a primary offering, may lead to the dilution of investors' shareholdings in us. Any future equity issuances by us or sales of its Equity Shares by the Promoters may adversely affect the trading price of the Equity Shares. In addition, any perception by investors that such issuances or sales might occur could also affect the trading price of our Equity Shares.

31. Our ability to pay any dividends in the future will depend upon future earnings, financial condition, cash flows, working capital requirements and capital expenditures.

The amount of our future dividend payments, if any, will depend upon our Company's future earnings, financial condition, cash flows, working capital requirements, capital expenditures, applicable Indian legal restrictions and other factors. There can be no assurance that our Company will be able to pay dividends.

32. The price of our Equity Shares may be volatile, and you may be unable to resell your Equity Shares at or above the Issue Price, or at all.

Satkar Finlease Limited-Draft Prospectus

Prior to the offer, there has been no public market for our Equity Shares, and an active trading market on the SME Platform of BSE. The Issue Price of the Equity Shares may bear no relationship to the market price of the Equity Shares after the Issue. The market price of the Equity Shares after the Issue may be subject to significant fluctuations in response to, among other factors, variations in our operating results, market conditions specific to the fire fighting industry, crushing industry, developments relating to India and volatility in the Exchange and securities markets elsewhere in the world. However, the LM will arrange for compulsory market making for a period of 3 years from the date of listing as per the regulations applicable to the SME Platforms under SEBI (ICDR) Regulations, 2009.

33. There is no guarantee that the Equity Shares issued pursuant to the Issue will be listed on the SME Platform of BSE in a timely manner, or at all.

In terms of Chapter XB of the SEBI (ICDR) Regulations, 2009, as amended from time to time, we are not required to obtain any in-principle approval for listing of shares issued. We have only applied to BSE Limited to use its name as the Stock Exchange in this offer document for listing our shares on the SME Platform of BSE. In accordance with Indian law and practice, permission for listing and trading of the Equity Shares issued pursuant to the Issue will not be granted until after the Equity Shares have been issued and allotted. Any failure or delay in obtaining the approval would restrict your ability to dispose of your Equity Shares.

34. The price of our Equity Shares may be volatile, or an active trading market for our Equity Shares may not develop.

Prior to this Issue, there has been no public market for our Equity Shares. [●] is acting as Designated Market Maker for the Equity Shares of our Company. However, the trading price of our Equity Shares may fluctuate after this Issue due to a variety of factors, including our results of operations and the performance of our business, competitive conditions, general economic, political and social factors, the performance of the Indian and global economy and significant developments in India's fiscal regime, volatility in the Indian and global securities market, performance of our competitors, the Indian Capital Markets, changes in the estimates of our performance or recommendations by financial analysts and announcements by us or others regarding contracts, acquisitions, strategic partnerships, joint ventures, or capital commitments. In addition, if the stock markets experience a loss of investor confidence, the trading price of our Equity Shares could decline for reasons unrelated to our business, financial condition or operating results. The trading price of our Equity Shares might also decline in reaction to events that affect other companies in our industry even if these events do not directly affect us. Each of these factors, among others, could materially affect the price of our Equity Shares. There can be no assurance that an active trading market for our Equity Shares will develop or be sustained after this Issue, or that the price at which our Equity Shares are initially offered will correspond to the prices at which they will trade in the market subsequent to this Issue. For further details of the obligations and limitations of Market Makers please refer to the section titled "*General Information - Details of the Market Making Arrangement for this Issue*" on page 29 of this Draft Prospectus.

35. There are restrictions on daily movements in the price of the Equity Shares, which may adversely affect a shareholder's ability to sell, or the price at which it can sell, Equity Shares at a particular point in time.

Following the Issue, we will be subject to a daily "circuit breaker" imposed by BSE, which does not allow transactions beyond specified increases or decreases in the price of the Equity Shares. This circuit breaker operates independently of the index-based, market-wide circuit breakers generally imposed by SEBI on Indian stock exchanges. The percentage limit on our circuit breakers will be set by the stock exchanges based on the historical volatility in the price and trading volume of the Equity Shares. The BSE may not inform us of the percentage limit of the circuit breaker in effect from time to time and may change it

Satkar Finlease Limited-Draft Prospectus

without our knowledge. This circuit breaker will limit the upward and downward movements in the price of the Equity Shares. As a result of this circuit breaker, no assurance can be given regarding your ability to sell your Equity Shares or the price at which you may be able to sell your Equity Shares at any particular time.

INDUSTRY OVERVIEW

OVERVIEW OF THE INDIAN ECONOMY

The Indian economy remained resilient despite a slowdown in the third quarter of 2012-2013 amid a weaker global economy. During this period, India’s GDP grew 4.5% as compared to 6.0% during the third quarter of 2011 (*Source: RBI: Macroeconomic and Monetary Developments in 2012-2013*). Indian GDP growth continues to remain above the global average. The IMF forecasts global growth to remain steady at 3.3% in 2013 before improving to 4.0% in 2014 (*Source: RBI: Macroeconomic and Monetary Developments in 2012-2013*).

NON BANKING FINANCIAL COMPANIES

NBFCs are an integral part of the country’s financial system complementing the services of commercial banks. The main reason attributed to the growth of NBFCs is the comprehensive regulation of the banking system. Other factors include higher level of customer orientation, lesser pre/post sanction requirements and higher rates of interest on deposits being offered by NBFCs. It is mandatory that every NBFC should be registered with RBI to carry on any business of non banking financial institution.

The activities of non-banking financial companies (NBFCs) in India have undergone qualitative changes over the years through functional specialisation. The role of NBFCs as effective financial intermediaries has been well recognized as they have inherent ability to take quicker decisions, assume greater risks, and customize their services and charges more according to the needs of the clients. While these features, as compared to the banks, have contributed to the proliferation of NBFCs, their flexible structures allow them to unbundle services provided by banks and market the components on a competitive basis. The distinction between banks and non-banks has been gradually getting blurred since both the segments of the financial system engage themselves in many similar types of activities. At present, NBFCs in India have become prominent in a wide range of activities like hire-purchase finance, equipment lease finance, loans, investments, etc. By employing innovative marketing strategies and devising tailor-made products, NBFCs have also been able to build up a clientele base among the depositors, mop up public savings and command large resources as reflected in the growth of their deposits from public, shareholders, directors and other companies, and borrowings by issue of non-convertible debentures, etc.

The importance of NBFCs in delivering credit to the unorganised sector and to small borrowers at the local level in response to local requirements is well recognised. The rising importance of this segment calls for increased regulatory attention and focused supervisory scrutiny in the interests of financial stability and depositor protection.

NBFCs can be divided into deposit taking NBFCs, i.e., which accept deposits from public and non-deposit accepting or holding NBFCs being those which do not accept deposits from public.

The Industry in which our Company Operates

Non Banking Financial Companies

Overview

NBFCs are an integral part of the country's financial system complementing the services of commercial banks. The main reason attributed to the growth of NBFCs is the comprehensive regulation of the banking system. Other factors include higher level of customer orientation, lesser pre/post sanction requirements and higher rates of interest on deposits being offered by NBFCs. It is mandatory that every NBFC should be registered with RBI to carry on any business of non banking financial institution.

The activities of non-banking financial companies (NBFCs) in India have undergone qualitative changes over the years through functional 59rganizations59. The role of NBFCs as effective financial intermediaries has been well recognized as they have inherent ability to take quicker decisions, assume greater risks, and customize their services and charges more according to the needs of the clients. While these features, as compared to the banks, have contributed to the proliferation of NBFCs, their flexible structures allow them to unbundle services provided by banks and market the components on a competitive basis. The distinction between banks and non-banks has been gradually getting blurred since both the segments of the financial system engage themselves in many similar types of activities. At present, NBFCs in India have become prominent in a wide range of activities like hire-purchase finance, equipment lease finance, loans, investments, etc. By employing innovative marketing strategies and devising tailor-made products, NBFCs have also been able to build up a clientele base among the depositors, mop up public savings and command large resources as reflected in the growth of their deposits from public, shareholders, directors and other companies, and borrowings by issue of non-convertible debentures, etc.

The importance of NBFCs in delivering credit to the 59rganizatio sector and to small borrowers at the local level in response to local requirements is well 59rganizati. The rising importance of this segment calls for increased regulatory attention and focused supervisory scrutiny in the interests of financial stability and depositor protection.

NBFCs can be divided into deposit taking NBFCs, i.e., which accept deposits from public and non-deposit accepting or holding NBFCs being those which do not accept deposits from public.

Even though the NBFCs are performing functions akin to that of banks, there are, however, a few differences:-

- (a) NBFC cannot accept demand deposits;
- (b) NBFCs are not a part of the payment and settlement system and as such cannot allow its customers to operate their accounts through issue of cheques; and
- © Deposit insurance facility of Deposit Insurance and Credit Guarantee Corporation is not available for NBFC depositors unlike in case of banks.

Initially, the NBFCs registered with RBI could operate as:-

- (a) Equipment leasing company;
- (b) Hire-purchase company;
- © Loan company; and
- (d) Investment Company.

Presently, deposits taking NBFCs are classified in 3 categories vide RBI Regulation dated December 06, 2006:

- (a) Asset Finance Company
- (b) Investment Company; and
- © Loan Company.

An Overview of Regulation of NBFCs

In response to the perceived need for better regulation of the NBFC sector, the Reserve Bank of India (RBI) Act, 1934 was amended in 1997, providing for a comprehensive regulatory framework for NBFCs. The RBI (Amendment) Act, 1997 conferred powers on the RBI to issue directions to companies and its auditors, prohibit deposit acceptance and alienation of assets by companies and initiate action for winding up of companies.

(1) Mission

To ensure that:

- the financial companies function on healthy lines,
- these companies function in consonance with the monetary policy framework, so that their functioning does not lead to systemic aberrations,
- the quality of surveillance and supervision exercised by the RBI over the NBFCs keeps pace with the developments in this sector.
- comprehensive regulation and supervision of Asset liability and risk management system for NBFCs,

(2) Amendments to the Reserve Bank of India (RBI) Act, 1934

RBI Act was amended in January 1997 providing for, *inter alia*.

- Entry norms for NBFCs and prohibition of deposit acceptance (save to the extent permitted under the Act) by unincorporated bodies engaged in financial business,
- Compulsory registration, maintenance of liquid assets and creation of reserve fund,
- Power of the RBI to issue directions to an NBFC or to the NBFCs in general or to a class of NBFCs.
- Comprehensive regulation and Supervision of deposit taking NBFCs and limited supervision over those not accepting public deposits.

(3) Basic Structure of Regulatory and Supervisory Framework

- Prescription of prudential norms akin to those applicable to banks,
- Submission of periodical returns for the purpose of off-site surveillance,
- Supervisory framework comprising (a) on-site inspection (CAMELS pattern) (b) off-site monitoring through returns (c) market intelligence, and (d) exception reports by statutory auditors,
- Punitive action like cancellation of Certificate of Registration (CoR), prohibition from acceptance of deposits and alienation of assets, filing criminal complaints and winding up petitions in extreme cases, appointment of the RBI observers in certain cases, etc.
- Co-ordination with State Governments to curb 60organization and fraudulent activities, training programmes for personnel of NBFCs, State Governments and Police officials.

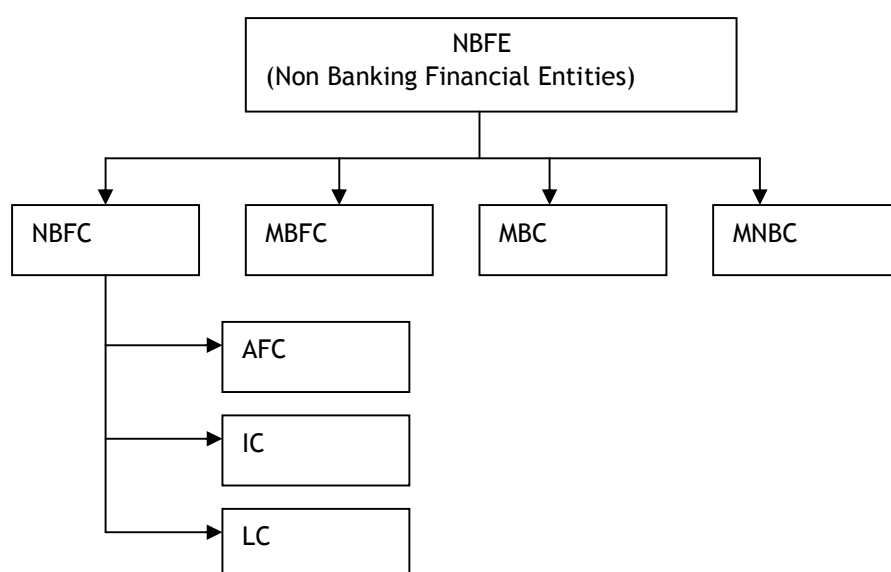

(4) Other steps for protection of depositors' interest

- Publicity for depositors' education and awareness, workshops / seminars for trade and industry organizations, depositors' associations, chartered accountants, etc.

- Standard asset, i.e., the asset in respect of which no default in repayment of principal or payment of interest is perceived and which does not disclose any problem nor carry more than normal risk attached to the business;
- Sub-standard asset, i.e., (a) an asset, which has been classified as non-performing asset for a period not exceeding 18 months; b) an asset where the terms of the agreement regarding interest and / or principal have been renegotiated or rescheduled or restructured after commencement of operations, until the expiry of one year of satisfactory performance under the renegotiated or rescheduled or restructured terms;

An asset is classified as a non performing asset when:

- (a) an asset, in respect of which, interest has remained overdue for a period of six months or more;
- (b) a term loan inclusive of unpaid interest, when the instalment is overdue for a period of six months or more or on which interest amount remained overdue for a period of six months or more;

The Prudential Norms Directions also require every NBFC to make provisions against substandard assets, doubtful assets and loss assets, after taking into account the time lag between an accounts becoming non-performing, its recognition as such, the realization of the security and the erosion over time in the value of security charged. Such provisions are required to be made as provided below:

Loans advances and other credit facilities including bills purchased and discounted. The provisioning requirement in respect of loans advances and other credit facilities including bills purchased and discounted is as under:

- **Loss asset:** The entire asset is required to be written off if the assets are permitted to remain in the books for any reason, 100 per cent of the outstanding should be provided for;
- **Doubtful asset:** (a) 100 per cent provision to the extent to which the advance is not covered by the realizable value of the security to which the NBFC has a valid recourse is required to be made. The 68rganizati value is to be made estimated on a realistic basis; (b) In addition, to item a) above, depending on the period for which the asset has remained doubtful, provision to the extent of 20 per cent to 50 per cent of the secured portion (i.e., estimated 68rganizati value of the outstanding) is required to be made as follows. Accordingly, if the asset has been considered doubtful for upto one year, provision to the extent of 20 per cent of the secured portion is required to be made; if the asset has been considered doubtful for one to three years, provision to the extent of 30 per cent of the secured portion is required to be made; and if the asset has been considered doubtful for more than three years, provision to the extent of 50 per cent of the secured portion is required to be made.

OVERVIEW OF THE BUSINESS

THE INDUSTRY OVERVIEW

NBFCs are an integral part of the country's financial system complementing the services of commercial banks. The main reason attributed to the growth of NBFCs is the comprehensive regulation of the banking system. Other factors include higher level of customer orientation, lesser pre/post sanction requirements and higher rates of interest on deposits being offered by NBFCs. It is mandatory that every NBFC should be registered with RBI to carry on any business of non banking financial institution.

The activities of non-banking financial companies (NBFCs) in India have undergone qualitative changes over the years through functional specialisation. The role of NBFCs as effective financial intermediaries has been well recognized as they have inherent ability to take quicker decisions, assume greater risks, and customize their services and charges more according to the needs of the clients. While these features, as compared to the banks, have contributed to the proliferation of NBFCs, their flexible structures allow them to unbundle services provided by banks and market the components on a competitive basis. The distinction between banks and non-banks has been gradually getting blurred since both the segments of the financial system engage themselves in many similar types of activities. At present, NBFCs in India have become prominent in a wide range of activities like hire-purchase finance, equipment lease finance, loans, investments, etc. By employing innovative marketing strategies and devising tailor-made products, NBFCs have also been able to build up a clientele base among the depositors, mop up public savings and command large resources as reflected in the growth of their deposits from public, shareholders, directors and other companies, and borrowings by issue of non-convertible debentures, etc.

BUSINESS OVERVIEW

FACTORS AFFECTING OUR FUTURE RESULTS OF OPERATIONS

Our results of operations could potentially be affected by the following factors amongst others:

But there are certain areas which may affect the results of the operation the details of the same are as follows:-

Any slowdown in economic growth in India will impact our business

Our business performance and growth dependent on Indian Economy. A slowdown in the Indian Economy could adversely affect our business and our ability to implement our business strategy. India’s Economy could be adversely affected by a general rise in interest rates, decline of growth of industrial, manufacturing and services sector.

Creditworthiness of the clients

Any delay in enforcing the collateral when borrowers defaults on their obligations, which may result in failure to recover the expected value of collateral and adversely affect the financial performance. At the same time any change in the value of the underlying assets (collateral security) exposes our Company to potential losses, which could adversely affect the business and future financial performance of our company.

Volatility of interest rate.

We are in the money lending business .We are exposed to the risk of higher interest rates. If the yield on our Company’s interest-earning assets does not increase to the same extent as our cost of funds, our net interest income would be adversely impacted.

Competition in NBFC Business
