We have only applied to BSE Limited to use its name as the Stock Exchange in this offer document for listing our shares on the SME Platform of BSE. In accordance with Indian law and practice, permission for listing and trading of the Equity Shares issued pursuant to the Issue will not be granted until after the Equity Shares have been issued and allotted. Approval for listing and trading will require all relevant documents authorizing the issuing of Equity Shares to be submitted. There could be a failure or delay in listing the Equity Shares on the SME Platform of BSE. Any failure or delay in obtaining the approval would restrict your ability to dispose of your Equity Shares.

37. The price of our Equity Shares may be volatile, or an active trading market for our Equity Shares may not develop.

Prior to this Issue, there has been no public market for our Equity Shares. Guinness Securities Limited is acting as Designated Market Maker for the Equity Shares of our Company. However, the trading price of our Equity Shares may fluctuate after this Issue due to a variety of factors, including our results of operations and the performance of our business, competitive conditions, general economic, political and social factors, the performance of the Indian and global economy and significant developments in India's fiscal regime, volatility in the Indian and global securities market, performance of our competitors, the Indian Capital Markets, changes in the estimates of our performance or recommendations by financial analysts and announcements by us or others regarding contracts, acquisitions, strategic partnerships, joint ventures, or capital commitments. In addition, if the stock markets experience a loss of investor confidence, the trading price of our Equity Shares could decline for reasons unrelated to our business, financial condition or operating results. The trading price of our Equity Shares might also decline in reaction to events that affect other companies in our industry even if these events do not directly affect us. Each of these factors, among others, could materially affect the price of our Equity Shares. There can be no assurance that an active trading market for our Equity Shares will develop or be sustained after this Issue, or that the price at which our Equity Shares are initially offered will correspond to the prices at which they will trade in the market subsequent to this Issue. For further details of the obligations and limitations of Market Makers please refer to the section titled "*General Information – Details of the Market Making Arrangement for this Issue*" on page 45 of this Draft Prospectus.

38. There are restrictions on daily movements in the price of the Equity Shares, which may adversely affect a shareholder's ability to sell, or the price at which it can sell, Equity Shares at a particular point in time.

Following the Issue, we will be subject to a daily "circuit breaker" imposed by BSE, which does not allow transactions beyond specified increases or decreases in the price of the Equity Shares. This circuit breaker operates independently of the index-based, market-wide circuit breakers generally imposed by SEBI on Indian stock exchanges. The percentage limit on our circuit breakers will be set by the stock exchanges based on the historical volatility in the price and trading volume of the Equity Shares. The BSE may not inform us of the percentage limit of the circuit breaker in effect from time to time and may change it without our knowledge. This circuit breaker will limit the upward and downward movements in the price of the Equity Shares. As a result of this circuit breaker, no assurance can be given regarding your ability to sell your Equity Shares or the price at which you may be able to sell your Equity Shares at any particular time.

EXTERNAL RISK FACTORS

39. Political, economic and social changes in India could adversely affect our business.

Our business, and the market price and liquidity of our Company's shares, may be affected by changes in Government policies, including taxation, social, political, economic or other developments in or affecting India could also adversely affect our business. Since 1991, successive governments have pursued policies of economic liberalization and financial sector reforms including significantly relaxing restrictions on the private sector. In addition, any political instability in India may adversely affect the Indian economy and the Indian securities markets in general, which could also affect the trading price of our Equity Shares.

40. Changing laws, rules and regulations including adverse application of tax laws and regulations-such as application of goods and service tax could adversely affect our business, results of operations and cash flows.

Our business and financial performance could be adversely affected by changes in law or interpretations of existing, or the promulgation of new, laws, rules and regulations in India applicable to us and our business. Please refer to the section "Regulations and Policies" beginning on page 105 for details of the laws currently applicable to us.

For instance, the Government of India has proposed a comprehensive national goods and service tax ("GST") regime that will combine taxes and levies by the Central and State Governments into a unified rate structure. Although the Government announced that it is committed to introduce GST with effect from April 1, 2016, given the limited availability of information in the public domain concerning the GST, we are unable to provide any assurance as to this or any other aspect of the tax regime following implementation of the GST. The implementation of this rationalized tax structure may be affected by any disagreement between certain state governments, which may create uncertainty. Recently, the Central Government pursuant to a notification dated May 19, 2015 notified an increase in service tax rate from 12.36% to 14% (with effect from June 1, 2015), as was proposed in Union Budget 2015. The levy of Education Cess and Secondary and Higher Education Cess on taxable services ceased to have effect from June 1, 2015. Any such future increases or amendments may affect the overall tax efficiency of companies operating in India and may result in significant additional taxes becoming payables. Additionally, the central or state government may in the future increase the corporate income tax it imposes.

41. Our business may be adversely affected by competition laws in India and any adverse application or interpretation of the Competition Act could adversely affect our business.

The Competition Act, 2002, as amended (the "Competition Act"), regulates practices having an appreciable adverse effect on competition in the relevant market in India. Under the Competition Act, any formal or informal arrangement, understanding or action in concert, which causes or is likely to cause an appreciable adverse effect on competition is considered void and results in the imposition of substantial monetary penalties. Further, any agreement among competitors which directly or indirectly involves the determination of purchase or sale prices, limits or controls production, supply, markets, technical development, investment or provision of services, shares the market or source of production or provision of services by way of allocation of geographical area, type of goods or services or number of clients in the relevant market or directly or indirectly results in bid-rigging or collusive bidding is presumed to have an appreciable adverse effect on competition. The Competition Act also prohibits abuse of a dominant position by any enterprise.

The applicability or interpretation of the Competition Act to any merger, amalgamation or acquisition proposed or undertaken by us, or any enforcement proceedings initiated by CCI for alleged violation of provisions of the Competition Act may adversely affect our business, financial condition or results of operation.

42. Our business is subject to a significant number of tax regimes and changes in legislation governing the rules implementing them or the regulator enforcing them in any one of those jurisdictions could negatively and adversely affect our results of operations.

The revenues recorded and income earned is taxed on differing bases, including net income actually earned, net income deemed earned and revenue-based tax withholding. The final determination of the tax liabilities involves the interpretation of local tax laws as well as the significant use of estimates and assumptions regarding the scope of future operations and results achieved and the timing and nature of income earned and expenditures incurred. Changes in the operating environment, including changes in tax laws, could impact the determination of the tax liabilities of our Company for any year.

43. Natural calamities and force majeure events may have an adverse impact on our business.

Natural disasters may cause significant interruption to our operations, and damage to the environment that could have a material adverse impact on us. The extent and severity of these natural disasters determines their impact on the Indian economy. Prolonged spells of deficient or abnormal rainfall and other natural calamities could have an adverse impact on the Indian economy, which could adversely affect our business and results of operations.

44. Our transition to IFRS reporting could have a material adverse effect on our reported results of operations or financial condition.

Our Company may be required to prepare annual and interim financial statements under IFRS in accordance with the roadmap for the adoption of, and convergence with, the IFRS announced by the Ministry of Corporate Affairs, Government of India through a press note dated January 22, 2010 ("IFRS Convergence Note"). The Ministry of Corporate Affairs by a press release dated February 25, 2011 has notified that 32 Indian Accounting Standards are to be converged with IFRS. The date of implementation of such converged Indian accounting standards has not yet been determined and will be notified by the Ministry of Corporate Affairs after various tax related issues are resolved. We have not yet determined with certainty what impact the adoption of IFRS will have on our financial reporting. Our financial condition, results of operations, cash flows or changes in shareholders' equity may appear materially different under IFRS than under Indian GAAP or our adoption of IFRS may adversely affect our reported results of operations or financial condition. This may have a material adverse effect on the amount of income recognized during that period.

45. Restrictions on foreign investment limit our ability to raise debt or capital outside India.

Indian laws constrain our ability to raise capital outside India through the issuance of equity or convertible debt securities and restrict the ability of non-Indian companies to invest in us. Foreign investment in, or an acquisition of, an Indian company requires approval from the relevant government authorities in India, including the Reserve Board of India and the Foreign Investment Promotion Board.

46. Any downgrading of India's debt rating by a domestic or international rating agency could negatively impact our business.

Any adverse revisions to India's credit ratings for domestic and international debt by domestic or international rating agencies may adversely impact our ability to raise additional financing, and the interest rates and other commercial terms at which such additional financing is available. This could have an adverse effect on our financial results and business prospects, ability to obtain financing for capital expenditures and the price of our Equity Shares.

47. Hostilities, terrorist attacks, civil unrest and other acts of violence could adversely affect the financial markets and our business.

Terrorist attacks and other acts of violence or war may adversely affect the Indian markets on which our Equity Shares will trade. These acts may result in a loss of business confidence, make travel and other services more difficult and have other consequences that could have an adverse effect on our business. In addition, any deterioration in international relations, especially between India and its neighboring countries,

may result in investor concern regarding regional stability which could adversely affect the price of our Equity Shares. In addition, India has witnessed local civil disturbances in recent years and it is possible that future civil unrest as well as other adverse social, economic or political events in India could have an adverse impact on our business. Such incidents could also create a greater perception that investment in Indian companies involves a higher degree of risk and could have an adverse impact on our business and the market price of our Equity Shares.

48. Third party statistical and financial data in this Draft Prospectus may be incomplete or unreliable.

We have not independently verified any of the data from industry publications and other sources referenced in this Draft Prospectus and therefore cannot assure you that they are complete or reliable. Discussions of matters relating to India, its economies or the industries in which we operate in this Draft Prospectus are subject to the caveat that the statistical and other data upon which such discussions are based may be incomplete or unreliable.

49. The Companies Act, 2013 has effected significant changes to the existing Indian company law framework, which may subject us to greater compliance requirements and increase our compliance costs.

A majority of the provisions and rules under the Companies Act, 2013 have been notified and have come into effect from the date of their respective notification, resulting in the corresponding provisions of the Companies Act, 1956 ceasing to have effect. The Companies Act, 2013 provides for, among other things, changes to the regulatory framework governing the issue of capital by companies, corporate governance, audit procedures, corporate social responsibility, specific compliance requirements such as obtaining prior approval from audit committee, board of directors and shareholders for certain related party transactions and the requirements for independent directors, director's liability, class action suits, and the inclusion of women directors on the boards of companies. The Companies Act, 2013 is expected to be complemented by a set of rules that shall set out the procedure for compliance with the substantive provisions of the Companies Act, 2013. In the absence of such rules, it is difficult to predict with any degree of certainty the impact, adverse or otherwise, of the Companies Act, 2013 on the issue, and on the business, prospects and results of operations of the Company.

KEY INDUSTRY REGULATIONS AND POLICIES

The following description is a summary of certain sector specific laws and regulations in India, which are applicable to the Company. The information detailed in this chapter has been obtained from publications available in the public domain. The regulations set out below may not be exhaustive, and are only intended to provide general information to the investors and are neither designed nor intended to substitute for professional legal advice.

Our Company is engaged in the business of manufacturing, selling and exporting pharmaceutical products in particular Active Pharmaceutical Ingredients (API), Intermediates and Finished Dosage Formulations (FDFs) and Finished Dosage Forms (FDFs). Our Company is governed by a number of central and state legislations that regulate its business. The following discussion summarizes certain significant Indian laws and regulations that govern our Company's business.

INDUSTRY-SPECIFIC REGULATIONS

The Drugs and Cosmetics Act, 1940 ("D. C. Act")

The D. C. Act regulates the import, manufacture, distribution and sale of drugs and cosmetics in India as well as aspects relating to labeling, packing and testing. The D. C. Act also provides the procedure for testing and licensing of new drugs. The D. C. Act also prohibits the import of certain categories of drugs and cosmetics. It further mandates that every person holding a license must keep and maintain such records, registers and other documents as may be prescribed which may be subject to inspection by the relevant authorities. Under the D. C. Act, the Government may, by notification in the official gazette, regulate or prohibit the manufacture, sale or distribution of a drug, if it is satisfied that in the public interest, it is necessary or expedient to do so or that the use of such drug is likely to involve any risk to human beings or animals or that it does not have the therapeutic value claimed or purported to be claimed for it or contains ingredients and in such quantity for which there is no therapeutic justification. Penalties in terms of fine and imprisonment are prescribed under the D. C. Act for contravention of its provisions.

The Drugs and Cosmetics Rules, 1945

The Drugs and Cosmetics Rules, 1945 (the "DCA Rules") have been enacted to give effect to the provisions of the DCA Act to regulate the, manufacture, distribution and sale of drugs and cosmetics in India. The DCA Rules prescribe the procedure for submission of report to the Central Drugs Laboratory, of samples of drugs for analysis or test, the forms of Central Drugs Laboratory's reports thereon and the fees payable in respect of such reports. The DCA Rules also prescribe the drugs or classes of drugs or cosmetics or classes of cosmetics for the import of which a licence is required, and prescribe the form and conditions of such licence. Further, the DCA Rules provide for the cancellation or suspension of such licence in any case where any provisions or rule applicable to the import of drugs and cosmetic is contravened or any of the conditions subject to which the licence is issued is not complied with. The DCA Rules further prescribe the manner of labeling and packaging of drugs.

National Pharmaceutical Pricing Policy 2012

In December 2012, the Government issued the National Pharmaceutical Pricing Policy, 2012 ("NPPP 2012") has replaced the Drug Policy of 1994. The objective of the NPPP 2012 is to put in place a regulatory framework for pricing of drugs so as to ensure availability of essential medicines at reasonable prices while providing sufficient opportunity for innovation and competition to support the growth of industry. The regulation of prices of drugs under the NPPP 2012 is on the basis of regulating the prices of formulations and is different from the earlier principle of regulating the prices of specified bulk drugs and their formulations under the Drug Policy 1994. The National Pharmaceuticals Pricing Authority ("NPPA") will be the implementation authority for the NPPP 2012. The NPPP 2012 provides for certain principles for drug price control and determination, which, *inter-alia*, include the following:

- a) Price regulation is on the basis of ‘essentiality’ of the drug as laid down in the National List of Essential Medicines – 2011 (“NLEM 2011”), declared by the Ministry of Health and Family Welfare, in public interest;
- b) Price regulation is applied only to formulations;
- c) The Span of Price Control is as per the dosages and strengths as listed in NLEM 2011;
- d) The methodology of fixing a ceiling price of essential medicines, is done by adopting the simple average price of all the brands having market share (on the basis of moving annual turnover) more than and equal to one percent of the total market turnover of that medicine.
- e) The formulations are to be priced only by fixing a ceiling price. Manufacturers would be free to fix any price for their products equal to or below the ceiling price. The ceiling price would be fixed on the dosage basis, such as per tablet, capsule, standard injection volume, as listed in NLEM 2011;
- f) The ceiling price will be fixed on the basis of readily monitorable market based data which would be available with IMS Health (IMS). Since the IMS data gives price figures for stockist level prices, in order to arrive at ceiling price (being the maximum retail price), the price derived from IMS data would be further increased by 16% as margin to the retailer so as to arrive at a reasonable ceiling price chargeable from the consumers. For drugs not in the IMS data, NPPA would collect data by commissioning the same.
- g) The prices of such essential medicines will be allowed an annual increase as per the ‘Wholesale Price Index’ as notified by the Department of Industrial Policy & Promotion;
- h) The prices of non-essential drugs are to be monitored by the Government on a regular basis and where the price of such drugs increases at a rate of above 10% per annum, the Government is empowered to have the price of these drugs reduced below the limit, for the next 12 months; and
- i) The ceiling prices determined for drugs under the NPPP 2012 are also be applicable to imported drugs.

The NPPP 2012 further, in order to promote innovation and R&D, provides for certain exemptions, to which price control does not apply, such as:

- a) A product or process patented under the Indian Patent Act, 1970, if developed through indigenous R&D, is eligible for exemption from price control for a period of five years from the date of commencement of its commercial production; and
- b) A formulation involving a new delivery system developed through indigenous R&D is also eligible for exemption from price control for a period of 5 (five) years from the date of its market approval in India. The certification of innovation and R&D may be provided by the office of DCGI.

The Essential Commodities Act, 1955 (“ECA”)

The ECA provides for the control of the production, supply and distribution of, and trade and commerce in certain commodities. The ECA gives powers to the Government amongst others, to control production, supply and distribution of essential commodities for maintaining or increasing supplies and for securing their equitable distribution and availability at fair prices. Using the powers under it, various ministries/departments of the Government have issued control orders for regulating production, distribution, quality aspects, movement and prices pertaining to the commodities which are essential and administered by them. The State Governments have issued various control orders to regulate various aspects of trading in essential commodities such as food grains, edible oils, pulses kerosene, sugar and drugs. The Collector of the District or the concerned authority has the power to confiscate the commodity if it contravenes the order.

Essential Commodities (Punjab Amendment) Act, 1959

According to the Section 7-A, the court has been given the power of direct forfeiture to the government of property including packages, coverings or receptacles used in the commission of the offence relating to foodstuffs which is punishable under Section, as well as forfeiture of all the animals, vehicles vessels, or other conveyances used in carrying the said property.

The Drugs (Prices Control) Order, 2013 (“DPCO, 2013”)

In May 2013, the Central Government in exercise of its powers under the Essential Commodities Act, 1955 issued the Drugs Prices (Control) Order, 2013 which will replace the Drugs Prices (Control) Order, 1995. The National Pharmaceutical Pricing Policy, 2012 will be the implementation authority for the new Drug Prices (Control) Order, 2013.

The DPCO is passed under section 3 of the ECA and is to be read with the DCA. The DPCO, inter alia, provides the list of price controlled drugs, procedures for fixing the prices of drugs, method of implementation of prices fixed by Government and penalties for contravention of provisions and formulations which fall within the purview of the legislation.

The DPCO provides for the formulae for calculation of ceiling prices and retail prices of drug formulation and there are penal provisions for violation of any rules and regulations under the ECA. As per section 7 of the ECA, the penalty for contravention of the DPCO is minimum imprisonment of 3 (three) months, which may extend to seven years and the violator is also liable to pay a fine.

The DPCO provides that the Government may, in extraordinary circumstances, if it considers necessary to do so in the light of public interest, fix the ceiling price or retail price of any drug for such period as it may consider fit, and where the ceiling price or retail price is already fixed and notified, it may allow an increase or decrease in the ceiling price or the retail price as the case may be, irrespective of the annual wholesale price index for that year.

Under the provisions of the DPCO, every manufacturer of a schedule formulation intended for sale shall display in indelible print mark, on the label of container of the formulation and the minimum pack thereof offered for retail sale, the maximum retail price of that formulation based on the ceiling price notified in the Official Gazette or ordered by the Government in this behalf with the words "Maximum Retail Price" preceding it and the words 'inclusive of all taxes' succeeding it.

The provisions of this order do not apply to a manufacturer producing a new drug patented under the Indian Patent Act, 1970 (product patent) and not produced elsewhere, if developed through indigenous Research and Development, for a period of five years from the date of commencement of its commercial production in the country or a manufacturer producing a new drug in the country by a new process developed through indigenous Research and Development and patented under the Indian Patent Act, 1970 for a period of five years from the date of the commencement of its commercial production in the country or a manufacturer producing a new drug involving a new delivery system developed through indigenous Research and Development for a period of five years from the date of its market approval in India.

The Drugs (Control) Act, 1950 (“Drugs Control Act”)

The DC Act was enacted to provide for the control of sale, supply and distribution of drugs. The Drug Control Act empowers the Central Government to inter alia declare any drug to be a drug to which this act shall apply and to fix maximum prices and maximum quantities thereof, which may be held or sold, by a dealer or producer. The Drugs Control Act also provides for penalties arising due to contraventions of any of the provisions of the Drugs Control Act or of any direction made under authority conferred by the Drugs Control Act, which shall be punishable with imprisonment for a term which may extend to three years, or with fine, or with both.

The East Punjab Drugs (Control) Act, 1949 (“the EPD Act”)

The EPD Act makes stringent provisions for the control of the Sale, Supply and Distribution of Drugs. The State Government may fix the maximum price; maximum quantity possessed at one time and maximum quantity in one transaction of the drug by a dealer or producer. According to Section 5 of the EPD Act, no dealer or producer shall (a) sell, agree to sell, offer for sale or otherwise dispose of to any person any drug for a price or at a rate exceeding the maximum fixed; (b) have in his possession at any one time a quantity of any drug exceeding the maximum fixed or (c) sell, agree to sell, offer for sale to any person in any one transaction a quantity of any article exceeding the

maximum fixed. Whoever contravenes any of the provisions of this Act or of any direction made under authority conferred by the EPD Act shall be punishable with imprisonment for a term which may extend to 3 (three) years or with fine or with both.

The Food Safety and Standards Act, 2006 (“FSSA”)

The FSSA was enacted on August 23, 2006 with a view to consolidating the laws relating to food and to establish the Food Safety and Standards Authority of India (“Food Authority”), for laying down science based standards for articles of food and to regulate their manufacture, storage, distribution, sale and import, to ensure availability of safe and wholesome food for human consumption. The Food Authority is required to provide scientific advice and technical support to the Government of India and the state governments in framing the policy and rules relating to food safety and nutrition. The FSSA also sets out requirements for licensing and registration of food businesses, general principles of food safety, and responsibilities of the food business operator and liability of manufacturers and sellers, and adjudication by ‘Food Safety Appellate Tribunal’. In exercise of powers under the FSSA, the Food Authority has framed the Food Safety and Standards Rules, 2011 (“FSSR”) which have been operative since August 5, 2011. The FSSR provides the procedure for registration and licensing process for food business and lays down detailed standards for various food products. The FSSR also sets out the enforcement structure of ‘commissioner of food safety’, ‘food safety officer’ and ‘food analyst’ and procedures of taking extracts, seizure, sampling and analysis. The FSSA provides for the Food Authority to be aided by several scientific panels and a central advisory committee to lay down standards for food safety. The standards will include specifications for ingredients, limit of quantities of contaminants, tolerance limits of pesticide drugs residue, biological hazards and labels. The Food Authority has also framed the following food safety and standards regulations in relation to various food products and additives:

- Food Safety and Standards (Licensing and Registration of Food Businesses) Regulations, 2011;
- Food Safety and Standards (Packaging and Labelling) Regulations, 2011;
- Food Safety and Standards (Food Product Standards and Food Additives) Regulations, 2011;
- Food Safety and Standards (Prohibition and Restriction on Sales) Regulations, 2011;
- Food Safety and Standards (Contaminates, Toxins and Residues) Regulations, 2011; and
- Food Safety and Standards (Laboratory and Sampling Analysis) Regulations, 2011.

The Act authorizes the Central Government to take all such measures as it deems necessary or expedient for the purpose of preventing and combating abuse of narcotic drugs and psychotropic substances. The Narcotic Drugs and Psychotropic Substances Act, 1985 prohibits the production, manufacture, possess, sell, purchase, transport, warehouse, use, consume, import inter-State, export inter-State, import into India, export from India or transport any narcotic drug or psychotropic substance, except for medical or scientific purposes as provided. Narcotic Drugs and Psychotropic Substances (Amendment) Bill, 2011 was introduced before the Parliament and referred to the Standing Committee in September, 2011. The Bill lays down that whoever consumes any narcotic drug or psychotropic substance in contravention of any provision of the Act or any rule or order made thereunder shall be punishable with imprisonment for a term which may extend to six months or with fine which may extend to ten thousand rupees or with both. The Bill also enhances the penalty for offences committed after previous convictions.

The Drugs and Magic Remedies (Objectionable Advertisements) Act, 1954

The Drugs and Magic Remedies (Objectionable Advertisements) Act, 1954 seeks to control advertisements of drugs in certain cases and prohibits advertisements of remedies that claim to possess magic qualities and provides for matters connected therewith. For the purposes of this Act, advertisements include any notice, circular, label, wrapper, or other document or announcement. The schedule to the Act specifies ailments for which no advertisement is allowed. It prohibits advertisements that misrepresent, make false claims or mislead.

In India, the main legislation concerning foreign trade is FTA. The FTA read along with relevant rules provides for the development and regulation of foreign trade by facilitating imports into, and augmenting exports from, India and for matters connected therewith or incidental thereto. As per the provisions of the Act, the Government:- (i) may make provisions for facilitating and controlling foreign trade; (ii) may prohibit, restrict and regulate exports and imports, in all or specified cases as well as subject them to exemptions; (iii) is authorised to formulate and announce an export and import policy and also amend the same from time to time, by notification in the Official Gazette; (iv) is also authorised to appoint a 'Director General of Foreign Trade' for the purpose of the Act, including formulation and implementation of the Export-Import (“EXIM”) Policy. FTA read with the Indian Foreign Trade Policy provides that no export or import can be made by a company without an Importer-Exporter Code number unless such company is specifically exempt. An application for an Importer-Exporter Code number has to be made to the office of the Joint Director General of Foreign Trade, Ministry of Commerce.

REGULATIONS REGARDING FOREIGN INVESTMENT

Foreign investment in companies in the pharmaceutical industry is governed by the provisions of the Foreign Exchange Management Act, 1999 (“**FEMA**”) read with the applicable regulations. The Department of Industrial Policy and Promotion (“**DIPP**”), Ministry of Commerce and Industry has issued ‘Consolidated FDI circular of

2015' (the “**FDI Circular**”) which consolidates the policy framework on Foreign Direct Investment (“**FDI**”), with effect from May 12, 2015. The FDI Circular consolidates and subsumes all the press notes, press releases, and clarifications on FDI issued by DIPP till May 11, 2015. All the press notes, press releases, clarifications on FDI issued by DIPP till May 11, 2015 stand rescinded as on May 12, 2015.

Foreign investment is permitted (except in the prohibited sectors) in Indian companies either through the automatic route or the approval route, depending upon the sector in which foreign investment is sought to be made. Under the approval route, prior approval of the Government of India through FIPB is required. FDI for the items or activities that cannot be brought in under the automatic route may be brought in through the approval route. Where FDI is allowed on an automatic basis without the approval of the FIPB, the RBI would continue to be the primary agency for the purposes of monitoring and regulating foreign investment. In cases where FIPB approval is obtained, no approval of the RBI is required except with respect to fixing the issuance price, although a declaration in the prescribed form, detailing the foreign investment, must be filed with the RBI once the foreign investment is made in the Indian company. The RBI, in exercise of its power under the FEMA, has also notified the Foreign Exchange Management (Transfer or Issue of Security by a Person Resident outside India) Regulations, 2000 to prohibit, restrict or regulate, transfer by or issue security to a person resident outside India.

In terms of the FDI Circular issued by the DIPP, foreign investments in the sector in which the Company operates is permitted up to 100% under the automatic route for greenfield investments and up to 100% under the government approval route for brownfield investments (investments in existing companies). Further, the Government of India may incorporate appropriate conditions for FDI in brownfield cases at the time of granting approval.

RBI has also issued Master Circular on Foreign Investment in India dated July 01, 2015. In terms of the Master Circular, an Indian company may issue fresh shares to persons resident outside India (who are eligible to make investments in India, for which eligibility criteria are as prescribed). Such fresh issue of shares shall be subject to inter-alia, the pricing guidelines prescribed under the Master Circular. As mentioned above, the Indian company making such fresh issue of shares would be subject to the reporting requirements, inter-alia with respect to consideration for issue of shares and also subject to making certain filings including filing of Form FC-GPR.

2. Use of Estimates:

Actual results could differ from these estimates. The difference between the actual results and estimates are recognized in the period in which the results are known / materialized.

3. Current and non-current classification:

All the Assets and Liabilities have been classified as current and non-current based on the normal operating cycle of the Company and other criteria laid down in Schedule III of the Companies Act, 2013. Based on the nature of products / services, the Company has ascertained its operating cycle as 12 months for the purpose of current and non-current classification of assets and liabilities.

4. Revenue Recognition:

Sale of traded goods/material is recognized as revenue when significant risk and rewards of ownership relating to the goods are transferred to the buyer.

All Cost including any cost attributable in bringing the assets to their working condition for their intended use is capitalized. Expenditure on additions, improvement and renewable is capitalized.

Depreciation on fixed assets is calculated on written down value basis using the rates arrived at based on the useful life of the assets prescribed under Schedule II of the Companies Act, 2013 for the period / year ended on December 31, 2015 and March 31, 2015. Industry Overview

The Global Pharmaceutical Industry

According to the Economic Intelligence Unit (EIU), pharmaceutical sales are projected to increase an average of 6.9 percent annually over 2014-2018, outpacing the estimated global health care spending rate of 5.2 percent during that same period. Total pharma revenues are expected to increase from \$1.23 trillion in 2014 to \$1.61 trillion in 2018. In addition to oncology drugs, the cardiovascular therapeutic class will likely prosper, with four of the 10 projected blockbusters drugs belonging to the category. Spending on midmarket prescription drugs used for treating common chronic diseases is likely to stagnate as prices fall. The Indian Pharmaceutical Industry

Branded generics dominate the pharmaceuticals market, constituting nearly 70 to 80 per cent of the market. Currently, consolidation has become an important characteristic of the Indian pharmaceutical market as the industry is highly fragmented.

India enjoys an important position in the global pharmaceuticals sector. The country also has a large pool of scientists and engineers who have the potential to steer the industry ahead to an even higher level.

Current Scenario

Presently, the market size of the pharmaceutical industry in India stands at US\$ 20 billion. India's biotechnology industry comprising bio-pharmaceuticals, bio-services, bio-agriculture, bio-industry and bioinformatics is expected grow at an average growth rate of around 30 per cent a year and reach US\$ 100 billion by 2025. FACTORS AFFECTING OUR FUTURE RESULTS OF OPERATIONS

Our results of operations could potentially be affected by the following factors amongst others:

Client relationship and maximizing revenues

Our existing relationships with our clients are at the core of our business. We believe in client retention and derive a significant proportion of our revenues from repeat business. As a client relationship matures and deepens, we seek to maximise our revenues and profitability by expanding the product portfolio offered to that client with the objective of winning more business from our clients. To do this, we take part in client analysis to identify opportunities with our portfolio of existing clients, and use our relevant industry experience to market additional offerings to our clients. We believe that our ability to establish and strengthen client relationships will be an important factor in our future growth and our ability to continue increasing our profitability.

Production Costs and Quality of our Manufacturing Facilities

Our ability to maintain our position as a low-cost producer and increase our cost competitiveness is dependent on the efficient management of our production costs. The availability of key raw materials at competitive prices is critical and price fluctuations may adversely affect our margins and, as a result, our results of operations. Additionally, any significant changes in excise duties levied on raw materials and finished products and changes in salary costs of our employee could have an adverse effect on our financial condition and results of operations. In addition, in order to maximize our profits, we must maintain an appropriate standard of quality in our manufacturing facilities' equipment and processes. Attaining and maintaining this level of quality requires considerable expense and planning. If we are unable to achieve and preserve the necessary level of quality in our manufacturing processes and facilities in the future, our financial condition and results of operations may be adversely affected.

Industry Competition

Our products face intense competition from products commercialized or under development by competitors in all our therapeutic areas. Our business, prospects, results of operations and financial condition could be adversely affected if our competitors gain significant market share at our expense in areas in which we are focused. Many of our competitors may have greater financial, manufacturing, research and development, marketing and other resources, more experience in obtaining regulatory approvals, greater geographic reach, broader product ranges and stronger sales forces. Accordingly, our results of operations depend significantly on various factors such as the demand for our products in the markets we operate in, our ability to manage our growth strategy and expansion plans, including our ability to grow our exports and our ability to grow and manage our distribution network in India.

Macroeconomic Factors

Macroeconomic factors, both in the Indian and international contexts, such as economic instability, political uncertainty, social upheavals or acts of God could influence our business. In addition, fluctuations in interest rates, exchange rates and inflation would have an effect on certain key aspects of our operations, including on the costs of our raw materials, the prices at which we can sell our pharmaceutical products, our finance costs required to fund our operations and profit margins.

(a) The total number of Shares to be allocated to each category as a whole shall be arrived at on a proportionate basis i.e. the total number of Shares applied for in that category multiplied by the inverse of the over subscription ratio (number of Applicants in the category x number of Shares applied for).

(b) The number of Shares to be allocated to the successful Applicants will be arrived at on a proportionate basis in marketable lots (i.e. Total number of Shares applied for into the inverse of the over subscription ratio).

RESTRICTION ON FOREIGN OWNERSHIP OF INDIAN SECURITIES

Foreign investment in Indian securities is regulated through the Industrial Policy, 1991 of the Government of India and FEMA. While the Industrial Policy, 1991 prescribes the limits and the conditions subject to which foreign investment can be made in different sectors of the Indian economy, FEMA regulates the precise manner in which such investment may be made. Under the Industrial Policy, unless specifically restricted, foreign investment is freely permitted in all sectors of the Indian economy up to any extent and without any prior approvals, but the foreign investor is required to follow certain prescribed procedures for making such investment. The government bodies responsible for granting foreign investment approvals are the FIPB and the RBI.

The Government has from time to time made policy pronouncements on foreign direct investment (“**FDI**”) through press notes and press releases. The Department of Industrial Policy and Promotion, Ministry of Commerce and Industry, Government of India (“**DIPP**”), issued the Consolidated FDI Policy Circular of 2015 (“**FDI Circular 2015**”), which, with effect from May 12, 2015, consolidated and superseded all previous press notes, press releases and clarifications on FDI issued by the DIPP that were in force and effect as on May 12, 2015. The Government proposes to update the consolidated circular on FDI policy once every year and therefore, FDI Circular 2015 will be valid until the DIPP issues an updated circular.

The transfer of shares between an Indian resident and a non-resident does not require the prior approval of the FIPB or the RBI, provided that (i) the activities of the investee company are under the automatic route under the foreign direct investment policy and transfer does not attract the provisions of the Takeover Regulations; (ii) the non-resident shareholding is within the sectoral limits under the FDI policy; and (iii) the pricing is in accordance with the guidelines prescribed by the SEBI/RBI.

As per the existing policy of the Government of India, OCBs cannot participate in this Offer.

The Equity Shares have not been and will not be registered under the Securities Act, and may not be offered or sold within the United States except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the Securities Act and applicable U.S. state securities laws. Accordingly, the Equity Shares are being offered and sold (i) within the United States to persons reasonably believed to be qualified institutional buyers (as defined in Rule 144A under the Securities Act) pursuant to Rule 144A of the Securities Act and (ii) outside the United States in offshore transactions in reliance on Regulation S under the Securities Act and applicable laws of the jurisdictions where such offers and sales occur.

The above information is given for the benefit of the Applicants. Our Company and the Lead Manager are not liable for any amendments or modification or changes in applicable laws or regulations, which may occur after the date of this Draft Prospectus. Applicants are advised to make their independent investigations and ensure that the number of Equity Shares applied for do not exceed the applicable limits under laws or regulations.
