CERTAIN CONVENTIONS, USE OF FINANCIAL INFORMATION AND MARKET DATA AND CURRENCY OF PRESENTATION

In this Draft Prospectus, the terms “we”, “us”, “our”, the “Company”, “our Company”, “**TAYLORMADE RENEWABLES LIMITED**” and “TRL”, unless the context otherwise indicates or implies, refers to **TAYLORMADE RENEWABLES LIMITED**.

Certain Conventions

All references in this Draft Prospectus to “India” are to the Republic of India. All references in this Draft Prospectus to the “U.S.”, “USA” or “United States” are to the United States of America.

Financial Data

Unless stated otherwise, the financial data in this Draft Prospectus is derived from our restated financial statements for the financial years ended March 31, 2014, 2015, 2016 and 2017 and for period ended December 31, 2017 prepared in accordance with Indian GAAP, the Companies Act and restated in accordance with the SEBI (ICDR) Regulations and the Indian GAAP which are included in this Draft Prospectus, and set out in ‘*Financial Statements*’ on page 137 of this Draft Prospectus.

Our Company’s financial year commences on April 1 of the immediately preceding calendar year and ends on March 31 of that particular calendar year, so all references to a particular financial year are to the 12 month period commencing on April 1 of the immediately preceding calendar year and ending on March 31 of that particular calendar year.

There are significant differences between the Indian GAAP, the International Financial Reporting Standards (the “**IFRS**”) and the Generally Accepted Accounting Principles in the United States of America (the “**U.S. GAAP**”). Accordingly, the degree to which the financial statements included in this Draft Prospectus will provide meaningful information is entirely dependent on the reader’s level of familiarity with Indian accounting practices. Any reliance by persons not familiar with Indian accounting practices, the Indian GAAP, the Companies Act and the SEBI (ICDR) Regulations on the financial disclosures presented in this Draft Prospectus should accordingly be limited. We have not attempted to quantify the impact of the IFRS or the U.S. GAAP on the financial data included in this Draft Prospectus, nor do we provide a reconciliation of our financial statements to those under the U.S. GAAP or the IFRS and we urge you to consult your own advisors regarding such differences and their impact on our financial data.

Certain figures contained in this Draft Prospectus, including financial information, have been subject to rounding adjustments. All decimals have been rounded off to two decimal points, except for figures in percentage. In certain instances, (i) the sum or percentage change of such numbers may not conform exactly to the total figure given; and (ii) the sum of the numbers in a column or row in certain tables may not conform exactly to the total figure given for that column or row. However, where any figures that may have been sourced from third-party industry sources are rounded off to other than two decimal points in their respective sources, such figures appear in this Draft Prospectus as rounded-off to such number of decimal points as provided in such respective sources.

Currency and units of presentation

In this Draft Prospectus, unless the context otherwise requires, all references to (a) ‘Rupees’ or ‘₹’ or ‘Rs.’ or ‘INR’ are to Indian rupees, the official currency of the Republic of India; (b) ‘US Dollars’ or ‘US\$’ or ‘USD’ or ‘\$’ are to United States Dollars, the official currency of the United States of America. All references to the word ‘Lakh’ or ‘Lac’ or ‘Lacs’, means ‘One hundred thousand’ and the word ‘Million’ means ‘Ten lakhs’ and the word ‘Crore’ means ‘Ten Million’ and the word ‘Billion’ means ‘One thousand Million’.

Any percentage amounts, as set forth in “*Risk Factors*”, “*Our Business*”, “*Management's Discussion and Analysis of Financial Conditions and Results of Operation*” and elsewhere in this Draft Prospectus, unless otherwise indicated, have been calculated based on our restated financial statement prepared in accordance with Indian GAAP.

Industry and Market Data

Unless stated otherwise, industry and market data used throughout this Draft Prospectus has been obtained or derived from internal Company reports and industry and government publications,

publicly available information and sources. Industry publications generally state that the information contained in those publications has been obtained from sources believed to be reliable but that their accuracy and completeness are not guaranteed and their reliability cannot be assured. Although, our Company believes that industry data used in this Draft Prospectus is reliable, it has not been independently verified.

Further, the extent to which the industry and market data presented in this Draft Prospectus is meaningful depends on the reader's familiarity with and understanding of, the methodologies used in compiling such data. There are no standard data gathering methodologies in the industry in which we conduct our business, and methodologies and assumptions may vary widely among different industry sources.

FORWARD LOOKING STATEMENTS

All statements contained in this Draft Prospectus that are not statements of historical facts constitute 'forward-looking statements'. All statements regarding our expected financial condition and results of operations, business, objectives, strategies, plans, goals and prospects are forward-looking statements. These forward-looking statements include statements as to our business strategy, our revenue and profitability, planned projects and other matters discussed in this Draft Prospectus regarding matters that are not historical facts. These forward looking statements and any other projections contained in this Draft Prospectus (whether made by us or any third party) are predictions and involve known and unknown risks, uncertainties and other factors that may cause our actual results, performance or achievements to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements or other projections.

These forward looking statements can generally be identified by words or phrases such as "will", "aim", "will likely result", "believe", "expect", "will continue", "anticipate", "estimate", "intend", "plan", "contemplate", "seek to", "future", "objective", "goal", "project", "should", "will pursue" and similar expressions or variations of such expressions. Important factors that could cause actual results to differ materially from our expectations include but are not limited to:

- general economic and business conditions in the markets in which we operate and in the local, regional and national and international economies;
- our ability to successfully implement strategy, growth and expansion plans and technological initiatives;
- our ability to respond to technological changes;
- our ability to attract and retain qualified personnel;
- the effect of wage pressures, seasonal hiring patterns and the time required to train and productively utilize new employees;
- general social and political conditions in India which have an impact on our business activities or investments;
- potential mergers, acquisitions restructurings and increased competition;
- occurrences of natural disasters or calamities affecting the areas in which we have operations;
- market fluctuations and industry dynamics beyond our control;
- changes in the competition landscape;
- our ability to finance our business growth and obtain financing on favourable terms;
- our ability to manage our growth effectively;
- our ability to compete effectively, particularly in new markets and businesses;
- changes in laws and regulations relating to the industry in which we operate changes in government policies and regulatory actions that apply to or affect our business;
- developments affecting the Indian economy; and
- Inability to meet our obligations, including repayment, financial and other covenants under our debt financing arrangements.

For a further discussion of factors that could cause our current plans and expectations and actual results to differ, please refer "*Risk Factors*", "*Our Business*" and "*Management's Discussion and Analysis of Financial Condition and Results of Operations*" on page 16, 95 and 138 respectively of this Draft Prospectus. Forward looking statements reflects views as of the date of this Draft Prospectus and not a guarantee of future performance. By their nature, certain market risk disclosures are only estimates and could be materially different from what actually occurs in the future. As a result, actual future gains or losses could materially differ from those that have been estimated. Neither our Company / our Directors nor the Lead Managers, nor any of its affiliates have any obligation to update or otherwise revise any statements reflecting circumstances arising after the date hereof or to reflect the occurrence of underlying events, even if the underlying assumptions do not come to fruition. In accordance with SEBI requirements, our Company and the Lead Managers will ensure that investors in India are informed of material developments until such time as the listing and trading permission is granted by the Stock Exchange.

SECTION II – RISK FACTORS

An investment in Equity Shares involves a high degree of risk. You should carefully consider all the information in this Draft Prospectus, including the risks and uncertainties described below, before making an investment in our Equity Shares. In making an investment decision, prospective investors must rely on their own examination of our Company and the terms of this Issue including the merits and risks involved. Any potential investor in, and subscriber of, the Equity Shares should also pay particular attention to the fact that we are governed in India by a legal and regulatory environment in which some material respects may be different from that which prevails in other countries. The risks and uncertainties described in this section are not the only risks and uncertainties we currently face. Additional risks and uncertainties not known to us or that we currently deem immaterial may also have an adverse effect on our business. If any of the following risks, or other risks that are not currently known or are now deemed immaterial, actually occur, our business, results of operations and financial condition could suffer, the price of our Equity Shares could decline, and you may lose all or part of your investment. Additionally, our business operations could also be affected by additional factors that are not presently known to us or that we currently consider as immaterial to our operations.

Unless otherwise stated in the relevant risk factors set forth below, we are not in a position to specify or quantify the financial or other implications of any of the risks mentioned herein. Unless otherwise stated, the financial information of our Company used in this section is derived from our restated financial statements prepared in accordance with Indian GAAP and the Companies Act and restated in accordance with the SEBI ICDR Regulations. To obtain a better understanding, you should read this section in conjunction with the chapters titled “Our Business” beginning on page 95, “Our Industry” beginning on page 82 and “Management’s Discussion and Analysis of Financial Condition and Results of Operations” beginning on page 138 respectively, of this Draft Prospectus as well as other financial information contained herein.

The following factors have been considered for determining the materiality of Risk Factors:

- Some events may not be material individually but may be found material collectively;*
- Some events may have material impact qualitatively instead of quantitatively;*
- Some events may not be material at present but may have material impact in future.*

The financial and other related implications of risks concerned, wherever quantifiable, have been disclosed in the risk factors mentioned below. However, there are risk factors where the impact may not be quantifiable and hence the same has not been disclosed in such risk factors. Unless otherwise stated, we are not in a position to specify or quantify the financial or other risks mentioned herein. For capitalized terms used but not defined in this chapter, refer to the chapter titled “Definitions and Abbreviation” beginning on page 02 of this Draft Prospectus. The numbering of the risk factors has been done to facilitate ease of reading and reference and does not in any manner indicate the importance of one risk factor over another.

The risk factors are classified as under for the sake of better clarity and increased understanding:

INTERNAL RISKS

A. Business Related Risks

1. *Changes in technology may render our current technologies obsolete or require us to make substantial capital investments.*

Modernization and technology upgradation is essential to reduce costs and increase the output. Our technology and machineries may become obsolete or may not be upgraded timely, hampering our operations and financial conditions and we may lose our competitive edge. Although we believe that we have installed latest technology and that the chances of a technological innovation are not very high in our sector we shall continue to strive to keep our technology, plant and machinery in line with the latest technological standards. In case of a new found technology in the manufacturing facilities, we may be required to implement new technology or upgrade the machineries and other equipment's employed by us. Further, the costs in upgrading our technology and modernizing the plant and machineries are significant which could substantially affect our finances and operations.

2. *We generate our major portion of sales from our operations in certain geographical regions especially Uttarakhand, Chhattisgarh, Gujarat, Himachal Pradesh and Uttar Pradesh, among other states. Any adverse developments affecting our operations in these regions could have an adverse impact on our revenue and results of operations.*

We generate major sales situated in Chhattisgarh, Gujarat, Himachal Pradesh and Uttar Pradesh, Uttarakhand among other states. Such geographical concentration of our business in these regions heightens our exposure to adverse developments related to competition, as well as economic and demographic changes in these regions which may adversely affect our business prospects, financial conditions and results of operations. We may not be able to leverage our experience in Chhattisgarh, Gujarat, Himachal Pradesh and Uttar Pradesh, region to expand our operations in other parts of India and overseas markets, should we decide to further expand our operations. Factors such as competition, culture, regulatory regimes, business practices and customs, industry needs, transportation, in other markets where we may expand our operations may differ from those in such regions, and our experience in these regions may not be applicable to other markets. In addition, as we enter new markets and geographical areas, we are likely to compete not only with national players, but also local players who might have an established local presence, are more familiar with local regulations, business practices and industry needs, have stronger relationships with local distributors, dealers, relevant government authorities, suppliers or are in a stronger financial position than us, all of which may give them a competitive advantage over us. Our inability to expand into areas outside Chhattisgarh, Gujarat, Himachal Pradesh and Uttar Pradesh, market may adversely affect our business prospects, financial conditions and results of operations. However, our Company is already supplying products in other regions such as Haryana, Jammu & Kashmir, Maharashtra, Andhra Pradesh, etc. but we are yet to scale our operations in such regions. While our management believes that the Company

has requisite expertise and vision to grow and mark its presence in other markets going forward, investors should consider our business and prospects in light of the risks, losses and challenges that we face and should not rely on our results of operations for any prior periods as an indication of our future performance.

3. Some of our Directors and promoters are currently involved in certain tax related proceedings which are currently pending at various stages with relevant authorities. Any adverse decision in such proceedings may render us liable to liabilities and penalties and may adversely affect our business and results of operations.

Except as mentioned above, there are no legal proceedings by or against our Company, Promoters, Directors or Group Companies. A classification of legal proceedings is mentioned below:

Name of Entity	Criminal Proceedings	Civil/ Arbitration Proceedings	Tax Proceedings	Labour Disputes	Consumer Complaints	Complaints under Section 138 of NI Act, 1881	Aggregate amount involved (Rs. In lakhs)

4. Certain qualifications have been noted by Peer Review Auditors in their report on the Restated Financial Statements for non provision for Gratuity Payment as required under the Payment of Gratuity Act 1972.

Our Peer Review Auditors have provided certain qualifications in their report on the Restated Financial Statements relating to the financial statements for our Company is as follows: As per Accounting Standard- 15: Employee Benefits issued by the Institute of Chartered Accountants of India, Company is required to assess its gratuity liability each year on the basis of actuarial valuation and make provision for gratuity liability. We have not complied with the same. The effect of the non-compliance is not quantifiable.

5. *We have certain Contingent Liabilities that have not been provided for in our Company's Financials which if materialized, could adversely affect our financial condition*

Our Contingent liabilities as on December 31, 2017 is as under:

Particulars	December 31, 2017 (Amt. in lakhs.)
Bank Guarantee	31.31

In the event any such contingencies mentioned above were to materialize or if our contingent liabilities were to increase in the future, our financial condition could be adversely affected. For further details, see the section "Financial statement" on page 137 of this Draft Prospectus.

6. *The price, which we are able to obtain the Raw Material for manufacture of our finished products depend largely on prevailing market prices. Increase in costs or a shortfall in availability of our raw materials could have a material adverse effect on our Company's sales, profitability and results of operations.*

Our Company is dependent on third party suppliers for procuring our raw materials. We are exposed to fluctuations in the prices of these raw materials as well as its unavailability, particularly as we typically do not enter into any long term supply agreements with our suppliers and our major requirement is met in the spot market. The cost and availability of our raw materials are subject to a variety of factors and any increase in their cost and their availability at a reasonable price or at all, could adversely affect our margins, sales and results of operations. Further the prices of these raw materials are subject to price fluctuation due to various factors beyond our control, including but not limited to severe climatic conditions, outbreak of diseases and governmental regulations. Any of these and other factors may cause a shortage of raw materials or unavailability of raw materials at a reasonable price. We also face the risks associated with compensating for or passing on such increase in our cost of production on account of such fluctuations in prices to our customers. Though we enjoy favourable terms from the suppliers both in prices as well as in supplies, our inability to obtain high quality materials in a timely and cost-effective manner would cause delays in our production cycles and delivery schedules, which may result in the loss of our customers and revenues. Any decrease in raw material and finished goods may adversely affect our profitability. Any adverse movement in the price of the raw material will impact our cost of production which we may not be able to pass on to the customer which may affect our profitability or even lead to losses. Further any prolonged increase in prices could have a material adverse effect on our Company over a period of time and affect all our strategies and future projections.

7. *We have not entered into any long-term agreements with our suppliers for supply of items and accordingly may face disruptions in supply from our current suppliers:*

We are Energy Solution Provider company having experience of more than two decades in majority of verticals of power generations spectrum. Our spectrum of services are including Design, supply, installation, Testing and Commissioning and Operation and Maintenance (O&M) in short we provide turnkey solutions from concept to commissioning of power plants. For executing these projects, we have to purchase many items like such as solar panels, solar inventors, cables, structures, etc from the reputed and renowned suppliers. Identifying a suitable supplier involves a process that requires us to become satisfied with their quality control, consistency, responsiveness and service, financial stability and other ethical practices and specifically they must be reputed suppliers. Typically, we do not enter into long term contracts with our suppliers and prices for these items are normally based on the quotes we receive from various approved suppliers. Any unexpected price fluctuations after placement of orders, shortage, delay in delivery, quality defects, or any factors beyond our control may result in an interruption in the supply of such items which is critical to our business. Any delay, interruption or increased cost in the supply of any items thereof pertaining to our project arising from a lack of long-term contracts could have an adverse effect on our ability to meet our targets and client satisfaction from our service and our business, financial performance and cash flows may be adversely affected. Further, we may not able to locate alternative suppliers of these items with approved specification on terms acceptable to us, or at all.

8. *Changes in technology may render our current technologies obsolete or require us to make substantial capital investments.*

At present we are providing Solar renewable products to our consumers. Modernization and technology upgradation is essential to provide service and complete the project on time. We believe that we have already started utilizing latest technology including Net metering; we shall continue to strive to keep our technology updated. However, any further upgradation in the technology may render our current technology obsolete and require us to upgrade the existing technology or implement new technology. Further implementing new technology may require us to incur huge capital expenditure which could affect our cash flows and result of operations. The development and implementation of new technologies designed to enhance the efficiency of solar/ power generation could reduce the use of existing technology and may effect of decreasing demand for our existing technology as a result it may effect on our result of operations and financial conditions.

9. *An inability to effectively manage project execution may lead to project delays which may affect our business and results of operations.*

Our business is dependent on our ability to effectively manage the execution of our projects. An inability to effectively manage our operations, including ineffective or inefficient project management procedures could increase our costs and expenses, result in project delays and thereby affect our profitability. The effectiveness of our project management processes and our ability to execute projects in a timely manner may be affected by various factors. Additionally, in some projects, in case of delay due to our fault or because of defective work done by us, clients have the right to rectify the defective work, or engage a third party to complete the work and deduct additional costs or charges incurred for completion of the work from the project price payable to us. Such factors would have an effect on our results of operations and financial condition.

10. *Our Company's failure to maintain the quality standards of the products could adversely impact our business, results of operations and financial condition.*

Our products depend on customer's expectations and choice or demand of the customer. Any failure to maintain the quality standards may affect our business. Although we have put in place strict quality control procedures, we cannot assure that our products will always be able to satisfy our customers' quality standards. Any negative publicity regarding our Company, or products, including those arising from any deterioration in quality of our products from our vendors, or any other unforeseen events could adversely affect our reputation, our operations and our results from operations. Introduction of new products or for any other reason and failure on our part to meet their expectation could adversely affect our business, result of operations and financial condition. While, we believe that we have always introduced new products to cater to the growing demand of our customers and also endeavour regularly to update our products, our failure to anticipate or to respond adequately to changing technical, market demands and/or consumer requirements could adversely affect our business and financial results.

11. *We generated a majority of our sales in Uttarakhand, Chhattisgarh, Gujarat, Himachal Pradesh and Uttar Pradesh, among other states and any adverse developments affecting our operations in these states could have an adverse impact on our revenue and results of operations.*

For the period ended December 31, 2017 our sales in Uttarakhand, Chhattisgarh, Gujarat, Himachal Pradesh, Uttar Pradesh, Andhra Pradesh and Madhya Pradesh among other states together contributed 91.93 % of our total revenue as mentioned below:

Sr. No.	States	For the period ended December 31, 2017 (Amount in lakhs.)
1.	Chhattisgarh	435.61
2.	Himachal Pradesh	373.61
3.	Gujarat	314.51
4.	Uttarakhand	235.47
5.	Uttar Pradesh	134.17
6.	Andhra Pradesh	131.75
7.	Madhya Pradesh	117.99
8.	J&K	75.68
9.	Haryana	39.08
10.	Maharashtra	35.48

Sr. No.	States	For the period ended December 31, 2017 (Amount in lakhs.)
11.	Others	2.79

We may continue to expand our sales in these states. Existing and potential competitors to our Business may increase their focus on these states, which could reduce our market share. For example, our competitors may intensify their efforts in these states to capture a larger market share. The concentration of our operations in these states heightens our exposure to adverse developments related to competition, as well as economic, political, demographic and other changes, which may adversely affect our business prospects, financial conditions and results of operations. Any adverse development that affects the performance of the sales in these states could have a material adverse effect on our business, financial condition and results of operations.

12. *Our growth strategy to expand into new geographic areas poses risks. We may not be able to successfully manage some or all of such risks, which may have a material adverse effect on our revenues, profits and financial condition.*

Our operations have been geographically concentrated in the States of Chhattisgarh, Gujarat, Himachal Pradesh and Uttar Pradesh, Uttarakhand. Our business is therefore significantly dependent on the general economic condition and activity in the State in which we operate along with the Central, State and Local Government policies relating to Renewable and power industry. Although industry in which we operate is policy favoured industry by governmental agencies and different subsidies has been encouraged, there can be no assurance that this will continue. We may expand geographically, and may not gain acceptance or be able to take advantage of any expansion opportunities outside our current markets. This may place us at a competitive disadvantage and limit our growth opportunities. We may face additional risks if we undertake operations in other geographic areas in which we do not possess the same level of familiarity as competitors. If we undertake operations of different product than those currently is; we may be affected by various factors, including but not limited to:

- Adjusting our products to different geographic areas;
- Obtaining the necessary materials and labour in sufficient amounts and on acceptable terms;
- Obtaining necessary Government and other approvals in time or at all;
- Failure to realize expected synergies and cost savings;
- Attracting potential customers in a market in which we do not have significant experience;
- and
- Cost of hiring new employees and absorbing increased costs.

By expanding into new geographical regions, we may be exposed to significant liability and could lose some or all of our investment in such regions, as a result of which our business, financial condition and results of operations could be adversely affected

13. *We are dependent on our Top 5 and Top 10 suppliers for uninterrupted supply of raw materials. Any disruption in supply of raw materials from these suppliers will adversely affect our operations.*

We are highly dependent on the suppliers of raw material for our products. We procure our raw materials from various domestic and international suppliers depending upon the price and quality of raw materials. However, our Top 5 and top 10 suppliers contribute significantly to supply of raw materials. While our company believe that we would not face difficulties in finding additional suppliers of raw materials, any disruption of supply of raw materials from these suppliers or our procurement of raw materials at terms not favourable to us can adversely affect our operations and financial cost. The contributions of our top 5 suppliers to our total supplies are as follows:

Particulars	For the year ended March 31, 2017	For the period ended December 31, 2017
% wise Top 5 of Total Purchase	57.17	85.49
% wise Top 10 of Total Purchase	78.90	99.66

14. *Our top 5 and top 10 customers contribute major portion our revenues for the year ended March 31, 2017 and for the period ended December 31, 2017. Any loss of business from one or more of them may adversely affect our revenues and profitability.*

Our top five and ten customers contribute to a substantial portion of our revenues for the year ended March 31, 2017 and for the period ended December 31, 2017. Further these customers are generally distributors who further sell to the wholesalers and retailers. However, the composition and revenue generated from these clients might change as we continue to add new customers in normal course of business. Any decline in our quality standards, growing competition and any change in the demand for our services by these customers may adversely affect our ability to retain them. We believe we have maintained good and long term relationships with our customers. However, there can be no assurance that we will continue to have such long term relationship with them also any delay or default in payment by these customers may adversely affect our business, financial condition and results of operations. We cannot assure that we shall generate the same quantum of business, or any business at all, from these customers, and loss of business from one or more of them may adversely affect our revenues and profitability.

Particulars	For the year ended March 31, 2017	For the period ended December 31, 2017
% wise Top 5 of Total Sale	88.57	87.47
% wise Top 10 of Total Sale	100.00	99.06

- 15. *Our lenders have imposed certain restrictive conditions on us under our financing arrangements. Further as on the date of the Draft Prospectus our Company has not received “No-objection” certificate from some of our lenders to undertake this Issue. Non receipt of such “No-Objection” certificate could lead to non compliance of the terms of loan agreements entered into by our Company with said lenders.***

We have entered into agreements for availing debt facilities from lenders. Certain covenants in these agreements require us to obtain approval/permission from our lenders in certain conditions. In the event of default or the breach of certain covenants, our lender has the option to make the entire outstanding amount payable immediately. There can be no assurance that we will be able to comply with these financial or other covenants or that we will be able to obtain consents necessary to take the actions that we believe are required to operate and grow our business.

Further, as on the date of the Draft Prospectus, we have not received “No Objection” certificates from the lenders. We cannot assure you that such lenders will grant us the “No-Objection” certificate for this Issue. Non-receipt of such “No-Objection” certificate could lead to non-compliance of the terms of loan agreements entered into by our Company with the lenders.

For further details in this regard, please refer chapter titled ‘*Financial Indebtedness*’ beginning on page 147 of this Draft Prospectus.

- 16. *Our industry is labour intensive and our business operations may be materially adversely affected by strikes, work stoppages or increased wage demands by our employees or those of our suppliers.***

We believe that the industry in which we operate faces competitive pressures in recruiting and retaining skilled and unskilled labour. Our industry being labour intensive is highly dependent on labour force for carrying out its business operations. Shortage of skilled/unskilled personnel or work stoppages caused by disagreements with employees could have an adverse effect on our business and results of operations. To maintain a lower attrition rate among the employees, we issue various in house facilities to the employees. We have not experienced any major disruptions to our business operations due to disputes or other problems with our work force in the past; there can be no assurance that we will not experience such disruptions in the future. Such disruptions may adversely affect our business and results of operations and may also divert the management's attention and result in increased costs.

India has stringent labour legislation that protects the interests of workers, including legislation that sets forth detailed procedures for the establishment of unions, dispute resolution and employee removal and legislation that imposes certain financial obligations on employers upon retrenchment. We are also subject to laws and regulations governing relationships with employees, in such areas as minimum wage and maximum working hours, overtime, working conditions, hiring and terminating of employees and work permits. Although our employees are not currently unionized, there can be no assurance that they will not unionize in the future. If our employees unionize, it may become difficult for us to maintain flexible labour policies, and we may face the threat of labour unrest, work

stoppages and diversion of our management's attention due to union intervention, which may have a material adverse impact on our business, results of operations and financial condition.

17. *Our failure to compete effectively could have an adverse effect on our business, results of operations, financial condition and future prospects.*

We operate in a highly competitive market with competitors who have been in business longer than we have, with financial and other resources that are far greater than ours. Some of our competitors may have certain other advantages over us, including established track record, superior product offerings, wide distribution tie-ups, larger product portfolio, technology, research and development capability and greater market penetration, which may allow our competitors to better respond to market trends. They may also have the ability to spend more aggressively on marketing and distribution initiatives and may have more flexibility to respond to changing business and economic conditions than we do. Further, some of our competitors are large domestic and international Renewable energy Companies.

18. *We face stiff competition in our business from organized and unorganized players, which may adversely affect our business operation and financial condition. Moreover, we have a limited product portfolio when compared to industry peers in the organized sector which may affect our ability to compete effectively*

The market for our products is highly competitive on account of both the organized and unorganized players. Players in this industry generally compete with each other on key attributes such as the quality of products, the quality of the after sales services, the strength of the distribution network and pricing. Some of our competitors may have greater financial, technical and other resources and greater market share and goodwill which may enable them to compete effectively. We also anticipate entry by international players into the domestic market which should further increase the competition. Moreover, the unorganized sector offers their products at highly competitive prices which may not be matched by us and consequently affect our sales volume and growth prospects. Growing competition may result in a decline in our market share and may affect our margins which may adversely affect our business operations and our financial condition. While we believe we are able to compete effectively with our product portfolio, our competitors' wider product range offers them the opportunity to cater to wider customer base and develop a greater brand recall. We propose to diversify our product portfolio but are unable to assure you whether the same shall be as successful as our existing products. In the event we are unable to compete effectively with our existing product range and are unable to successfully develop and market the new product range within a definite timeline or at all, our business and results of operations shall be adversely affected.

19. *Our Company requires significant amount of working capital for a continued growth. Our inability to meet our working capital requirements may have an adverse effect on our results of operations.*

Our business is working capital intensive primarily on account of Inventory levels. A significant portion of our working capital is utilized towards trade receivables and inventories. Summary of our working capital position is given below:-

Trade receivables as % of total current assets	63.00%	52.89%	59.14%	73.02%	56.14%	8.57%

Our Company intend to continue growing by reaching out to newer customers and also increasing the sales in the existing customers. All these factors may result in increase in the quantum of current assets. Our inability to maintain sufficient cash flow, credit facility and other sources of fund, in a timely manner, or at all, to meet the requirement of working capital or pay out debts, could adversely affect our financial condition and result of our operations. For further details regarding working capital requirement, please refer to the chapter titled “Objects of the Issue” beginning on page 71 of this Draft Prospectus.

20. Our Company has made non compliances and lapsed/made delay in certain filings under various Statutory Acts applicable to it in the past years.

Our Company has made delay in certain filings under various Statutory Acts applicable to it in the past years. Due to these delays in filings, our Company had on several occasions paid the requisite late fees. Although they have not been furnished with any notices by the RoC/any other statutory authority with respect to this non-compliance, such non-compliance may in the future render us liable to statutory penalties and could have serious consequences on our operations. While this could be attributed to technical lapses and human errors, our Company has appointed a whole time Company Secretary and is in the process of setting up a system to ensure that requisite filings and compliances are done within the applicable timelines.

21. Our Company has lapsed /delayed/ erroneous in making the required filings under Companies Act, 2013 and under the applicable provisions of Companies Act, 1956.

Our Company is required to make filings under various rules and regulations as applicable under the Companies Act, 2013 and under the applicable provisions of the Companies Act, 1956. Some of which forms such as Form SH-7, Form MGT-14, PAS-3 and DIR 12 has not been done within the stipulated time period at some instances. Due to these delays in filings, our Company had on several occasions paid the requisite late fees. In past, our company has made erroneous filling of annual returns for certain financial years which reflects incorrect details pertaining to members of the company and transfer executed in the respective annual return. Although, we have not received any show-cause notice in respect of the above, such delay/noncompliance may in the future render us liable to statutory penalties and could have serious consequences on our operations. While this could be attributed to technical lapses and human errors, our Company is in the process of setting up a system to ensure that requisite filings are done appropriately with the requisite timeline.

22. We have not entered into any definitive agreements with our customers. If our customers choose not to buy their products from us, our business, financial condition and results of operations may be adversely affected and our business are on purchase order basis with our customers.

We have not entered into any definitive agreements with our customers, and instead we majorly rely on purchase orders to govern the volume, pricing and other terms of sales of our products. However,

such orders may be amended or cancelled prior to finalisation, and should such an amendment or cancellation take place. Consequently, there is no commitment on the part of the customer to continue to source their requirements from us, and as a result, our sales from period to period may fluctuate significantly as a result of changes in our customers vendor preferences. Any failure to meet our customers expectations could result in cancellation of orders. There are also a number of factors other than our performance that are beyond our control and that could cause the loss of a customer. Customers may demand price reductions, set-off any payment obligations, require indemnification for themselves or their affiliates, any of which may have an adverse effect on our business, results of operations and financial condition. Our business is conducted on purchase order basis, depending on the requirements of the client preferences and demand. We do not have long-term contracts with most of our customers and there can be no assurance that we will continue to receive repeat orders from any of them, including our long-standing customers. Further, even if we were to continue receiving orders from our clients, there can be no assurance that they will be on the same terms, and the new terms may be less favourable to us than those under the present terms.

23. If we do not successfully commercialise products under our Brand “TAYLORMADE”, or if the commercialization is delayed, our business, financial conditions and the results of operations may be adversely affected.

Our present and future results of operations depend upon our ability to successfully develop and commercialize our products. The development process requires extensive research and results may be uncertain and we may not be successful that can ultimately be commercially viable. However, there can be no assurance that we will be able to maintain this record in the future as well, and we may face undue delays in commercializing our products. Decrease in product quality due to reasons beyond our control or allegations of product defects, misbranding, and adulteration even when false or unfounded, could tarnish the image and may cause customers to choose other brand. Further, there can be no assurance that our brand name will not be adversely affected in the future by events that are beyond our control. In the event that (i) we are unable to leverage on the brand name for any reason, (ii) our group companies' actions or incidences adversely affect the brand name, or (iii) customer complaints or adverse publicity from any other source damages our brand, our business, financial condition and results of operations may be adversely affected. We anticipate that as our business expands into new markets and as our markets become increasingly competitive, maintaining and enhancing our brand may become increasingly difficult and expensive. If we are unable to enhance the visibility of our brands, it would have an adverse effect on our business, and our financial condition.

24. There may be delays in repayment of term loans and over utilization of working capital limits.

We cannot assure that the monies payable to our secured lenders will be made in timely manner. We however, shall refund such monies, with the interest due and payable if applicable, thereon as prescribed under applicable statutory and/or regulatory provisions. Also sometimes, we may run over our utilization of working capital limits to serve our customers in fulfilling our timely commitments.

25. We require a number of approvals, NOCs, licences, registrations and permits in the ordinary course of our business; some of the approvals are required to be transferred in the name of Taylormade Renewables Limited from Taylormade Renewables Private Limited pursuant to conversion and change of name of our company and any failure or delay in obtaining such approvals or renewal of the same in a timely manner may adversely affect our operations.

We require a number of approvals, licenses, registrations and permits in the ordinary course of our business. Additionally, we may need to apply for renewal of approvals which expire, from time to time, as and when required in the ordinary course. We were a private limited company in the name of “Taylormade Renewables Private limited”. After complying with the relevant procedure of Companies Act, 2013, the Company was converted into a public limited company followed by a change of name of the company to “Taylormade Renewables limited”. We shall be taking necessary steps for transferring the approvals in new name of our company. In case we fail to transfer/ obtain the same in name of the company, the same may adversely affect our business operations.

Any failure to apply for and obtain the required approvals, licences, registrations or permits in a timely manner, or any suspension or revocation of any of the approvals, licences, registrations and permits would result in a delay in the our business operations which could otherwise adversely affect our financial condition, results of operations and prospects of the Company. We cannot assure you

that the approvals, licences, registrations and permits issued to us would not be suspended or revoked in the event of non-compliance or alleged non-compliance with any terms or conditions thereof, or pursuant to any regulatory action. In addition to same, our failure to comply with existing or increased regulations, or the introduction of changes to existing regulations, could adversely affect our business and results of operations.

For further details, please refer the Chapter “Government and other Statutory Approvals” on page 155 of this Draft Prospectus.

26. Intellectual property rights are important to our business. Our Company has made application for registration of our logo to the Registrar of Trademarks, which is awaited. We may not be able to protect our intellectual property rights and may not be allocated to us, which may harm our business.

As on date of this Draft Prospectus, we have filed application for registration of our Company trademarks and wordmark. We applied for the registration of such trademarks and logo, result of which are still pending and awaited. Our ability to market and sell our products depends upon the recognition of our brand names and associated consumer goodwill, it is very critical for us to protect our intellectual property and trade secrets with respect to our employees who have access to such information. Consequently, we do not enjoy the statutory protections accorded to registered trademarks in India. There is no guarantee that the application for registration of our logo will be accepted in favour of the Company. This may affect our ability to protect our trademark in the event of any infringement of our intellectual property. Further in the absence of such registrations, competitors and other companies may challenge the validity or scope of our intellectual property right over these brands or our logo. As a result, we may be required to invest significant resources in developing new brands or names, which could materially and adversely affect our business, financial condition, results of operations and prospects. This may lead to litigations and any such litigations could be time consuming and costly and their outcome cannot be guaranteed. Our Company may not be able to detect any unauthorized use or take appropriate and timely steps to enforce or protect our intellectual property, which may adversely affect our business, financial condition and results of operations. In the event we are not able to obtain registration in respect of such trade mark application, we may not be able to obtain statutory protections available under the Trade Marks Act, 1999, as otherwise available for registered logos and trademarks. Consequently, we are subject to the various risks arising out of the same, including but not limited to infringement or passing off our name and logo by a third party. For details on the trademark applications, kindly refer to chapter titled “Government and Other Statutory Approvals” and —“Our Business” appearing on page 155 and 95 of this Draft Prospectus.

For further details regarding our intellectual properties, please refer the chapter titled “Our Business” and “Government Approval” beginning on page 95 and 155 of this Draft Prospectus.

27. The loss of or shutdown of operations at our production facility may have a material adverse effect on our business, financial condition and results of operations.

We have one manufacturing unit for undertaking the manufacture of our products which is located at Kalavad, Jamnagar. The breakdown or failure of the equipments and/ or civil structure can disrupt our production schedules, resulting in performance being below expected levels. In addition, the development or operation of our facilities may be disrupted for reasons that are beyond our control, including explosions, fires, earthquakes and other natural disasters, breakdown, failure or sub-standard performance of equipment, improper installation or operation of equipment, accidents, operational.

28. Our Company is partially dependent on third party transportation for the delivery of raw materials/ finished products and any disruption in their operations or a decrease in the quality of their services could affect our Company's reputation and results of operations.

Our Company partially uses third party transportation for delivery of our raw materials and finished products. Though our business has not experienced any disruptions due to transportation strikes in the past, any future transportation strikes may have an adverse effect on our business. These transportation facilities may not be adequate to support our existing and future operations. In addition such goods may be lost or damaged in transit for various reasons including occurrence of accidents or

natural disasters. There may also be delay in delivery of products which may also affect our business and results of operation negatively. An increase in the freight costs or unavailability of freight for transportation of our raw materials may have an adverse effect on our business and results of operations.

Further, disruptions of transportation services due to weather-related problems, strikes, lockouts, inadequacies in the road infrastructure and port facilities, or other events could impair ability to procure raw materials or delivery of goods on time. Any such disruptions could materially and adversely affect our business, financial condition and results of operations.

29. Continued operations of our manufacturing facilities are critical to our business and any disruption in the operation of our manufacturing facilities may have a material adverse effect on our business, results of operations and financial condition.

Our manufacturing facilities are subject to operating risks, such as unavailability of machinery, breakdown, obsolescence or failure of machinery, disruption in power supply or processes, performance below expected levels of efficiency, labour disputes, natural disasters, industrial accidents and statutory and regulatory restrictions. In the event of a breakdown or failure of such machinery, replacement parts may not be available and such machinery may have to be sent for repairs or servicing. This may lead to delay and disruption in our production process that could have an adverse impact on our sales, results of operations, business growth and prospects.

30. Our industry is labour intensive and our business operations may be materially adversely affected by strikes, work stoppages or increased wage demands by our employees or those of our suppliers.

Our industry being labour intensive is highly dependent on labour force for carrying out its manufacturing operations. Shortage of skilled/unskilled personnel or work stoppages caused by disagreements with employees could have an adverse effect on our business and results of operations. We have not experienced any major disruptions in our business operations due to disputes or other problems with our work force in the past; however there can be no assurance that we will not experience such disruptions in the future. Such disruptions may adversely affect our business and results of operations and may also divert the management's attention and result in increased costs.

31. We have in the past entered into related party transactions and may continue to do so in the future.

Our Company has entered into certain transactions with our related parties including our Promoters, the Promoter Group, our Directors and their relatives. Further we have loans taken from directors. While we believe that all such transactions have been conducted on the arm's length basis, there can be no assurance that we could not have achieved more favourable terms had such transactions not been entered into with related parties. Furthermore, it is likely that we will enter into related party transactions in the future. There can be no assurance that such transactions, individually or in the aggregate, will not have an adverse effect on our financial condition and results of operation. For details on the transactions entered by us, please refer to section "Related Party Transactions" in Section "Financial Statements" beginning on page 137 of this Draft Prospectus.

32. Our Company has negative cash flows from its operating activities and investing activities in the past years, details of which are given below. Sustained negative cash flows could impact our growth and business.

Our Company had negative cash flows from our operating activities and investing activities in the previous year(s) as per the Restated Financial Statements and the same are summarized as under:

Amount (Rs. in Lakhs)

Particulars	For the period ended December 31, 2017	For The Year Ended March 31,				
		2017	2016	2015	2014	2013
Cash Flow from / (used in) Operating Activities	(33.11)	(25.90)	(204.87)	(233.58)	0.20	11.16
Cash Flow from / (used in) Investing Activities	(47.65)	(125.81)	2.15	(20.60)	(10.65)	3.66

Cash flow of a company is a key indicator to show the extent of cash generated from operations to meet capital expenditure, pay dividends, repay loans and make new investments without raising finance from external resources. If we are not able to generate sufficient cash flows in future, it may adversely affect our business and financial operations.

33. *Our operations may be adversely affected in case of industrial accidents at any of our production facilities.*

Usage of heavy machinery, handling of materials by labour during production process or otherwise, lifting of materials by humans, cranes, heating processes of the furnace etc. may result in accidents, which could cause injury to our labour, employees, other persons on the site and could also damage our properties thereby affecting our operations. Further our plants and machinery are not covered under insurance and hence any such occurrence of accidents could hamper our production and consequently affect our profitability.

34. *Failure to manage our inventory could have an adverse effect on our net sales, profitability, cash flow and liquidity.*

The results of operations of our business are dependent on our ability to effectively manage our inventory and stocks. To effectively manage our inventory, we must be able to accurately estimate customer demand and supply requirements and manufacture new inventory accordingly. If our management has misjudged expected customer demand it could adversely impact the results by causing either a shortage of products or an accumulation of excess inventory. Further, if we fail to sell the inventory we manufacture or get manufactured by third parties on our account, we may be required to write-down our inventory or pay our suppliers without new purchases or create additional vendor financing, which could have an adverse impact on our income and cash flows.

35. *Compliance with, and changes in, safety, health and environmental laws and regulations may adversely affect our business, prospects, financial condition and results of operations.*

Due to the nature of our business, we expect to be or continue to be subject to extensive and increasingly stringent environmental, health and safety laws and regulations and various labour, workplace and related laws and regulations. We are also subject to environmental, health and safety laws including but not limited to:

- a. The Environment Protection Act, 1986 (“Environment Protection Act”)
- b. Air (Prevention and Control of Pollution) Act, 1981
- c. Water (Prevention and Control of Pollution) Act, 1974
- d. Hazardous Waste Management & Handling Rules, 2008

Any failure on our part to comply with any existing or future regulations applicable to us may result in legal proceedings being initiated against us, third party claims or the levy of regulatory fines, which may adversely affect our business, results of operations and financial condition. Further amendments to such statutes may impose additional provisions to be followed by our Company and accordingly our Company may need to avoid use of certain ingredients in preparation of our products, discontinue any range of product, incur clean-up and remediation costs, as well as damages, payment of fines or other penalties, closure of production facilities for non-compliance, other liabilities and related litigation, which could adversely affect our business, prospects, financial condition and results of operations.

36. *Our insurance policies do not cover all risks, specifically risks like loss of profits, terrorism, etc. In the event of the occurrence of such events, our insurance coverage may not adequately protect us against possible risk of loss.*

Our Company has obtained insurance coverage in respect of certain risks. Our significant insurance policies consist of, among others, standard fire and special perils, earthquake etc. While we believe that we maintain insurance coverage in adequate amounts consistent with size of our business, our insurance policies do not cover all risks, specifically risks like loss of profits, terrorism, etc. There can be no assurance that our insurance policies will be adequate to cover the losses in respect of which the insurance has been availed. If we suffer a significant uninsured loss or if insurance claim in respect of the subject-matter of insurance is not accepted or any insured loss suffered by us significantly exceeds

our insurance coverage, our business, financial condition and results of operations may be materially and adversely affected.

37. *We generally do business with our customers on purchase order basis and do not enter into long-term contracts with most of them.*

Our business is dependent on our continuing relationships with our customers. Our Company mostly does not has any long-term contract except for customers. Any change in the buying pattern of our end users or disassociation of major customers can adversely affect the business of our Company. The loss of or interruption of work by, a significant customer or a number of significant customers or the inability to procure new orders on a regular basis or at all may have an adverse effect on our revenues, cash flows and operations.

38. *If we are unable to source business opportunities effectively, we may not achieve our financial objectives.*

Our ability to achieve our financial objectives will depend on our ability to identify, evaluate and accomplish business opportunities. To grow our business, we will need to hire, train, supervise and manage new employees, expand our distribution network and to implement systems capable of effectively accommodating our growth. However, we cannot assure you that any such employees will contribute to the success of our business or that we will implement such systems effectively. Our failure to source business opportunities effectively could have a material adverse effect on our business, financial condition and results of operations. It also is possible that the strategies used by us in the future may be different from those presently in use. No assurance can be given that our analyses of market and other data or the strategies we use or plans in future to use will be successful under various market conditions.

39. *Negative publicity could adversely affect our revenue model and profitability.*

Our business is dependent on the trust our customers have in the quality of our products. Any negative publicity regarding our company, brand, or products, including those arising from a drop in quality of merchandise from our vendors, mishaps resulting from the use of our products, or any other unforeseen events could affect our reputation and our results from operations. Further our brand may also be affected if there is any negative publicity associated with our products.

40. *Some of our Promoters and Directors have given guarantees in relation to certain debt facilities provided to us, which if revoked may require alternative guarantees, repayment of amounts due or termination of the facilities.*

Our Promoters and members of Promoter Group have given personal guarantee and collateral security in respect of the loan availed by us. In the event that any of these guarantees/collaterals are revoked, the lenders for such facilities may require alternate guarantees, repayment of amounts outstanding under such facilities, or even terminate such facilities. We may not be successful in procuring guarantees satisfactory to the lenders, and as a result may need to repay outstanding amounts under such facilities or seek additional sources of capital, which could significantly affect our financial condition and cash flows.

41. *Our lenders have charge over our movable and immovable properties in respect of finance availed by us.*

Our Company have taken secured loan from banks by creating a charge over our movable and immovable properties in respect of loans/facilities availed by us. The total amounts outstanding and payable by us for secured loans were Rs. 440.02 lakhs as on December 31, 2017. In the event we default in repayment of the loans / facilities availed by us and any interest thereof, our properties may be forfeited by lenders, which in turn could have significant adverse effect on our business, financial condition and results of operations. For further details please refer to “Annexure B, B(A)”- Details of Long Term Borrowings as Restated” and “Annexure B(B) ” - Details of Short Term Borrowings as Restated” of chapter titled “Financial Statements as Restated” beginning on page 137 and Financial Indebtedness in chapter titled “Financial Indebtedness” on page 147 of this Draft Prospectus.

42. *Our Company has unsecured loans which are repayable on demand. Any demand loan from lenders for repayment of such unsecured loans, may adversely affect our cash flows.*

As on December 31, 2017, our Company has unsecured loans amounting to Rs. 5.30 lakhs from related and other parties that are repayable on demand to the relevant lender. Such loans are not repayable in accordance with any agreed repayment schedule and may be recalled by the relevant lender at any time. Any such unexpected demand or accelerated repayment may have a material adverse effect on the business, cash flows and financial condition of the borrower against which repayment is sought. Any demand from lenders for repayment of such unsecured loans, may adversely affect our cash flows. For further details of unsecured loans of our Company, please refer Annexure B- Details of Long Term Borrowings as Restated of chapter titled “Financial Statements” beginning on page 137 of this Draft Prospectus.

43. The requirements of being a listed company may strain our resources.

We have no experience as a listed company and have not been subjected to the increased scrutiny of our affairs by shareholders, regulators and the public that is associated with being a listed company. As a listed company, we will incur significant legal, accounting, corporate governance and other expenses that we did not incur as an unlisted company. We will be subject to the SEBI (LODR) Regulations, which require us to file audited / unaudited reports periodically with respect to our business and financial condition. If we experience any delays, we may fail to satisfy our reporting obligations and/or we may not be able to readily determine and accordingly report any changes in our results of operations as timely as other listed companies. As a listed company, we will need to maintain and improve the effectiveness of our disclosure controls and procedures and internal control over financial reporting, for which significant resources and management overview will be required. As a result, management’s attention may be diverted from other business concerns, which could adversely affect our business, prospects, financial condition and results of operations. Further, we may need to hire additional legal and accounting staff with appropriate and relevant experience and technical accounting knowledge and we cannot assure you that we will be able to do so in a timely manner or at all.

44. We have not made any alternate arrangements for meeting our capital requirements for the ‘Objects of the Issue’. Further we have not identified any alternate source of financing the ‘Objects of the Issue’. Any shortfall in raising / meeting the same could adversely affect our growth plans, operations and financial performance.

As on date, we have not made any alternate arrangements for meeting our capital requirements for the objects of the Issue. We meet our capital requirements through our owned funds, bank borrowings and internal accruals. Any shortfall in our net owned funds, internal accruals and our inability to raise debt in future would result in us being unable to meet our capital requirements, which in turn will negatively affect our financial condition and results of operations. Further we have not identified any alternate source of funding and hence any failure or delay on our part to raise money from this Issue or any shortfall in the Issue proceeds may delay the implementation schedule and could adversely affect our growth plans. For further details please refer to the chapter titled “Objects of the Issue” beginning on page 71 of this Draft Prospectus.

45. Our failure to perform in accordance with the standards prescribed in work order of our client could result in loss of business or payment of liquidated damages

We received work order from our clients. Certain of these work order may require us to comply with the code of conduct and rules and regulations prescribed by our clients, which may increase our compliance costs. We may be unable to effectively address service constraints or accurately predict service requirements, as a result of which our clients may experience service shortfalls. Any disruptions to our businesses, including as a result of actions outside of our control, could significantly impact the continued performance of our obligations to meet the quality or performance standards set out in our client contracts which may in-turn harm and cause clients to terminate their contracts with us, impair our ability to obtain renewal of our contracts from existing clients and impair our ability to grow our client base, any of which could affect our business, financial condition and results of operations. In the event that we are unable to meet the prescribed obligations, we may also be required to pay compensation or liquidated damages to our clients on the terms set out in our contracts. In certain instances, we may also be required to bear consequential liability. Certain work order may also require us to provide indemnities to our clients with respect of any negligent act or omission by or misconduct of our employees. In the event there is an increase in claims against us

for which we are not insured, our business, financial condition and results of operations may be affected.

46. *Our ability to pay dividends in the future will depend upon our future earnings, financial condition, cash flows, working capital requirements, capital expenditure and restrictive covenants in our financing arrangements.*

We may retain all our future earnings, if any, for use in the operations and expansion of our business. As a result, we may not declare dividends in the foreseeable future. Any future determination as to the declaration and payment of dividends will be at the discretion of our Board of Directors and will depend on factors that our Board of Directors deem relevant, including among others, our results of operations, financial condition, cash requirements, business prospects and any other financing arrangements. Accordingly, realization of a gain on shareholders investments may largely depend upon the appreciation of the price of our Equity Shares. There can be no assurance that our Equity Shares will appreciate in value. For details of our dividend history, see “Dividend Policy” on page 136 of this Draft Prospectus.

47. *Our future funds requirements, in the form of fresh issue of capital or securities and/or loans taken by us, may be prejudicial to the interest of the shareholders depending upon the terms on which they are eventually raised.*

We may require additional capital from time to time depending on our business needs. Any fresh issue of shares or convertible securities would dilute the shareholding of the existing shareholders and such issuance may be done on terms and conditions, which may not be favourable to the then existing shareholders. If such funds are raised in the form of loans or debt, then it may substantially increase our interest burden and decrease our cash flows, thus prejudicially affecting our profitability and ability to pay dividends to our shareholders.

48. *Our success depends largely upon the services of our Directors, Promoters and other Key Managerial Personnel and our ability to attract and retain them. Demand for Key Managerial Personnel in the industry is intense and our inability to attract and retain Key Managerial Personnel may affect the operations of our Company.*

Our success is substantially dependent on the expertise and services of our Directors, Promoters and our Key Managerial Personnel. They provide expertise which enables us to make well informed decisions in relation to our business and our future prospects. Our future performance will depend upon the continued services of these persons. Demand for Key Managerial Personnel in the industry is intense. We cannot assure you that we will be able to retain any or all, or that our succession planning will help to replace, the key members of our management. The loss of the services of such key members of our management team and the failure of any succession plans to replace such key members could have an adverse effect on our business and the results of our operations.

49. *Our Promoters and members of the Promoter Group will continue jointly to retain majority control over our Company after the Issue, which will allow them to determine the outcome of matters submitted to shareholders for approval.*

After completion of the Issue, our Promoters and Promoter Group will collectively own [•]% of the Equity Shares. As a result, our Promoters together with the members of the Promoter Group will be able to exercise a significant degree of influence over us and will be able to control the outcome of any proposal that can be approved by a majority shareholder vote, including, the election of members to our Board, in accordance with the Companies Act and our Articles of Association. Such a concentration of ownership may also have the effect of delaying, preventing or deterring a change in control of our Company. In addition, our Promoters will continue to have the ability to cause us to take actions that are not in, or may conflict with, our interests or the interests of some or all of our creditors or minority shareholders, and we cannot assure you that such actions will not have an adverse effect on our future financial performance or the price of our Equity Shares.

50. *In addition to normal remuneration or benefits and reimbursement of expenses, some of our Directors and key managerial personnel are interested in our Company to the extent of their shareholding and dividend entitlement in our Company and as creditors of the Company.*

Our Directors and Key Managerial Personnel are interested in our Company to the extent of remuneration paid to them for services rendered and reimbursement of expenses payable to them. In addition, some of our Directors and Key Managerial Personnel may also be interested to the extent of their shareholding and dividend entitlement in our Company, for the loan given by them to the Company or as partners of the entities which are creditors of the Company. For further information, see “Capital Structure” and “Our Management” and “Related Party Transactions” beginning on pages 57, 118 and 135, respectively, of this Draft Prospectus.

51. *We could be harmed by employee misconduct or errors that are difficult to detect and any such incidences could adversely affect our financial condition, results of operations and reputation.*

Employee misconduct or errors could expose us to business risks or losses, including regulatory sanctions and cause serious harm to our reputation. There can be no assurance that we will be able to detect or deter such misconduct. Moreover, the precautions we take to prevent and detect such activity may not be effective in all cases. Our employees and agents may also commit errors that could subject us to claims and proceedings for alleged negligence, as well as regulatory actions on account of which our business, financial condition, results of operations and goodwill could be adversely affected.

52. *We have issued Equity Shares to promoter/promoter group and public during the last 12 months preceding the date of this Draft Prospectus at a price lower than the Issue Price as detailed in the following table:*

Date of allotment	Number of Equity Shares allotted	Face value (Rs.)	Issue Price (Rs.)	Nature of Consideration	Nature of allotment
13.10.2017	1,70,000	10	NA-	Other than Cash	Bonus in the ratio of 0.37:1
15.11.2017	3,63,880	10	25	Other than Cash	Conversion of unsecured loan
02.01.2018	41,45,184	10	NA	Other than Cash	Bonus in the ratio of 2 Equity Shares for every 1 Equity Share ^(vii)
05.01.2018	3,67,072	10	11.50	Cash	Preferential Allotment

Issue Specific Risks

53. *The Issue price of our Equity Shares may not be indicative of the market price of our Equity Shares after the Issue and the market price of our Equity Shares may decline below the Issue price and you may not be able to sell your Equity Shares at or above the Issue Price.*

The Issue Price of our Equity Shares has been determined by fixed price method. This price is based on numerous factors (For further information, please refer chapter titled “Basis for Issue Price” beginning on page 78 of this Draft Prospectus) and may not be indicative of the market price of our Equity Shares after the Issue. The market price of our Equity Shares could be subject to significant fluctuations after the Issue, and may decline below the Issue Price. We cannot assure you that you will be able to sell your Equity Shares at or above the Issue Price. Among the factors that could affect our share price include without limitation. The following:

- Half yearly variations in the rate of growth of our financial indicators, such as earnings per share, net income and revenues;
- Changes in revenue or earnings estimates or publication of research reports by analysts;
- Speculation in the press or investment community;
- General market conditions; and
- Domestic and international economic, legal and regulatory factors unrelated to our performance.

54. *Sale of Equity Shares by our Promoter or other significant shareholder(s) may adversely affect the trading price of the Equity Shares.*

Any instance of disinvestments of equity shares by our Promoter or by other significant shareholder(s) may significantly affect the trading price of our Equity Shares. Further, our market price may also be adversely affected even if there is a perception or belief that such sales of Equity Shares might occur.

55. *There is no monitoring agency appointed by Our Company and the deployment of funds are at the discretion of our Management and our Board of Directors, though it shall be monitored by our Audit Committee.*

As per SEBI (ICDR) Regulations, 2009, as amended, appointment of monitoring agency is required only for Issue size above Rs.10,000 Lakh. Hence, we have not appointed any monitoring agency to monitor the utilization of Issue proceeds. However, as per the Section 177 of the Companies Act, 2013 the Audit Committee of our Company would be monitoring the utilization of the Issue Proceeds.

EXTERNAL RISK FACTORS

56. *The Companies Act, 2013 has effected significant changes to the existing Indian company law framework, which may subject us to higher compliance requirements and increase our compliance costs.*

A majority of the provisions and rules under the Companies Act, 2013 have recently been notified and have come into effect from the date of their respective notification, resulting in the corresponding provisions of the Companies Act, 1956 ceasing to have effect. The Companies Act, 2013 has brought into effect significant changes to the Indian company law framework, such as in the provisions related to issue of capital, disclosures in draft prospectus, corporate governance norms, audit matters, related party transactions, introduction of a provision allowing the initiation of class action suits in India against companies by shareholders or depositors, a restriction on investment by an Indian company through more than two layers of subsidiary investment companies (subject to certain permitted exceptions), prohibitions on loans to directors and insider trading and restrictions on directors and key managerial personnel from engaging in forward dealing. To ensure compliance with the requirements of the Companies Act, 2013, we may need to allocate additional resources, which may increase our regulatory compliance costs and divert management attention.

The Companies Act, 2013 introduced certain additional requirements which do not have corresponding equivalents under the Companies Act, 1956. Accordingly, we may face challenges in interpreting and complying with such provisions due to limited jurisprudence on them. In the event, our interpretation of such provisions of the Companies Act, 2013 differs from, or contradicts with, any judicial pronouncements or clarifications issued by the Government in the future, we may face regulatory actions or we may be required to undertake remedial steps. We may face difficulties in complying with any such overlapping requirements. Further, we cannot currently determine the impact of provisions of the Companies Act, 2013 which are yet to come in force. Any increase in our compliance requirements or in our compliance costs may have an adverse effect on our business and results of operations.

57. *There is uncertainty on the impact of currency demonetization in India on our business.*

The Reserve Bank of India, or RBI, and the Ministry of Finance of the GoI withdrew the legal tender status of Rs.500 and Rs. 1,000 currency notes pursuant to notification dated November 8, 2016. The short-term impact of these developments has been, among other things, a decrease in liquidity of cash in India. There is uncertainty on the longterm impact of this action. The RBI has also established, and continues to refine, a process for holders of affected banknotes to tender such notes for equivalent value credited into the holders' bank accounts. The short and long-term effects of demonetization on the Indian economy and our business are uncertain and we cannot accurately predict its effect on our business, results of operations and financial condition

58. *You may be subject to Indian taxes arising out of capital gains on the sale of the Equity Shares.*

Under current Indian tax laws and regulations, capital gains arising from the sale of equity shares in an Indian company are generally taxable in India. Any gain realised on the sale of shares on a stock exchange held for more than 12 months will not be subject to capital gains tax in India if the securities transaction tax ("STT") has been paid on the transaction. The STT will be levied on and collected by

an Indian stock exchange on which equity shares are sold. Further, any gain realised on the sale of listed equity shares held for a period of 12 months or less will be subject to short term capital gains tax in India, if securities transaction tax has been paid on the transaction. Any gain realised on the sale of shares held for more than 36 months to an Indian resident, which are sold other than on a recognised stock exchange and as a result of which no STT has been paid, will be subject to long term capital gains tax in India. Further, any gain realised on the sale of equity shares held for a period of 36 months or less which are sold other than on a recognised stock exchange and on which no STT has been paid, may be subject to short term capital gains tax at a relatively higher rate as compared to the transaction where STT has been paid in India.

59. *Significant differences exist between Indian GAAP and other accounting principles, such as U.S. GAAP and IFRS, which may be material to the financial statements prepared and presented in accordance with SEBI ICDR Regulations contained in this Draft Prospectus.*

As stated in the reports of the Auditor included in this Draft Prospectus under chapter “Financial Statements as restated” beginning on page 137 of this Draft Prospectus, the financial statements included in this Draft Prospectus are based on financial information that is based on the audited financial statements that are prepared and presented in conformity with Indian GAAP and restated in accordance with the SEBI ICDR Regulations, and no attempt has been made to reconcile any of the information given in this Draft Prospectus to any other principles or to base it on any other standards. Indian GAAP differs from accounting principles and auditing standards with which prospective investors may be familiar in other countries, such as U.S. GAAP and IFRS. Significant differences exist between Indian GAAP and U.S. GAAP and IFRS, which may be material to the financial information prepared and presented in accordance with Indian GAAP contained in this Draft Prospectus. Accordingly, the degree to which the financial information included in this Draft Prospectus will provide meaningful information is dependent on familiarity with Indian GAAP, the Companies Act and the SEBI ICDR Regulations. Any reliance by persons not familiar with Indian GAAP on the financial disclosures presented in this Draft Prospectus should accordingly be limited.

60. *Taxes and other levies imposed by the Government of India or other State Governments, as well as other financial policies and regulations, may have a material adverse effect on our business, financial condition and results of operations.*

Taxes and other levies imposed by the Central or State Governments in India that affect our industry include:

- custom duties on imports of raw materials and components;
- excise duty on certain raw materials and components;
- central and state sales tax, value added tax and other levies; and
- Other new or special taxes and surcharges introduced on a permanent or temporary basis from time to time.

These taxes and levies affect the cost and prices of our products and therefore demand for our product. An increase in any of these taxes or levies, or the imposition of new taxes or levies in the future, may have a material adverse effect on our business, profitability and financial condition.

61. *Political instability or a change in economic liberalization and deregulation policies could seriously harm business and economic conditions in India generally and our business in particular.*

The Government of India has traditionally exercised and continues to exercise influence over many aspects of the economy. Our business and the market price and liquidity of our Equity Shares may be affected by interest rates, changes in Government policy, taxation, social and civil unrest and other political, economic or other developments in or affecting India. The rate of economic liberalization could change, and specific laws and policies affecting the information technology sector, foreign investment and other matters affecting investment in our securities could change as well. Any significant change in such liberalization and deregulation policies could adversely affect business and economic conditions in India, generally, and our business, prospects, financial condition and results of operations, in particular.

62. *We cannot guarantee the accuracy or completeness of facts and other statistics with respect to India, the Indian economy and Plastic industry contained in the Draft Prospectus.*

While facts and other statistics in this Draft Prospectus relating to India, the Indian economy and the plastic industry has been based on various government publications and reports from government agencies that we believe are reliable, we cannot guarantee the quality or reliability of such materials. While we have taken reasonable care in the reproduction of such information, industry facts and other statistics have not been prepared or independently verified by us or any of our respective affiliates or advisors and, therefore we make no representation as to their accuracy or completeness. These facts and other statistics include the facts and statistics included in the chapter titled '*Our Industry*' beginning on page 82 of this Draft Prospectus. Due to possibly flawed or ineffective data collection methods or discrepancies between published information and market practice and other problems, the statistics herein may be inaccurate or may not be comparable to statistics produced elsewhere and should not be unduly relied upon. Further, there is no assurance that they are stated or compiled on the same basis or with the same degree of accuracy, as the case may be, elsewhere.

63. *Global economic, political and social conditions may harm our ability to do business, increase our costs and negatively affect our stock price.*

Global economic and political factors that are beyond our control, influence forecasts and directly affect performance. These factors include interest rates, rates of economic growth, fiscal and monetary policies of governments, inflation, deflation, foreign exchange fluctuations, consumer credit availability, fluctuations in commodities markets, consumer debt levels, unemployment trends and other matters that influence consumer confidence, spending and tourism. Increasing volatility in financial markets may cause these factors to change with a greater degree of frequency and magnitude, which may negatively affect our stock prices.

64. *Foreign investors are subject to foreign investment restrictions under Indian law that limits our ability to attract foreign investors, which may adversely impact the market price of the Equity Shares.*

Under the foreign exchange regulations currently in force in India, transfers of shares between non-residents and residents are freely permitted (subject to certain exceptions) if they comply with the pricing guidelines and reporting requirements specified by the RBI. If the transfer of shares, which are sought to be transferred, is not in compliance with such pricing guidelines or reporting requirements or fall under any of the exceptions referred to above, then the prior approval of the RBI will be required. Additionally, shareholders who seek to convert the Rupee proceeds from a sale of shares in India into foreign currency and repatriate that foreign currency from India will require a no objection/ tax clearance certificate from the income tax authority. There can be no assurance that any approval required from the RBI or any other government agency can be obtained on any particular terms or at all.

65. *The extent and reliability of Indian infrastructure could adversely affect our Company's results of operations and financial condition.*

India's physical infrastructure is in developing phase compared to that of many developed nations. Any congestion or disruption in its port, rail and road networks, electricity grid, communication systems or any other public facility could disrupt our Company's normal business activity. Any deterioration of India's physical infrastructure would harm the national economy, disrupt the transportation of goods and supplies, and costs to doing business in India. These problems could interrupt our Company's business operations, which could have an adverse effect on its results of operations and financial condition.

66. *Any downgrading of India's sovereign rating by an independent agency may harm our ability to raise financing.*

Any adverse revisions to India's credit ratings for domestic and international debt by international rating agencies may adversely impact our ability to raise additional financing, and the interest rates and other commercial terms at which such additional financing may be available. This could have an adverse effect on our business and future financial performance, our ability to obtain financing for capital expenditures and the trading price of our Equity Shares.

67. *Natural calamities could have a negative impact on the Indian economy and cause our Company's business to suffer.*

India has experienced natural calamities such as earthquakes, tsunami, floods etc. in recent years. The extent and severity of these natural disasters determine their impact on the Indian economy. Prolonged spells of abnormal rainfall or other natural calamities could have a negative impact on the Indian economy, which could adversely affect our business, prospects, financial condition and results of operations as well as the price of the Equity Shares.

68. *Terrorist attacks, civil unrests and other acts of violence or war involving India or other countries could adversely affect the financial markets, our business, financial condition and the price of our Equity Shares.*

Any major hostilities involving India or other acts of violence, including civil unrest or similar events that are beyond our control, could have a material adverse effect on India's economy and our business. Incidents such as the terrorist attacks, other incidents such as those in US, Indonesia, Madrid and London, and other acts of violence may adversely affect the Indian stock markets where our Equity Shares will trade as well the global equity markets generally. Such acts could negatively impact business sentiment as well as trade between countries, which could adversely affect our Company's business and profitability. Additionally, such events could have a material adverse effect on the market for securities of Indian companies, including the Equity Shares.

Subsequently, name of our Company was changed from “Taylormade Solar Solutions Private Limited” to “Taylormade Renewables Private Limited” pursuant to Shareholders resolution passed at the Extra-ordinary General Meeting of our Company held on November 23, 2017 and a fresh Certificate of Incorporation was issued by Assistant Registrar of Companies, Gujarat, Dadra and Nagar Haveli dated December 12, 2017. Consequently, our Company was converted to public limited Company pursuant to shareholders resolution passed at the Extra Ordinary General Meeting held on December 13, 2017 and the name of our Company was changed to “Taylormade Renewables Limited”. A fresh certificate of incorporation consequent upon conversion to public limited Company was issued by the Deputy Registrar of Companies, Gujarat, Ahmedabad, on December 21, 2017 bearing Corporate Identification Number U29307GJ2010PLC061759.

Except as stated in the chapter titled “Our Group Companies” beginning on page 134 and chapter titled “Related Party Transactions” beginning on page 135 of this Draft Prospectus, our Group Companies have no business interest or other interest in our Company.

SECTION III – INTRODUCTION

SUMMARY OF INDUSTRY

The information in this section is derived from various publicly available sources, government publications and other industry sources.

Neither we nor any other person connected with the Issue has independently verified this information. Industry sources and publications generally state that the information contained therein has been obtained from sources generally believed to be reliable, but that their accuracy, completeness and underlying assumptions are not guaranteed and their reliability cannot be assured. Industry publications are also prepared based on information as of specific dates and may no longer be current or reflect current trends. Accordingly, investment decisions should not be based on such information. Unless otherwise specified, references to years are to calendar years in this section.

INDIAN POWER SECTOR

India's power sector is one of the most diversified in the world. Sources of power generation range from conventional sources such as coal, lignite, natural gas, oil, hydro and nuclear power to viable non-conventional sources such as wind, solar, and agricultural and domestic waste. Electricity demand in the country has increased rapidly and is expected to rise further in the years to come. With electricity production of 1,160.1 BU in India in FY17, the country witnessed growth of around 4.72 per cent over the previous fiscal year. Electricity production stood at 611.3 BU between April-September 2017. As of September 2017, total thermal installed capacity in the country stood at 219.45 GW, while hydro and renewable energy installed capacity totalled to 44.77 GW and 58.30 GW, respectively. India is expected to become the third biggest solar market across the globe in 2017, with 8.8 gigawatt (GW) of capacity addition projected for the year ahead. Moreover, the country's solar capacity is expected to reach 18.7GW by 2017, which is about 5 per cent of global solar capacity.

SOLAR POWER IN INDIA

India is situated in sunny belt India is endowed with vast solar energy potential. Most parts of India get 300 days of sunshine a year. About 5,000 trillion kWh per year energy is incident over Indian land area with most area receiving 4-7 kWh per sq. meter per day. Hence, both technology solar thermal and solar photovoltaic's can effectively provide huge capability for solar in India. Over the last few years, the solar power generation capacity in the country has increased tremendously owing to favourable government initiatives coupled with development in manufacturing technology of solar panels. Indian Solar Power Industry is anticipated to have double digit growth during next few years, due to the government's policy to increase the share of solar power in the country's energy mix and falling equipment (PV Module) costs globally. Moreover, solar power tariff in India has witnessed a drastic fall over the last few years. The solar power tariffs in India have fallen in nominal terms from INR 15 /Kwh in 2009 to INR 2.44/ Kwh in 2017, due to decline in module prices and improvements in capacity utilization factor. However, the ever-declining solar power tariffs has encouraged good investments into the sector but have raised concerns over the long -term sustainability of the projects.

To boost the solar power generation in the country, the Government of India has announced various policies and regulations, such as, accelerated depreciation, capital subsidy, Renewable Energy Certificate(RECs), Net Metering Incentives, Assured Power Purchase agreement etc. The schemes formulated by the government intends to reduce the capital expenditure in building a solar power

plant, and subsidize the power generation to make it economically viable for the stakeholders involved in the solar power business.

OPPORTUNITIES FOR SOLAR THERMAL POWER GENERATION IN INDIA

Solar thermal power generation can play a significant important role in meeting the demand supply gap for electricity. Three types of applications are possible:

1. Rural electrification using solar dish collector technology. Typically these dishes care of 10 to 25 kW capacity each and use striling engine for power generation. These can be developed for village level distributed generation by hybridizing them with biomass gasifier for hot air generation.
2. Integration of solar thermal power plants with existing industries such as paper, dairy or sugar industry, which has cogeneration units Many industries have steam turbine sets for cogeneration. These can be coupled with solar thermal power plants. Typically these units are of 5 to 250 MW capacities and can be coupled with solar thermal power plants. This approach will reduce the capital investment on steam turbines and associated power-house infrastructure thus reducing the cost of generation of solar electricity.
3. Integration of solar thermal power generation unit with existing coal thermal power plants. The study shows that savings of up to 24% is possible during periods of high insolation for feed water heating to 241°C.

TECHNOLOGY

India is a country with rich solar resources and Government of India has modified Jawaharlal Nehru National Solar Mission (JNNSM) target of 20 GW solar power to ambitious 100 GW solar power by 2022. Government's emphasis on solar energy is due to the fact that it produces clean and emission free energy while reducing country's dependence on fossil fuels. Apart from power generation, solar energy can also play an important role in saving fuel used for heating and cooling applications in industrial, institutional and residential sectors through Concentrated Solar Thermal (CST) technologies. The Ministry of New and Renewable Energy (MNRE) has initiated a couple of projects in association with UNDP and UNIDO to promote CST applications through financial and fiscal support to users and technology providers/ manufacturers. MNRE has also taken steps to develop Renewable Energy (RE) Policy in this regard. CST technologies, both in India and on global scale, are in a nascent stage but have huge potential to impact carbon footprint of global industrial sector in a significant manner. For a developing country like India, CST technologies offer very attractive proposition. The clean and emission free source of energy will help reduce fossil fuel consumption significantly. This will also reduce carbon footprint of industrial sector, assisting India's commitment to reduce its greenhouse emissions. The Government of India (GoI) through Bureau of Energy Efficiency (BEE) has initiated a massive programme for energy conservation across all sectors and promotion of CST technologies to further reduce fossil fuel consumption is next logical step in this direction. These technologies offer opportunities for development of indigenous technologies which can create local jobs and take forward 'Make in India' initiative launched by the Hon'ble Prime Minister Shri Narendra Modi. The MNRE has recognized this potential and has taken systematic efforts for development and support of CST sector. These efforts have culminated into installation of approximately 42,000 m² of aperture area of CST systems into community cooking, process heating and cooling applications.

Various solar thermal technologies and Applications as given:

- Parabolic Trough technology
- Central Receiver Technology
- Dish/ Engine/ Turbine Technology
- Solar cooking Systems
- Solar Distillation/ Water Purification Systems
- Solar Air Heating, Drying and Food Processing Systems
- Solar cooling

- Solar Architecture
- Solar Detoxification of Wastes

POLICY SUPPORT AIDING GROWTH IN THE SECTOR

Electricity Act, 2003	<ul style="list-style-type: none"> • Elimination of licensing for electricity generation projects. • Increased competition through international competitive bidding • Demarcation of transmission as a separate activity
Ultra Mega Power Projects (UMPPs)	<ul style="list-style-type: none"> • Launch of the UMPP scheme through tariff-based competitive bidding. • Ease of land possession, provision of fuel, water and necessary clearances for enhancing investor confidence
R-APDRP	<ul style="list-style-type: none"> • R-APDRP was launched by Ministry of Power with the purpose of reducing AT&T losses up to 15 per cent by upgradation of transmission and distribution network. • Linking disbursement of central government funds (to states), with actual reduction in transmission and distribution losses. Sanctioned projects of more than US\$ 5.8 billion
No environment clearance required for solar projects	<ul style="list-style-type: none"> • The Ministry of Environment, Forest and Climate Change, Government of India has clarified that solar PV (photovoltaic) power, solar thermal power projects, and solar parks will not require the environment clearance which was mandatory under the provisions of Environment Impact Assessment (EIA) notification, 2006.
National Tariff Policy (2016)	<ul style="list-style-type: none"> • The National Tariff Policy for Electricity was amended by the Union Government on 20 January, 2016 and aims to achieve the objectives of UDAY scheme. • Special focus on renewable energy has been laid. In order to promote use of renewable energy, solar Renewable Purchase Obligation (RPO) is proposed to increase to 8 per cent by 2022

DOMESTIC (INDIAN) SOLAR MARKET OUTLOOK

- Green Energy development commitment of 266 GW was received during RE Invest conference in year 2015.
- 40 major banks, NBFCs, have been made the commitment for 78.75 GW of renewable power up to 2022.
- 18.63% (71,201 Crore finance and 29, 529 crore disbursement) has been made as on 31st march 2016
- Attractive Govt. schemes ie. Solar park, VGF schemes, Exemption, so called single window clearances in many states.
- Between April 2000 and March 2016, the industry attracted US\$ 10.48 billion in Foreign Direct Investment (FDI) as Ministry of Finance.
- Indian Energy and Power market is having potential of 15 trillion in next 4-5 years.
- Strong Demand and stable government policies.
- Competitive Cost of generation compare to Wind, Some of the coal based power plants.

INVESTMENTS

Around 293 global and domestic companies have committed to generate 266 GW of solar, wind, mini-hydel and biomass-based power in India over the next 5–10 years. The initiative would entail an investment of about US\$ 310–350 billion. Between April 2000 and March 2017, the industry attracted US\$ 11.59 billion in Foreign Direct Investment (FDI).

Some major investments and developments in the Indian power sector are as follows:

- International Finance Corporation (IFC), the investment arm of the World Bank Group, is planning to invest about US\$ 6 billion through 2022 in several sustainable and renewable energy programmes in India.
- GE Energy Financial Services (GEEFS) plans to invest US\$ 90 million to develop a solar power project of 500 megawatt (MW) in partnership with Rattan India Group.
- Hero Future Energies Pvt Ltd is planning to foray into the battery storage business and set up solar charging stations for electric vehicles (EV) in India to capitalise on India's emerging EV market.
- The Asian Development Bank (ADB) and the Punjab National Bank (PNB) have signed a financing loan worth US\$ 100 million, which will be used to support solar rooftop projects on commercial and industrial buildings across India.
- Tata Capital Ltd and International Finance Corporation (IFC) have invested Rs 200 crore (US\$ 31.05 million) in their joint venture (JV), Tata Cleantech Capital Ltd (TCCL), to increase its loan book for investing in renewable energy projects.
- International Finance Corporation (IFC), along with IFC Global Infrastructure Fund, the private equity fund of IFC Asset Management Company, has announced investment of US\$ 125 million equity in Hero Future Energies, which will help the firm set up 1 gigawatt (GW) of greenfield solar and wind power plants over the next one year.

The Government of India has identified power sector as a key sector of focus so as to promote sustained industrial growth. Some initiatives by the Government of India to boost the Indian power sector:

- The Cabinet Committee on Economic Affairs (CCEA) has approved the enhancement of capacity of the Scheme for Development of Solar Parks and Ultra Mega Solar Power Projects from 20,000 megawatt (MW) to 40,000 MW, which will ensure setting up of at least 50 solar parks each with a capacity of 500 MW and above in various parts of the country.
- The Ministry of Power, Government of India, has taken various measures to achieve its aim of providing 24X7 affordable and environment friendly 'Power for All' by 2019, which includes preparation of state specific action plans, and implementation of Green Energy Corridor for transmission of renewable energy, among other measures.
- The Ministry of Environment, Forest and Climate Change, Government of India has clarified that solar PV (photovoltaic) power, solar thermal power projects, and solar parks will not require the environment clearance which was mandatory under the provisions of Environment Impact Assessment (EIA) notification, 2006.
- The Union Cabinet has approved the ratification of International Solar Alliance's (ISA) framework agreement by India, which will provide India a platform to showcase its solar programmes, and put it in a leadership role in climate and renewable energy issues globally.
- The 'Pradhan Mantri Sahaj Bijli Har Ghar Yojana', with an outlay of Rs 16,320 crore (US\$ 2.51 billion), has been launched by the Government of India with the aim of providing electricity access to over 40 million families in the country by December 2018.

ROAD AHEAD

The 2026 forecast for India's non-hydro renewable energy capacity has been increased to 155 GW from 130 GW on the back of more than expected solar installation rates and successful wind energy auctions. The Government of India is taking a number of steps and initiatives like 10-year tax exemption for solar energy projects, etc., in order to achieve India's ambitious renewable energy targets of adding 175 GW of renewable energy, including addition of 100 GW of solar power, by the year 2022. The government has also sought to restart the stalled hydro power projects and increase the wind energy production target to 60 GW by 2022 from the current 20 GW.

SUMMARY OF BUSINESS

Some of the information contained in the following discussion, including information with respect to our business plans and strategies, contain forward-looking statements that involve risks and uncertainties. You should read the chapter titled —Forward-Looking Statements beginning on page 15 of this Draft Prospectus, for a discussion of the risks and uncertainties related to those statements and also the section —Risk Factors for a discussion of certain factors that may affect our business, financial condition or results of operations. Our actual results may differ materially from those expressed in or implied by these forward-looking statements. Our fiscal year ends on March 31 of each year, so all references to a particular fiscal are to the twelve-month period ended March 31 of that year. The financial information used in this section, unless otherwise stated, is derived from our Consolidated Financial Information, prepared in accordance with Indian GAAP and Companies Act and restated in accordance with the SEBI Regulations. The following information is qualified in its entirety by, and should be read together with, the more detailed financial and other information included in this Prospectus, including the information contained in the sections titled — “Risk Factors” and —Financial Information as restated beginning on pages 16 and 137, respectively.

Unless otherwise stated, reference to this section to “TRL”, “the Company”, or “our Company” are to Taylormade Renewables Limited”, and references to “we”, “our” or “us” are to the Company.

Overview

We are an ISO 9001-2008 registered Company which is a newly organized, closely managed energy company that intends to provide solutions to the customers for their various thermal energy needs at a reasonable cost. It is promoted by First Generation Entrepreneurs Dharamendra Gor, Neera Gor and Jayesh Shah, who are affianced in Solar Thermal technology. We believe solar energy projects generally offer more predictable power generations characteristics, due to the relative predictability of sunlight over the course of time compared to other renewable energy classes and therefore we expect they will provide more stable income streams. Solar energy projects provide maximum energy production during the middle of the day and in the summer months when days are longer and nights shorter. Generally, the demand for power tends to be higher at those times due to the use of air conditioning and as a result energy prices tend to be higher. In addition, solar projects are eligible to receive significant government incentives at both the Central and State levels which can be applied to offset project development costs or supplement the price at which power generated by these projects can be sold. Solar energy projects also tend to have minimal environmental impact enabling such projects to be developed close to areas of dense population where electricity demand is highest.

Our Company was incorporated in the year 2010 and subsequently started its commercial production from GIDC, Pardi, Valsad . Later in the year 2017 we shifted our manufacturing unit from Valsad to our present location at Ahmedabad which is spread over to approximately 44,000 sq.feet. We are primarily engaged in manufacturing of Solar Parabolic Concentrating Systems for steam generation for steam cooking or other industrial application, direct or in-direct heating of water or any other media for industrial requirement, solar air-conditioning, and space heating, solar sludge drying, solar waste water evaporation and many more applications requiring thermal energy. We also manufacture and market Solar Dish Cooker, Solar Box Cooker, Solar Dryer, Biomass cook stoves and Gasifier, Biomass Cook stoves, solar dryers, solar box cookers and solar dish cookers. In our limited operating history of approx 7 years we have been bestowed upon with several awards, recognition and appreciation towards our work in Renewable energy field. Consecutively for 3 years we received awards like, in 2014 Govt. of India, Ministry of New and Renewable Energy has awarded Taylormade Solar Solutions as the Most Active Channel Partner in the county for Concentrated Solar Thermal Technologies, Presented by Piyush Goyal, Honorable Minister of Power, Coal & NRE, in 2015 we received award for Influential Solar Energy Leaders by solar energy global conference award, in 2016 we received award for most active channel partner in India by Ministry of New and Renewable Energy, Government of India for our contribution in the field Solar Renewable energy.

Recently we tied up with Linuo Group of China for import of Evacuated Tube Collector (ETC), Compound Parabolic Collector (CPC), Photovoltaic (PV) Cells and Modules. We have also tied-up with Larkfleet Ltd. U.K for manufacturing of Containerized Solar Steam technology for various solar thermal applications. As on the date of this Draft Prospectus, our Company has collaborated with Larkfleet Limited, Cranfield University and Aston University in the UK and Pandit Deendayal

Petroleum University (PDPU) in India and all the four Institutions (including TRL) is proposing the development of an innovative and cost-effective solar thermally driven Reverse Osmosis water desalination system to be exploited in India.

We have expanded our business and operations significantly during the past three years since our incorporation. We have linear growth in our financials. In financial year 2017, 2016, 2015 our turnover (net) was Rs. 1819.12, 1210.82, 840.79 and for the period ended December 31, 2017 was Rs. 1897.73 respectively. Our restated profits in the financial year 2017, 2016, 2015 were Rs. 42.24, 6.90 and 3.89 respectively and for the period ended December 31, 2017 was Rs. 132.89 respectively.

For information on our Company's incorporation and history and financial details, please refer to chapters titled "History and certain other Corporate matters", and "Financial statement as Restated", "beginning on page 114 and 137 respectively of this Draft Prospectus.

OUR COMPETITIVE STRENGTHS

- ***Experience of our Promoters and management personnel***

We believe in offering customized solution and are focused in delivering what we promise to our customers through our dedicated team of competent personnel having knowledge of core aspects of our Business. We have an experienced, dedicated and skilled workforce with wide experience in their respective fields. Our Promoters have years of experience in Solar Thermal Application Systems, Renewable Energy and various other activities. We believe that the experience of our management team and its in-depth knowledge of business will enable us to continue to take advantage of both current and future market opportunities.

- ***Timely completion of projects***

Timely completion of the project as per the schedule and terms of the contract is of utmost importance for us. It is very critical for the growth of the organization. We have a good track record for timely completion of projects with minimum cost overruns. Timely completion of projects also helps the organization in reducing the possibilities of any penalty or liquidated damage being imposed upon by the clients. Execution of the projects in time also helps the company in maintaining good reputation among the clients and gaining repeated orders.

- ***Quality Assurance***

Our Company adheres strictly on supplying quality products. Each of the Company's products passes through quality checks. The quality assurance measures taken by the Company include checking of all raw materials and production process and intensive care is taken to determine the standard of each and every product dispatched. All the products manufactured by us are as per Ministry of New and Renewable Energy (MNRE) specifications and are tested and certified by Regional Research Test Laboratories of India those who are accredited by MNRE.

- ***Strategic Relationships and Access to Deal Flow***

Our Promoters, Dharmendra Gor and Jayesh Shah have extensive experience in the renewable energy capital markets and project finance sectors and as a result have an extensive network of contacts in these sectors, including long-standing relationships with project developers, and commercial banks, individual and institutional investors, consultants, diligence specialists, contractors, renewable energy technology manufacturers, such as panel manufacturers, solar insurance specialists, component manufacturers, software providers and other industry participants. We believe the breadth and depth of our promoter's relationships will generate a continual source of attractive investment opportunities for us. Furthermore, we believe that Promoters ability to source quality investment opportunities will enhance our ability to utilize our growth capital in an efficient timeframe.

- ***Established client relationship***

Customer satisfaction is the prime focus of our organization and we serve our level best to give them opportunity services. We are able to provide all kinds of solution for our customer due to in house team of professional expert in various fields. We believe that our existing

relationship with our clients represents a competitive advantage in gaining new clients and growing our business.

OUR BUSINESS STRATEGY

We envisage long term growth by supplying qualitative products and efficient services and building long term relations with our customers. In line with this vision, our Company is implementing a business strategy with the following key components. Our strategy will be to focus on capitalizing on our core strengths and expanding the operations of our business. We intend to focus on our existing range of products and services with specific emphasis on the following factors as business and growth strategy:

- ***Training and Motivation of the staff***

Training is an investment employers make in their work force. We focus on training and motivation of our staff on continuous basis. We educate our staff about product and market knowledge. Our Company gives opportunity to employees to continue to grow and develop through such trainings. Our management and employees exchange their ideas, views and opinions and for maintaining good competitive work atmosphere at all levels.

- ***Improve and increase operational efficiencies***

We will continue to focus on further increasing our operations and improving operational effectiveness at our production facilities. Higher operational effectiveness results in greater production volumes and higher sales, and therefore allows us to spread fixed costs over a higher number of units sold, thereby increasing profit margins. We will also continue to identify various strategic initiatives to improve our operational efficiencies and reduce operating costs. We continue to focus on investing in automation, modern technology and equipment to continually upgrade our products including the quality of our products to address changing customer preferences as well as to improve operational efficiency. We continue to target economies of scale to gain increased negotiating power on procurement and to realize cost savings through centralized deployment and management of production, maintenance, accounting and other support functions.

- ***Enhancing client relationships***

We plan to grow our business primarily by growing the number of client relationships, as we believe that increased client relationships will add stability to our business. We seek to build on existing relationships and also focus on bringing into our portfolio more clients. Our Company believes that business is a by-product of relationship. Our Company believes that a long-term client relationship with large clients fetches better dividends. Long-term relations are built on trust and continuous meeting with the requirements of the customers

- ***Increase geographical presence***

We are currently located in Ahmedabad. Going forward, we plan to establish our presence in the other geographical areas including overseas market. Our emphasis is on expanding the scale of our operations as well as growing our supply chain network, which we believe will provide attractive opportunities to grow our client base and revenues.

- ***Maintain Operational Efficiencies and Cost Competitiveness***

We intend to maintain operational efficiencies to the highest possible level as compared with our peers in the industry. Further, we intend to maintain the competitiveness and offer the quality products at reasonable prices.

Details of the Market Making Arrangement for this Issue

Our Company has entered into Market Making Agreement dated January 5, 2018, with the Lead Manager and Market Maker, duly registered with BSE to fulfil the obligations of Market Making:

The details of Market Maker are set forth below:

Name	Guinness Securities Limited
Corporate Office Address	Guinness House, 18, Deshapriya Park Road, Kolkata-700 026
Tel no.	+91-33-40575555
Fax no.	+91-33-2464 6969
Email	kmohanty@guinnessgroup.net
Website	www.guinessonline.net
Contact Person	Mr. Kuldeep Mohanty
SEBI Registration No.	INB 011146033

The Market Maker shall fulfil the applicable obligations and conditions as specified in the SEBI (ICDR) Regulations, and its amendments from time to time and the circulars issued by the BSE and SEBI regarding this matter from time to time.

Following is a summary of the key details pertaining to the Market Making arrangement:

- 1) The Market Maker shall be required to provide a 2-way quote for 75% of the time in a day. The same shall be monitored by the Stock Exchange. The spread (difference between the sell and the buy quote) shall not be more than 10% or as specified by the Stock Exchange. Further, the Market Maker shall inform the Stock Exchange in advance for each and every black out period when the quotes are not being offered by the Market Maker.
- 2) The minimum depth of the quote shall be Rs.1,00,000. However, the investors with holdings of value less than Rs.1,00,000 shall be allowed to offer their holding to the Market Maker (individually or jointly) in that scrip provided that they sell their entire holding in that scrip in one lot along with a declaration to the effect to the selling broker.
- 3) After a period of three (3) months from the market making period, the market maker would be exempted to provide quote if the Shares of market maker in our Company reaches to 25%. (Including the 5% of Equity Shares of the Issue.) Any Equity Shares allotted to Market Maker under this Issue over and above 5% of Issue Size would not be taken in to consideration of

computing the threshold of 25%. As soon as the shares of Market Maker in our Company reduce to 24%, the market maker will resume providing 2-way quotes.

- 4) There shall be no exemption/threshold on downside. However, in the event the Market Maker exhausts its inventory through market making process, the concerned stock exchange may intimate the same to SEBI after due verification.
- 5) Execution of the order at the quoted price and quantity must be guaranteed by the Market Maker, for the quotes given by it.
- 6) There would not be more than five Market Makers for a script at any point of time and the Market Makers may compete with other Market Makers for better quotes to the investors.
- 7) The shares of the Company will be traded in continuous trading session from the time and day the company gets listed on SME Platform of BSE and Market Maker will remain present as per the guidelines mentioned under BSE and SEBI circulars.
- 8) There will be special circumstances under which the Market Maker may be allowed to withdraw temporarily/fully from the market – for instance due to system problems, any other problems. All controllable reasons require prior approval from the Exchange, while *force-majeure* will be applicable for non-controllable reasons. The decision of the Exchange for deciding controllable and non-controllable reasons would be final.
- 9) The Market Maker shall have the right to terminate said arrangement by giving a three month notice or on mutually acceptable terms to the Merchant Banker, who shall then be responsible to appoint a replacement Market Maker.

In case of termination of the above mentioned Market Making agreement prior to the completion of the compulsory Market Making period, it shall be the responsibility of the Lead Manager to arrange for another Market Maker in replacement during the term of the notice period being served by the Market Maker but prior to the date of releasing the existing Market Maker from its duties in order to ensure compliance with the requirements of regulation 106V of the SEBI (ICDR) Regulations, 2009. Further the Company and the Lead Manager reserve the right to appoint other Market Maker either as a replacement of the current Market Maker or as an additional Market Maker subject to the total number of Designated Market Makers does not exceed five or as specified by the relevant laws and regulations applicable at that particular point of time. The Market Making Agreement is available for inspection at our Registered Office from 11.00 a.m. to 5.00 p.m. on working days.

- 10) **Risk containment measures and monitoring for Market Makers:** BSE SME Exchange will have all margins which are applicable on the BSE Main Board viz., Mark-to-Market, Value-At-Risk (VAR) Margin, Extreme Loss Margin, Special Margins and Base Minimum Capital etc. BSE can impose any other margins as deemed necessary from time-to-time.
- 11) **Punitive Action in case of default by Market Makers:** BSE SME Exchange will monitor the obligations on a real time basis and punitive action will be initiated for any exceptions and/or non-compliances. Penalties / fines may be imposed by the Exchange on the Market Maker, in case he is not able to provide the desired liquidity in a particular security as per the specified guidelines. These penalties / fines will be set by the Exchange from time to time. The Exchange will impose a penalty on the Market Maker in case he is not present in the market (offering two way quotes) for at least 75% of the time. The nature of the penalty will be monetary as well as suspension in market making activities / trading membership.

The Department of Surveillance and Supervision of the Exchange would decide and publish the penalties / fines / suspension for any type of misconduct/ manipulation/ other irregularities by the Market Maker from time to time.

- 12) Pursuant to SEBI Circular number CIR/MRD/DSA/31/2012 dated November 27, 2012, limits on the upper side for market maker(s) during market making process has been made applicable, based on the issue size and as follows:

Issue Size	Buy quote exemption threshold (including mandatory initial inventory of 5% of the Issue Size)	Re-Entry threshold for buy quote (including mandatory initial inventory of 5% of the Issue Size)
Up to Rs.20 Crores	25%	24%
Rs.20 to Rs.50 Crores	20%	19%
Rs.50 to Rs.80 Crores	15%	14%
Above Rs.80 Crores	12%	11%

All the above mentioned conditions and systems regarding the Market Making Arrangement are subject to change based on changes or additional regulations and guidelines from SEBI and Stock Exchange from time to time.

Our Promoters have confirmed to the Company and the LM that the acquisition of the Equity Shares forming part of the Promoters' Contribution have been financed from personal funds/internal accruals

and no loans or financial assistance from any banks or financial institution has been availed by for this purpose. All the Equity Shares held by our Promoters were fully paid-up on the respective dates of acquisition of such Equity Shares. As on the date of this Draft Prospectus, none of the Equity Shares held by our Promoters are pledged.

(b) Details of Promoters' Contribution Locked-in for Three Years

Pursuant to the SEBI (ICDR) Regulations, an aggregate of at least 20% of the post Issue Equity Share capital of our Company held by our Promoters shall be considered as promoters' contribution ("*Promoters Contribution*") and locked-in for a period of three years from the date of Allotment

Our Promoters have given written consent to include such number of Equity Shares held by them as may constitute 20% of the post issue Equity Share capital of our Company as Promoters Contribution and have agreed not to sell or transfer or pledge or otherwise dispose of in any manner, the Promoters Contribution from the date of filing of this Draft Prospectus until the commencement of the lock-in period specified above.

Details of the Equity Shares forming part of Promoters Contribution and proposed to be locked-in for a period of three years are as follows:

Name of the Promoter	Number of Equity Shares to be locked-in	Date of Allotment/ Acquisition	Face Value per Equity Share (in Rs.)	Nature of Transaction	Allotment/Acquisition Price	% of Pre- Offer Equity Share Capital	% of Post- Offer Equity Share Capital

Total	20,14,100	-	-	-	-	30.59%	Upto 20.50 %

For details on build-up of Equity Shares held by our Promoters, refer "*Build-up of our Promoters' shareholding in our Company*" at page 61 of this Draft Prospectus.

The Equity Shares that are being locked-in are not, and will not be, ineligible for computation of Promoters' Contribution under Regulation 33 of the SEBI (ICDR) Regulations. In this computation, as per Regulation 33 of the SEBI Regulations, our Company confirms that the Equity Shares locked-in do not, and shall not, consist of:

- The Equity Shares acquired during the three years preceding the date of this Draft Prospectus (a) for consideration other than cash and revaluation of assets or capitalisation of intangible assets, or (b) bonus shares issued out of revaluations reserves or unrealised profits or against equity shares which are otherwise ineligible for computation of Promoters' Contribution;
- The Equity Shares acquired during the year preceding the date of this Draft Prospectus, at a price lower than the price at which the Equity Shares are being offered to the public in the Issue;

- (iii) Equity Shares issued to the Promoters upon conversion of a partnership firm; and
- (iv) Equity Shares held by the Promoters that are subject to any pledge or any other form of encumbrance.

Specific written consent has been obtained from the Promoters for inclusion of the Equity Shares for ensuring lock-in of three years to the extent of minimum 20% of post Issue paid-up Equity Share Capital from the date of allotment in the proposed public Issue.

The minimum Promoters' Contribution has been brought to the extent of not less than the specified minimum lot and from the persons defined as Promoters under the SEBI (ICDR) Regulations, 2009. The Promoters' Contribution constituting 20% of the post issue capital shall be locked-in for a period of three years from the date of Allotment of the Equity Shares in the Issue.

The Equity Shares held by our Promoters may be transferred to and among the Promoter Group or to new Promoters or persons in control of our Company, subject to continuation of the lock-in in the hands of the transferees for the remaining period and compliance with the Takeover Code, as applicable.

(c) Equity Shares locked-in for one year

Other than the Equity Shares held by our Promoters, which will be locked-in as minimum Promoters' contribution for three years, all pre-Issue Equity Shares shall be subject to lock-in for a period of one year from the date of Allotment in this Issue.

(d) Other requirements in respect of 'lock-in'

Pursuant to Regulation 39 of the SEBI (ICDR) Regulations, the locked-in Equity Shares held by our Promoters can be pledged with any scheduled commercial bank or public financial institution as collateral security for loans granted by such scheduled commercial bank or public financial institution, provided that (i) the pledge of shares is one of the terms of sanction of the loan and (ii) if the shares are locked-in as Promoter's contribution for three years under Regulation 36(a) of the SEBI (ICDR) Regulations, then in addition to the requirement in (i) above, such shares may be pledged only if the loan has been granted by the scheduled commercial bank or public financial institution for the purpose of financing one or more of the objects of the Issue.

Pursuant to Regulation 40 of the SEBI (ICDR) Regulations, Equity Shares held by our Promoters, which are locked-in in accordance with Regulation 36 of the SEBI (ICDR) Regulations, may be transferred to and among our Promoters and any member of the Promoter Group, or to a new promoter or persons in control of our Company subject to continuation of the lock-in in the hands of the transferee for the remaining period and compliance with the Takeover Regulations, as applicable.

Further, pursuant to Regulation 40 of the SEBI (ICDR) Regulations, Equity Shares held by shareholders other than our Promoters which are locked-in in accordance with Regulation 37 of the SEBI (ICDR) Regulations, may be transferred to any other person holding shares which are locked-in, subject to continuation of the lock-in in the hands of the transferee for the remaining period and compliance with the Takeover Regulations, as applicable.

15. Neither the Lead Manager viz. Guinness Corporate Advisors Private Limited, nor its associates hold any Equity Shares of our Company as on the date of the Draft Prospectus.
16. Under-subscription in the net issue, if any, in any category, would be allowed to be met with spill over from any other category or a combination of categories at the discretion of our Company in consultation with the Lead Manager and the BSE SME.
17. The unsubscribed portion in any reserved category (if any) may be added to any other reserved category.
18. The unsubscribed portion if any, after such inter se adjustments among the reserved categories shall be added back to the net offer to the public portion.
19. There are no Equity Shares against which Depository Receipts have been issued.
20. Other than the Equity Shares, there is no other class of securities issued by our Company.
21. There will be no further issue of capital, whether by way of issue of bonus shares, preferential allotment, rights issue or in any other manner during the period commencing from the date of the Draft Prospectus until the Equity Shares have been listed. Further, our Company does not intend to alter its capital structure within six months from the date of opening of the Issue, by way of split/consolidation of the denomination of Equity Shares. However our Company may further issue Equity Shares (including issue of securities convertible into Equity Shares) whether preferential or otherwise after the date of the listing of equity shares to finance an acquisition, merger or joint venture or for regulatory compliance or such other scheme of arrangement or any other purpose as the Board may deem fit, if an opportunity of such nature is determined by its Board of Directors to be in the interest of our Company.
22. None of the persons/entities comprising our Promoter Group, or our Directors or their relatives have financed the purchase by any other person of securities of our Company other than in the normal course of the business of any such entity/individual or otherwise during the period of six months immediately preceding the date of filing of this Draft Prospectus.
23. Our Company, our Promoters, our Directors and the Lead Manager have not entered into any buy back or standby or similar arrangements for the purchase of Equity Shares being offered through the Issue from any person.
24. There are no safety net arrangements for this public issue.
25. An over-subscription to the extent of 10% of the net offer to public can be retained for the purpose of rounding off to the nearest multiple of minimum allotment lot, while finalizing the Basis of Allotment. Consequently, the actual Allotment may go up by a maximum of 10% of the Issue, as a result of which, the post-Issue paid up capital after the Issue would also increase by the excess amount of Allotment so made. In such an event, the Equity Shares held by our Promoters and subject to lock- in shall be suitably increased; so as to ensure that a minimum of 20% of the post Issue paid-up capital is locked in.
26. In case of over-subscription in all categories the allocation in the Issue shall be as per the requirements of Regulation 43 (4) of SEBI (ICDR) Regulations, as amended from time to time.
27. As on date of this Draft Prospectus there are no outstanding warrants, options or rights to convert debentures loans or other financial instruments into our Equity Shares.

28. All the Equity Shares of our Company are fully paid up as on the date of this Draft Prospectus. Further, since the entire issue price in respect of the Issue is payable on application, all the successful applicants will be issued fully paid-up equity shares and thus all shares offered through this issue shall be fully paid-up.
29. As per RBI regulations, OCBs are not allowed to participate in this Issue.
30. Our Company has not raised any bridge loans against the proceeds of the Issue.
31. Our Company undertakes that at any given time, there shall be only one denomination for our Equity Shares, unless otherwise permitted by law.
32. Our Company shall comply with such accounting and disclosure norms as specified by SEBI from time to time.
33. An Applicant cannot make an application for more than the number of Equity Shares being issued through this Issue, subject to the maximum limit of investment prescribed under relevant laws applicable to each category of investors.
34. No payment, direct or indirect in the nature of discount, commission, and allowance or otherwise shall be made either by us or our Promoters to the persons who receive allotments, if any, in this Issue.
35. We have 18 shareholders as on the date of filing of this Draft Prospectus.
36. Our Promoters and the members of our Promoter Group will not participate in this Issue.
37. Our Company has not made any public issue since its incorporation.
38. Our Company shall ensure that transactions in the Equity Shares by the Promoters and the Promoter Group between the date of filing the Draft Prospectus and the Issue Closing Date shall be reported to the Stock Exchange within twenty-four hours of such transaction.
39. For the details of transactions by our Company with our Promoter Group, Group Companies for the financial years ended March 31, 2013, 2014, 2015, 2016, 2017 and period ended December 31, 2017 please refer to paragraph titled “Details of Related Parties Transactions as Restated” in the chapter titled ‘Financial Statements as restated’ on page 137 of the Draft Prospectus.
40. None of our Directors or Key Managerial Personnel hold Equity Shares in our Company, except as disclosed hereinabove and as stated in the chapter titled “Our Management” beginning on page 118 of the Draft Prospectus.

OBJECTS OF THE ISSUE

The objects to the Net Proceeds of the Issue are:

1. Long term working capital requirement
2. General corporate purposes.

We believe that the listing of Equity Shares will enhance our Company's corporate image, brand name and create a public market for our Equity Shares in India.

The main objects clause of our Memorandum of Association and the objects incidental and ancillary to the main objects enables us to undertake the activities for which funds are being raised in the Issue. The existing activities of our Company are within the objects clause of our Memorandum of Association.

Issue Proceeds

The details of the issue proceeds are summarised below:

Particulars	Amount (Rs in Lakhs)*
Gross Proceeds of the Issue	[●]
Less: Issue expenses	[●]
Net proceeds	[●]

** To be finalised upon determination of Issue Price.*

Utilisation of Net Proceeds

We intend to utilise the Net Proceeds in the manner set below:

Sr. No.	Particulars	Amount (Rs in Lakhs)	Percentage of Net Proceeds
1.	Working capital requirement	809.27	[●]%
2.	General corporate purposes*	[●]	[●]%
	Total	[●]	[●]%

** To be finalised upon determination of Issue Price.*

FUND REQUIREMENTS

The fund requirement and deployment is based on internal management estimates and our Company's current business plan and is subject to change in light of changes in external circumstances or costs, other financial conditions, business or strategy. These estimates have not been appraised by any bank or financial institution.

In view of the nature of the sector and specifically that of our business, we may have to revise our expenditure and fund requirements as a result of variations in cost estimates, exchange rate fluctuations and external factors which may not be within the control of our management. This may entail rescheduling and revising the planned expenditures and fund requirements and increasing or decreasing expenditures for a particular purpose at the discretion of our management, within the objects.

Means of Finance

Particulars	Total requirement	Amount already deployed	Amount proposed to be financed from IPO proceeds	Funds from credit facility sanctioned by bank	Internal accruals
Working capital requirement	2149.87	-	809.27	550.00	1359.27
General corporate purposes*	[●]	-	[●]	[●]	[●]

The requirements of the objects detailed above are intended to be funded from the Proceeds of the Issue and Internal Accruals. Accordingly, we confirm that there is no requirement for us to make firm arrangements of finance through verifiable means towards at least 75% of the stated means of finance, excluding the amount to be raised from the proposed fresh Issue.

While we intend to utilise the Issue Proceeds in the manner provided above, in the event of a surplus, we will use such surplus towards general corporate purposes including meeting future growth requirements. In case of variations in the actual utilisation of funds earmarked for the purposes set forth above, increased fund requirements for a particular purpose may be financed by surplus funds, if any, available in respect of the other purposes for which funds are being raised in this Issue. In the event of any shortfall in the Net Proceeds, we may explore a range of options including utilising our internal accruals and seeking additional debt from existing and future lenders.

Working Capital Requirement

Our business is working capital intensive. We finance our working capital requirements from bank funding, internal accruals and other sources.

As on March 31, 2016 and March 31, 2017 our Company's net working capital consisted of Rs. 201.39 lakhs and Rs. 265.53 lakhs respectively, based on the restated financial statements.

The total working capital requirement for the year 2017-18 is expected to be Rs. 1675.04 lakhs. The incremental working capital requirement for the year ended March 31, 2018 will be Rs. 2149.87 lakhs, of which working capital requirements for FY 2017-18 will be met through the Net Proceeds to the extent of Rs [●] lakhs, and the balance portion will be met through internal accruals.

Our Company proposes to utilize Rs. [●] lakhs of Net Proceeds in FY 2017-18 towards working capital requirements for meeting our business requirements.

The incremental working capital requirements are based on historical Company data and estimation of the future requirements in Financial Year 2017-18 considering the growth in activities of our Company.

Justification for "Holding Period" levels

The justifications for the holding levels mentioned in the table above are provided below:

Assets- Current Assets	
Inventories	In FY 2017-18, we have assumed raw material inventory of around 3.04 month which is slightly higher than for F.Y. 2016-17 as we aim to achieve higher production as we aim to expand our manufacturing operations.
Trade receivables	In FY 2017-18, the trade receivable holding period is estimated to slightly increase from 3.22 months in F.Y. 2016-17 to 6.08 months. The increase is due to expected increase in operations and tapping of new customers, so as to fulfill customer requirements on immediate basis.
Liabilities- Current Liabilities	
Trade Payables	In FY 2017-18, the credit period is expected to be 0.15 months as compared to 1.43 months in FY 2016-17, as the Company will strive to adhere to stricter credit policy to achieve better and favourable pricing terms and to ensure continued relation with the existing suppliers.

GENERAL CORPORATE PURPOSES

Our Company proposes to deploy the balance Net Proceeds aggregating Rs [●] lakhs towards general corporate purposes, subject to such utilisation not exceeding 25% of the Net Proceeds, in compliance with the SEBI Regulations, including but not limited to strategic initiatives, partnerships and joint ventures, meeting exigencies which our Company may face in the ordinary course of business, meeting expenses incurred in the ordinary course of business and any other purpose as may be approved by the Board or a duly appointed committee from time to time, subject to compliance with the necessary provisions of the Companies Act. Our Company's management, in accordance with the policies of the Board, will have flexibility in utilising any surplus amounts.

SCHEDULE OF IMPLEMENTATION & DEPLOYMENT OF FUNDS:

Our Company proposes to deploy the Net Proceeds in the aforesaid objects in the financial year 2017-18.

Activity	Total Amount (Rs in Lakhs)	Amount incurred till date	Estimated deployment of the Issue Proceeds FY 2017-2018
Working capital requirement	809.27	[●]	[●]
General corporate purposes*	[●]	[●]	[●]

Our Statutory Auditors, M/s. Vipul I. Suthar & Co., Chartered Accountants vide their certificate dated January 15, 2018 have confirmed that the following funds have been deployed towards issue expenses.

Amount (Rs in Lakhs)

Source	Amount
Internal Accruals	11.80

Our Management, in accordance with the policies setup by the Board, will have flexibility in deploying the Net Proceeds.

BRIDGE FINANCING

We have not entered into any bridge finance arrangements that will be repaid from the Net Issue Proceeds. However, we may draw down such amounts, as may be required, from an overdraft arrangement / cash credit facility with our lenders, to finance additional working capital needs until the completion of the Issue. Any amount that is drawn down from the overdraft arrangement / cash credit facility during this period to finance additional working capital needs will be repaid from the Net Proceeds.

APPRAISAL BY APPRAISING AGENCY

The fund requirement and deployment is based on internal management estimates and has not been appraised by any bank or financial institution.

INTERIM USE OF FUNDS

Pending utilization of the Issue Proceeds for the Objects of the Issue described above, our Company shall deposit the funds only in Scheduled Commercial Banks included in the Second Schedule of Reserve Bank of India Act, 1934.

In accordance with Section 27 of the Companies Act, 2013, our Company confirms that, pending utilisation of the proceeds of the Issue as described above, it shall not use the funds from the Issue Proceeds for any investment in equity and/or real estate products and/or equity linked and/or real estate linked products.

MONITORING UTILIZATION OF FUNDS

As the size of the Issue does not exceed Rs. 10,000 lakhs, in terms of Regulation 16 of the SEBI Regulations, our Company is not required to appoint a monitoring agency for the purposes of this Issue. Our Board and Audit Committee shall monitor the utilization of the Net Proceeds.

Pursuant to Regulation 32 of the Listing Regulations, our Company shall on a half yearly basis disclose to the Audit Committee the uses and application of the Net Proceeds. Until such time as any

part of the Net Proceeds remains unutilized, our Company will disclose the utilization of the Net Proceeds under separate heads in our Company's balance sheet(s) clearly specifying the amount of and purpose for which Net Proceeds have been utilized so far, and details of amounts out of the Net Proceeds that have not been utilized so far, also indicating interim investments, if any, of such unutilized Net Proceeds. In the event that our Company is unable to utilize the entire amount that we have currently estimated for use out of the Net Proceeds in a Fiscal Year, we will utilize such unutilized amount in the next financial year. Further, in accordance with Regulation 32(1) (a) of the Listing Regulations our Company shall furnish to the Stock Exchanges on a half yearly basis, a statement indicating material deviations, if any, in the utilization of the Net Proceeds for the objects stated in this Draft Prospectus.

VARIATION IN OBJECTS

In accordance with Section 13(8) and Section 27 of the Companies Act, 2013 and applicable rules, our Company shall not vary the objects of the Issue without our Company being authorised to do so by the Shareholders by way of a special resolution through postal ballot. In addition, the notice issued to the Shareholders in relation to the passing of such special resolution (the "Postal Ballot Notice") shall specify the prescribed details as required under the Companies Act and applicable rules. The Postal Ballot Notice shall simultaneously be published in the newspapers, one in English and one in the vernacular language of the jurisdiction where the Registered Office is situated. Our Promoters or controlling Shareholders will be required to provide an exit opportunity to such Shareholders who do not agree to the proposal to vary the objects, at such price, and in such manner, as may be prescribed by SEBI, in this regard.

Other confirmations

There is no material existing or anticipated transactions with our Promoters, our Directors, our Company's Key Managerial Personnel and Group Entities, in relation to the utilisation of the proceeds of the Issue. No part of the issue proceeds will be paid by us as consideration to our Promoters, our Directors or Key Managerial Personnel or our Group Entities, except in the normal course of business and in compliance with the applicable laws.

BASIC TERMS OF THE ISSUE

The Equity Shares, now being issued, are subject to the terms and conditions of this Draft Prospectus, Application form, Confirmation of Allocation Note (CAN), the Memorandum and Articles of Association of our Company, the guidelines for listing of securities issued by the Government of India and SEBI (ICDR) Regulations, 2009, the Depositories Act, Stock Exchange, RBI, ROC and/or other authorities as in force on the date of the Issue and to the extent applicable. In addition, the Equity Shares shall also be subject to such other conditions as may be incorporated in the Share Certificates, as per the SEBI (ICDR) Regulations, 2009 notifications and other regulations for the issue of capital and listing of securities laid down from time to time by the Government of India and/or other authorities and other documents that may be executed in respect of the Equity Shares. If there is a delay beyond prescribed time after the Issuer becomes liable to pay the amount, the Issuer shall pay interest prescribed under section 40 of the Companies Act, 2013. For further details, please refer to section titled "Terms of the Issue" beginning on page 175 of this Draft Prospectus.

BASIS FOR ISSUE PRICE

The Issue Price of Rs. [•] per Equity Share will be determined by our Company in consultation with the Lead Manager on the basis of an assessment of market demand for the Equity shares through Fixed Price process and on the basis of the following qualitative and quantitative factors.

The face value of the Equity Shares of our Company is Rs.10/- each and the Issue Price is [•] times of the face value.

QUALITATIVE FACTORS

Some of the qualitative factors, which form the basis for computing the price, are:

- Experienced management team
- State of art Infrastructure

For further details, refer to heading “*Our Competitive Strengths*” under chapter titled “*Our Business*” beginning on page 95 of this Draft Prospectus.

QUANTITATIVE FACTORS

The information presented below relating to the Company is based on the restated financial statements of the Company for Financial Year 2015, 2016, 2017 and for the period ended December 31, 2017 prepared in accordance with Indian GAAP. Some of the quantitative factors, which form the basis for computing the price, are as follows:

1. Basic and Diluted Earnings per Share (EPS) as per Accounting Standard 20

Year ended	EPS (Rs.)	Weight
March 31, 2015	0.67	1
March 31, 2016	1.31	2
March 31, 2017	6.77	3
Weighted average	3.93	
For the period ended December 31, 2017*	18.61	

*Not Annualized

Note:-

The earnings per share has been computed by dividing net profit as restated, attributable to equity shareholders by restated weighted average number of equity shares outstanding during the period/year. Restated weighted average number of equity shares has been computed as per AS 20. The face value of each Equity Share is Rs. 10/-.

2. Price to Earnings (P/E) ratio in relation to Issue Price of Rs. [•] per Equity Share of Rs. 10 each fully paid up.

Particulars	PE Ratio
P/E ratio based on Basic EPS for FY 2016-17	[•]
P/E ratio based on Weighted Average EPS	[•]
Industry P/E	
Lowest	NA
Highest	NA
Average	NA

3. Return on Net worth (RoNW) as per restated financial statements

Year ended	RoNW (%)	Weight
------------	----------	--------

Year ended	RoNW (%)	Weight
March 31, 2015	7.25%	1
March 31, 2016	13.19%	2
March 31, 2017	40.59%	3
Weighted Average	25.09%	
For the period ended December 31, 2017*	18.37%	

*Not Annualized.

Note: The RoNW has been computed by dividing net profit after tax as restated, by Net Worth as at the end of the year excluding miscellaneous expenditure to the extent not written off.

4. Minimum Return on Total Net Worth post issue needed to maintain Pre Issue EPS for the year ended March 31, 2017 is [•]

5. Net Asset Value (NAV)

Particulars	Amount (in Rs.)
Net Asset Value per Equity Share as of March 31, 2017	22.99
Net Asset Value per Equity Share as of December 31, 2017	34.01
Net Asset Value per Equity Share after the Issue	[•]
Issue Price per equity share	[•]

Net Asset Value per Equity Share has been calculated as net worth divided by number of equity shares outstanding at the end of the period.

6. Comparison with other listed companies

We believe that there are no listed Companies in India which are purely engaged in manufacturing of Solar Parabolic Concentrating Systems for steam generation for steam cooking or other industrial application, direct or in-direct heating of water or any other media for industrial requirement, solar air-conditioning, and space heating, solar sludge drying, solar waste water evaporation and many more applications requiring thermal energy.

Notes:

- The figures for Taylormade Renewables Limited are based on the restated results for the year ended March 31, 2017 and for the period ended December 31, 2017
- The Issue Price of Rs. [•] per equity share has been determined by our company in consultation with the Selling Shareholders and the LM on the basis of assessment of market demand from investors for the Equity shares through Fixed Price process and is justified based on the above accounting ratios.

For further details see section titled “*Risk Factors*” beginning on page 16 of this Draft Prospectus and the financials of the Company including profitability and return ratios, as set out in the section titled “*Financial Statements*” beginning on page 137 of this Draft Prospectus for a more informed view.

SECTION IV – ABOUT OUR COMPANY

INDUSTRY OVERVIEW

The information in this section is derived from various publicly available sources, government publications and other industry sources.

Neither we nor any other person connected with the Issue has independently verified this information. Industry sources and publications generally state that the information contained therein has been obtained from sources generally believed to be reliable, but that their accuracy, completeness and underlying assumptions are not guaranteed and their reliability cannot be assured. Industry publications are also prepared based on information as of specific dates and may no longer be current or reflect current trends. Accordingly, investment decisions should not be based on such information. Unless otherwise specified, references to years are to calendar years in this section.

INDIAN POWER SECTOR

India's power sector is one of the most diversified in the world. Sources of power generation range from conventional sources such as coal, lignite, natural gas, oil, hydro and nuclear power to viable non-conventional sources such as wind, solar, and agricultural and domestic waste. Electricity demand in the country has increased rapidly and is expected to rise further in the years to come. With electricity production of 1,160.1 BU in India in FY17, the country witnessed growth of around 4.72 per cent over the previous fiscal year. Electricity production stood at 611.3 BU between April-September 2017. As of September 2017, total thermal installed capacity in the country stood at 219.45 GW, while hydro and renewable energy installed capacity totalled to 44.77 GW and 58.3 GW, respectively. India is expected to become the third biggest solar market across the globe in 2017, with 8.8 gigawatt (GW) of capacity addition projected for the year ahead. Moreover, the country's solar capacity is expected to reach 18.7GW by 2017, which is about 5 per cent of global solar capacity.

SOLAR POWER IN INDIA

India is situated in sunny belt India is endowed with vast solar energy potential. Most parts of India get 300 days of sunshine a year. About 5,000 trillion kWh per year energy is incident over Indian land area with most area receiving 4-7 kWh per sq. meter per day. Hence, both technology solar thermal and solar photovoltaic's can effectively provide huge capability for solar in India. Over the last few years, the solar power generation capacity in the country has increased tremendously owing to favourable government initiatives coupled with development in manufacturing technology of solar panels. Indian Solar Power Industry is anticipated to have double digit growth during next few years, due to the government's policy to increase the share of solar power in the country's energy mix and falling equipment (PV Module) costs globally. Moreover, solar power tariff in India has witnessed a drastic fall over the last few years. The solar power tariffs in India have fallen in nominal terms from

INR 15 /Kwh in 2009 to INR 2.44/ Kwh in 2017, due to decline in module prices and improvements in capacity utilization factor. However, the ever-declining solar power tariffs has encouraged good investments into the sector but have raised concerns over the long -term sustainability of the projects.

To boost the solar power generation in the country, the Government of India has announced various policies and regulations, such as, accelerated depreciation, capital subsidy, Renewable Energy Certificate(RECs), Net Metering Incentives, Assured Power Purchase agreement etc. The schemes formulated by the government intends to reduce the capital expenditure in building a solar power plant, and subsidize the power generation to make it economically viable for the stakeholders involved in the solar power business.

OPPORTUNITIES FOR SOLAR THERMAL POWER GENERATION IN INDIA

Solar thermal power generation can play a significant important role in meeting the demand supply gap for electricity. Three types of applications are possible:

4. Rural electrification using solar dish collector technology. Typically these dishes care of 10 to 25 kW capacity each and use striling engine for power generation. These can be developed for village level distributed generation by hybridizing them with biomass gasifier for hot air generation.
5. Integration of solar thermal power plants with existing industries such as paper, dairy or sugar industry, which has cogeneration units Many industries have steam turbine sets for cogeneration. These can be coupled with solar thermal power plants. Typically these units are of 5 to 250 MW capacities and can be coupled with solar thermal power plants. This approach will reduce the capital investment on steam turbines and associated power-house infrastructure thus reducing the cost of generation of solar electricity.
6. Integration of solar thermal power generation unit with existing coal thermal power plants. The study shows that savings of up to 24% is possible during periods of high insolation for feed water heating to 241°C.

TECHNOLOGY

India is a country with rich solar resources and Government of India has modified Jawaharlal Nehru National Solar Mission (JNNSM) target of 20 GW solar power to ambitious 100 GW solar power by 2022. Government's emphasis on solar energy is due to the fact that it produces clean and emission free energy while reducing country's dependence on fossil fuels. Apart from power generation, solar energy can also play an important role in saving fuel used for heating and cooling applications in industrial, institutional and residential sectors through Concentrated Solar Thermal (CST) technologies. The Ministry of New and Renewable Energy (MNRE) has initiated a couple of projects in association with UNDP and UNIDO to promote CST applications through financial and fiscal support to users and technology providers/ manufacturers. MNRE has also taken steps to develop Renewable Energy (RE) Policy in this regard. CST technologies, both in India and on global scale, are in a nascent stage but have huge potential to impact carbon footprint of global industrial sector in a significant manner. For a developing country like India, CST technologies offer very attractive proposition. The clean and emission free source of energy will help reduce fossil fuel consumption significantly. This will also reduce carbon footprint of industrial sector, assisting India's commitment to reduce its greenhouse emissions. The Government of India (GoI) through Bureau of Energy Efficiency (BEE) has initiated a massive programme for energy conservation across all sectors and promotion of CST technologies to further reduce fossil fuel consumption is next logical step in this direction. These technologies offer opportunities for development of indigenous technologies which can create local jobs and take forward 'Make in India' initiative launched by the Hon'ble Prime Minister Shri Narendra Modi. The MNRE has recognized this

potential and has taken systematic efforts for development and support of CST sector. These efforts have culminated into installation of approximately 42,000 m² of aperture area of CST systems into community cooking, process heating and cooling applications.

Various solar thermal technologies and Applications as given:

- Parabolic Trough technology
- Central Receiver Technology
- Dish/ Engine/ Turbine Technology
- Solar cooking Systems
- Solar Distillation/ Water Purification Systems
- Solar Air Heating, Drying and Food Processing Systems
- Solar cooling
- Solar Architecture
- Solar Detoxification of Wastes

POLICY SUPPORT AIDING GROWTH IN THE SECTOR

Electricity Act, 2003	<ul style="list-style-type: none"> • Elimination of licensing for electricity generation projects. • Increased competition through international competitive bidding • Demarcation of transmission as a separate activity
Ultra Mega Power Projects (UMPPs)	<ul style="list-style-type: none"> • Launch of the UMPP scheme through tariff-based competitive bidding. • Ease of land possession, provision of fuel, water and necessary clearances for enhancing investor confidence
R-APDRP	<ul style="list-style-type: none"> • R-APDRP was launched by Ministry of Power with the purpose of reducing AT&T losses up to 15 per cent by upgradation of transmission and distribution network. • Linking disbursement of central government funds (to states), with actual reduction in transmission and distribution losses. Sanctioned projects of more than US\$ 5.8 billion
No environment clearance required for solar projects	<ul style="list-style-type: none"> • The Ministry of Environment, Forest and Climate Change, Government of India has clarified that solar PV (photovoltaic) power, solar thermal power projects, and solar parks will not require the environment clearance which was mandatory under the provisions of Environment Impact Assessment (EIA) notification, 2006.
National Tariff Policy (2016)	<ul style="list-style-type: none"> • The National Tariff Policy for Electricity was amended by the Union Government on 20 January, 2016 and aims to achieve the objectives of UDAY scheme.

- Special focus on renewable energy has been laid. In order to promote use of renewable energy, solar Renewable Purchase Obligation (RPO) is proposed to increase to 8 per cent by 2022

DOMESTIC (INDIAN) SOLAR MARKET OUTLOOK

- Green Energy development commitment of 266 GW was received during RE Invest conference in year 2015.
- 40 major banks, NBFCs, have been made the commitment for 78.75 GW of renewable power up to 2022.
- 18.63% (71,201 Crore finance and 29, 529 crore disbursement) has been made as on 31st march 2016
- Attractive Govt. schemes ie. Solar park, VGF schemes, Exemption, so called single window clearances in many states.
- Between April 2000 and March 2016, the industry attracted US\$ 10.48 billion in Foreign Direct Investment (FDI) as Ministry of Finance.
- Indian Energy and Power market is having potential of 15 trillion in next 4-5 years.
- Strong Demand and stable government policies.
- Competitive Cost of generation compare to Wind, Some of the coal based power plants.

INVESTMENTS

Around 293 global and domestic companies have committed to generate 266 GW of solar, wind, mini-hydel and biomass-based power in India over the next 5–10 years. The initiative would entail an investment of about US\$ 310–350 billion. Between April 2000 and March 2017, the industry attracted US\$ 11.59 billion in Foreign Direct Investment (FDI).

Some major investments and developments in the Indian power sector are as follows:

- International Finance Corporation (IFC), the investment arm of the World Bank Group, is planning to invest about US\$ 6 billion through 2022 in several sustainable and renewable energy programmes in India.
- GE Energy Financial Services (GEEFS) plans to invest US\$ 90 million to develop a solar power project of 500 megawatt (MW) in partnership with Rattan India Group.
- Hero Future Energies Pvt Ltd is planning to foray into the battery storage business and set up solar charging stations for electric vehicles (EV) in India to capitalise on India's emerging EV market.
- The Asian Development Bank (ADB) and the Punjab National Bank (PNB) have signed a financing loan worth US\$ 100 million, which will be used to support solar rooftop projects on commercial and industrial buildings across India.
- Tata Capital Ltd and International Finance Corporation (IFC) have invested Rs 200 crore (US\$ 31.05 million) in their joint venture (JV), Tata Cleantech Capital Ltd (TCCL), to increase its loan book for investing in renewable energy projects.
- International Finance Corporation (IFC), along with IFC Global Infrastructure Fund, the private equity fund of IFC Asset Management Company, has announced investment of US\$ 125 million equity in Hero Future Energies, which will help the firm set up 1 gigawatt (GW) of greenfield solar and wind power plants over the next one year.

The Government of India has identified power sector as a key sector of focus so as to promote sustained industrial growth. Some initiatives by the Government of India to boost the Indian power sector:

- The Cabinet Committee on Economic Affairs (CCEA) has approved the enhancement of capacity of the Scheme for Development of Solar Parks and Ultra Mega Solar Power Projects from 20,000 megawatt (MW) to 40,000 MW, which will ensure setting up of at least 50 solar parks each with a capacity of 500 MW and above in various parts of the country.
- The Ministry of Power, Government of India, has taken various measures to achieve its aim of providing 24X7 affordable and environment friendly 'Power for All' by 2019, which includes preparation of state specific action plans, and implementation of Green Energy Corridor for transmission of renewable energy, among other measures.
- The Ministry of Environment, Forest and Climate Change, Government of India has clarified that solar PV (photovoltaic) power, solar thermal power projects, and solar parks will not require the environment clearance which was mandatory under the provisions of Environment Impact Assessment (EIA) notification, 2006.
- The Union Cabinet has approved the ratification of International Solar Alliance's (ISA) framework agreement by India, which will provide India a platform to showcase its solar programmes, and put it in a leadership role in climate and renewable energy issues globally.
- The 'Pradhan Mantri Sahaj Bijli Har Ghar Yojana', with an outlay of Rs 16,320 crore (US\$ 2.51 billion), has been launched by the Government of India with the aim of providing electricity access to over 40 million families in the country by December 2018.

ROAD AHEAD

The 2026 forecast for India's non-hydro renewable energy capacity has been increased to 155 GW from 130 GW on the back of more than expected solar installation rates and successful wind energy auctions. The Government of India is taking a number of steps and initiatives like 10-year tax exemption for solar energy projects, etc., in order to achieve India's ambitious renewable energy targets of adding 175 GW of renewable energy, including addition of 100 GW of solar power, by the year 2022. The government has also sought to restart the stalled hydro power projects and increase the wind energy production target to 60 GW by 2022 from the current 20 GW.

INDIAN RENEWABLE ENERGY OVERVIEW

The Ministry of New and Renewable Energy (MNRE) is the nodal Ministry at the federal level for all matters relating to new and renewable energy. The Ministry has been facilitating the implementation of broad spectrum programs including harnessing renewable power, renewable energy to rural areas for lighting, cooking and motive power, use of renewable energy in urban, industrial and commercial applications and development of alternate fuels and applications.

Indian Renewable Energy Scenario

Over the years, renewable energy sector in India has emerged as a significant player in the grid connected power generation capacity. It supports the government agenda of sustainable growth, while, emerging as an integral part of the solution to meet the nation's energy needs and an essential player for energy access. It has been realized that renewable energy has to play a much deeper role in achieving energy security in the years ahead and be an integral part of the energy planning process. There has been a visible impact of renewable energy in the Indian energy scenario during the last five years. Renewable energy sector landscape in India has, during the last few years, witnessed tremendous changes in the policy framework with accelerated and ambitious plans to increase the contribution of solar energy. There is a perception that renewable energy can now play a

significant role, as also, there is a confidence in the technologies and capacity to do so. Enlarging the scope of the Jawaharlal Nehru National Solar Mission symbolizes both, and indeed encapsulates the vision and ambition for the future. This transformational change is, perhaps, the highlight of the last five years of activities under the Mission. In addition, the launching of Renewable Energy Certificate (REC) mechanism helps in the creation of a Pan-India renewable energy market. The other significant achievements are introduction of solar specific purchase obligations; launching of improved cook-stoves initiatives; initiating coordinated research and development activities in solar PV and thermal; second generation biofuels, hydrogen energy and fuel cells, etc

Core drivers for development and deployment of new and renewable energy in India have been

Energy security: At present around 69.5 per cent of India's power generation capacity is based on coal. In addition, India's increasing dependence on imported oil, is leading to imports of around 33 per cent of India's total energy needs

Electricity shortages: Despite increase in installed capacity by more than 113 times in 65 years, India is still not in a position to meet its peak electricity demand as well as energy requirement. The peak power deficit during financial year 2001-02 was 12.2 per cent, approximately 9252 MW, however, at the end of Financial Year 2014-15, the peak power deficit decreased to the order of 2.4 per cent. As a fallout of this situation, planned and un-planned measures were undertaken by the government and utilities to bridge this demand-supply gap.

Energy Access: India faces a challenge to ensure availability of reliable and modern forms of energy for all its citizens. Almost 85 per cent of rural households depend on solid fuel for their cooking needs and only 55 per cent of all rural households have access to electricity. However, even with this low access, most rural households face issues with quality and consistency of energy supply. Lack of rural lighting is leading to large-scale use of kerosene. This usage needs to be reduced, as it leads to increased subsidies and import dependence, and consequent pressure on foreign exchange reserves.

Climate change: India has taken a voluntary commitment of reducing emission intensity of its GDP by 33-35 per cent from 2005 levels by 2030. In the recently concluded 21st Conference of the Parties to the United Nations Framework Convention on Climate Change (UNFCCC) held at Paris, France, India committed to achieve about 40 per cent cumulative electric power installed capacity from non-fossil fuel based energy resources by 2030 with the help of transfer of technology and low cost international finance including from Green Climate Fund (GCF)

RENEWABLE ENERGY POTENTIAL

India has an estimated renewable energy potential of about 900 GW from commercially exploitable sources viz. Wind – 102 GW (at 80 metre mast height); Small Hydro – 20 GW; Bio-energy – 25 GW; and 750 GW solar power, assuming 3% wasteland is made available. The Ministry had taken up a new initiative for implementation of wind resource assessment in uncovered / new areas with an aim to assess the realistic potential at 100 m level in 500 new stations across the country under the National Clean Energy Fund (NCEF). The revised wind energy potential in the country extrapolated at 80 metre height has been found to be 102,788 MW. National Institute of Wind Energy has used advanced modelling techniques and revised the estimate the wind power potential at 100 metre at 302 GW. Estimates of offshore wind energy potential indicate potential in Tamil Nadu and Gujarat. Wind energy generators of unit sizes between 250kW and 2.50 MW have been deployed across the country. In addition, there exists significant potential from decentralized distributed applications for meeting hot water requirement for residential, commercial and industrial sector through solar energy and also for meeting cooking energy needs in the rural areas through biogas.as mentioned provides details on state wise renewable energy potential in the country. Renewable energy has a great

potential to usher in universal energy access. In a decentralized or standalone mode, renewable energy is an appropriate, scalable and viable solution for providing power to un-electrified or power deficient villages and hamlets. Around 1.1 million households are using solar energy to meet their lighting energy needs and almost similar numbers of the households meet their cooking energy needs from biogas plants. Solar Photovoltaic (PV) power systems are being used for a variety of applications such as rural electrification, railway signalling, microwave repeaters, TV transmission and reception and for providing power to border outposts. Over 10,000 remote and inaccessible villages and hamlets have been provided with basic electricity services through distributed renewable power systems.

India has developed extensive data bases for renewable energy resource in the country. The National Institute of Wind Energy (NIWE), formerly known as Centre for Wind Energy Technology, has developed the Wind Atlas of India. NIWE also collects data from Solar Radiation Resource Assessment stations to assess and quantify solar radiation availability and develop Solar Atlas of the country. National Institute of Solar Energy has assessed the State wise solar potential by taking 3% of the waste land area to be covered by Solar PV modules. The Indian Institute of Science, Bengaluru has developed Biomass Atlas of India, and the Alternate Hydro Energy Centre, Indian Institute of Technology, Roorkee has assessed small hydro potential in the country

A large domestic manufacturing base has been established in the country for renewable energy systems and products. Companies investing in these technologies are eligible for fiscal incentives, tax holidays and depreciation allowance apart from the remunerative returns for the power fed into the grid. Further, the government is encouraging foreign investors to set up renewable power projects with 100 percent foreign direct investment. The Indian Renewable Energy Programme has received wide recognition internationally in the recent years. Many countries have evinced interest in cooperation with India for promotion of new and renewable energy. India has considerable expertise and experience in promoting renewable energy, both grid interactive and off-grid/stand-alone applications for meeting electrical energy needs. India has been interacting with several developed and developing countries for cooperation in new and renewable energy sector. Bilateral and multilateral cooperation frameworks have been established with 44 countries

RENEWABLE ENERGY TARGETS

Immediately after the Prime Minister's inaugural address to the 1st Renewable Energy Global Investor Meet & Expo (RE-INVEST 2015) on 15th February, 2015 articulating the future of renewable as "moving from megawatt to gigawatt", the Government quickly worked towards laying down actionable plans for the Renewable Energy sector to make a quantum jump. Many investors and stakeholders have committed their investments in the sector by taking up projects in different parts of the country. The Government has laid a strong foundation for the penetration of renewable energy in India in the coming years. The Government has up-scaled the target of renewable energy capacity to 175 GW by the year 2022 which includes 100 GW from solar, 60 GW from wind, 10 GW from bio-power and 5 GW from small hydro-power. The capacity target of 100 GW set under the National Solar Mission (JNNSM) will principally comprise of 40 GW Rooftop and 60 GW

through Large and Medium Scale Grid Connected Solar Power Projects. With this ambitious target, India will become one of the largest Green Energy producers in the world, surpassing several developed countries. The total investment in setting up 100 GW will be around Rs.6,00,000 crore. The target, which looked overambitious, now seems within the realms of reality with several States already witnessing silent revolution on rooftop solar power generation with the launch of net metering in the country. Confident of the growth rate in clean energy sector, the Government of India in its submission to the United Nations Framework Convention on Climate Change on Intended Nationally Determined Contribution (INDC) has stated that India will achieve 40% cumulative Electric power capacity from non-fossil fuel based energy resources by 2030 with the help of transfer of technology and low cost International Finance including from Green Climate Fund.

Prime Minister Shri Narendra Modi and French President Mr. François Hollande jointly launched the International Solar Alliance (ISA) at the UNFCCC CoP 21 in Paris on 30th November 2015 as a special platform for mutual cooperation among 121 solar resource rich countries lying fully or

partially between Tropic of Cancer and Tropic of Capricorn. The alliance is dedicated to address special energy needs of ISA member countries.

RECENT SCHEMES AND PROGRAMMES

In continuation of the new initiatives launched in the previous year, the Government has taken up the following new projects/schemes during the current financial year:

- Scheme for Setting up over 2,000 MW of Grid-Connected Solar PV Power Projects with Viability Gap Funding (VGF)

Under Batch-III of Phase II of the NSM. Projects are to be set up by Solar Power developers on Build-Own-Operate basis, selected through a process of open and transparent competitive reverse bidding on the VGF amount, with a provision of reduction in tariff. These projects would be selected through a process of e-bidding followed by e- reverse auctioning.

- Conversion of Solar Energy Corporation of India (SECI) From Section 8 Company to Section 3 Company under The Companies Act, 2013 (No. 18 Of 2013) and to Re-name it as Renewable Energy Corporation Of India (RECI).
- Creation of Intra State Transmission System in the States of Andhra Pradesh, Gujarat, Himachal Pradesh, Karnataka, Madhya Pradesh, Maharashtra and Rajasthan at an estimated cost of Rs.8548.68 crore with Government of India contribution from National Clean Energy Fund (NCEF) of Rs.3419.47 crore. A similar project at a total cost of Rs.1593 crore with contribution from NCEF at Rs.637 crore was approved earlier by the Government for Tamil Nadu in the previous year.
- Scaling up of Budget from Rs.600 crore during 12th Five Year Plan to Rs.5000 crore for Grid Connected Rooftop and Small Solar Power Plants Programme over a Period of Five Years upto 2019-20 under National Solar Mission (NSM).

- Scheme for Setting up of over 5000 MW Grid-Connected Solar PV Power Projects with Viability Gap Funding Under Batch-IV of Phase-II of the NSM.

In order to facilitate integration of large scale renewable generation capacity addition, Cabinet Committee of Economic Affairs (CCEA) approved creation of intra-state transmission system in the states of Andhra Pradesh, Gujarat, Himachal Pradesh, Karnataka, Madhya Pradesh, Maharashtra, Rajasthan and Tamil Nadu rich in renewable resource potential and where large capacity renewable power projects are planned, at an estimated cost of Rs.10,141.68 crore with Government of India contribution from National Clean Energy fund (NCEF) of Rs.4056.67 crore. The activities envisaged under the project includes establishment of 48 new Grid sub-stations of different voltage levels with total transformation capacity around 17100 MVA (Mega Volt Ampere) by installing over 7800 ckt-kms (Circuit Kilometers) of transmission lines in these seven states. The project is proposed to be completed within a period of three to five years, with costs proposed to be met through KfW loan (40 percent of the total cost), NCEF grant (40 percent of the total cost) and the remaining 20 percent as State contribution. Creation of an intra-state transmission system will facilitate evacuation of renewable power from generation stations to load centres

The Government approved **Solar Energy Corporation of India (SECI)** to apply to the Registrar of Companies for converting it into a Section 3 company and renaming it as the Renewable Energy Corporation of India (RECI). After this, SECI will become a self-sustaining and self-generating organization. It will engage itself in owning solar power plants generating and selling power and in other segments of solar sector activities, including manufacturing of solar products and materials. RECI will take up development of all segments of renewable energy namely, geo-thermal, off-shore wind, tidal etc. apart from solar energy.

POLICY INITIATIVES

The Ministry has taken a number of Policy Initiatives as given below:

National Offshore Wind Energy Policy, 2015 : Under this Policy, the Ministry of New & Renewable Energy (MNRE) has been authorized as the Nodal Ministry for use of offshore areas within the Exclusive Economic Zone (EEZ) of the country and the National Institute of Wind Energy (NIWE) has been authorized as the Nodal Agency for development of offshore wind energy in the country and to carry out allocation of offshore wind energy blocks, coordination and allied functions with related ministries and agencies. It would pave the way for offshore wind energy development including, setting up of offshore wind power projects and research and development activities, in waters, in or adjacent to the country, up to the seaward distance of 200 Nautical Miles (EEZ of the country) from the base line. The policy will provide a level playing field to all investors/beneficiaries, domestic and international. It is planned to set up the first offshore wind power project off the Gujarat coast soon.

Wind Atlas, 2015 Launched: A wind Atlas having information at 100 m height has been launched. It's a GIS based software tool which will help not only the developers but also policy planners.

Restoration of Accelerated Depreciation Benefits for Wind Power Projects: After significant harm was done to the wind sector due to withdrawal of AD with effect from 1.4.2012, it has been restored on 18.7.2014. This decision of the Government has helped in creating a robust manufacturing base for wind turbines in the country.

Establishment of Partnership to Advance Clean Energy (PACE) Setter Fund: U.S. and India have signed an MoU to establish PACE Setter Funds with a contribution of US\$ 4 million (INR 25 crores) from each side for providing grants for seed capital for innovative clean energy projects. The PACE Setter Funds has been formally launched on 19th August, 2015 in New Delhi

RENEWABLE ENERGY FOR URBAN, INDUSTRIAL AND COMMERCIAL APPLICATIONS

A cumulative capacity of 601.87 MW has so far been commissioned mainly in the states of Tamil Nadu, Uttar Pradesh, Haryana, Karnataka, Andhra Pradesh, Uttarakhand, Punjab and Rajasthan.

CEA have notified norms for determination of Generic Tariff for MSW, RDF and Biogas based WTE projects along with Generic Tariff for FY 2015-16. As a part of new initiative of supporting Bio-CNG production, two MNRE supported projects for cumulative production of 9,538kg/day of Bio-CNG, got commissioned during the financial year FY 2015-16, in Ahmedabad, Gujarat and Delawas, Jaipur.

RESEARCH AND DEVELOPMENT

The Research and Development efforts of the Ministry are directed towards technology development and demonstration, leading to commercialization, apart from strengthening the capacity of R&D/Academic Institutions and Industry for taking up advanced research for technology development. The ultimate goal is to reduce the cost and improve efficiency in the near future. The prominent projects taken up include advanced research and demonstration of higher efficiency solar cells, solar thermal power generation, hydrogen energy storage and fuel cells development, development and deployment of improved biomass cook stoves, etc. Research & development activities have been taken up with national laboratories, universities, scientific & educational institutions & industry for improvements in the renewable energy systems and products. The focus is on improved efficiency, cost reduction and technology transfer and demonstration for their commercialization. A National Laboratory Policy for Renewable Energy Sector is under preparation.

INTERNATIONAL ALLIANCE (ISA)

SOLAR

Solar energy technologies have made significant progress and are now considered as a viable option for meeting energy needs in a sustainable manner. Countries lying fully or partially between Tropic of Cancer and Tropic of Capricorn are endowed with excellent solar irradiance and have more than 300 sunny days in a year. There is abundant sunlight available year-round which can lead to cost effective utilisation of solar energy for

electricity and other end uses. There is a gap at present in the application of solar technologies primarily due to lack of systematic information about the on-ground requirements as well as scarce opportunities for technology development, capacity building and training of users of technologies and finally, a shortage of suitable financing arrangements to make new technologies affordable. A desire to ensure universal energy access, energy equity and affordability are issues common to the developing countries falling within the region.

At present there is no international body focussing on or addressing the specific needs of the 121 solar resource rich countries lying fully or partially between Tropic of Cancer and Tropic of Capricorn. These include some developed countries namely, Australia, New Zealand, France, Japan, the Netherlands, the United Kingdom and the United States of America. Whereas Australia partially falls within the Tropic of Cancer and Tropic of Capricorn, other developed countries have islands in the identified region (**List of countries at Box 1**).

Hon'ble Prime Minister of India in a meeting held on 20 June 2014, suggested that India take steps for working together with Group of Nations with high solar insolation/potential for mutual cooperation in areas of solar energy policy, research and development (R&D) and applications in emerging solar R&D areas. The mandate was given to the Ministry of New and Renewable Energy (MNRE) to work for establishing the same in collaboration and consultation with the Ministry of External Affairs (MEA).

In view of the above background, International Solar Alliance (ISA) was envisioned as a specialized platform to contribute towards the common goal of increasing utilization and promotion of solar

energy and solar applications in its member countries. MNRE in close collaboration with MEA initiated efforts to establish ISA. In this process wide range of consultations were held with the prospective member countries. On 14 May 2015 Hon'ble Minister, Power, Coal and New and Renewable Energy green flagged the location of ISA at the National Institute of Solar Energy, Gwalpahari, Gurgaon. On 30 July 2015 and 5 November 2015 Hon'ble Minister, Power, Coal and New & Renewable Energy addressed Ambassadors/ High Commissioners/ Heads of Mission of eligible ISA member countries in MEA where a non-paper on ISA detailing its aims, objective and programme of activities

was presented. In order to apprise the prospective members, presentation on ISA was made in the 2nd Summit of the Forum for India-Pacific Islands Countries on 20 August 2015. Hon'ble Prime Minister of India invited African countries to support and join ISA in the third India-Africa Summit during 28-30 October 2015. On 4 November 2015, Secretary, MNRE chaired a meeting of bilateral and multilateral agencies and apprised them about the ISA. These agencies expressed support to the ISA initiative and the general view was that the ISA structure should be flexible to accommodate multi-faceted programmes and activities to accelerate solar energy development and deployment process in member countries.

INFORMATION AND PUBLIC AWARENESS

The Ministry continued its programme of Information and Public Awareness through a multi-agency approach namely, State Nodal Agencies, Directorate of Advertising & Visual Publicity, Doordarshan, All India Radio, Department of Posts, etc., using the electronic, print and outdoor media. The Ministry also had a Tableau presented during the Republic Day Parade on 26th January 2016. A new 52 episode TV programme has been launched from 21st February 2015 on DD National channel

OUR BUSINESS

Some of the information contained in the following discussion, including information with respect to our business plans and strategies, contain forward-looking statements that involve risks and uncertainties. You should read the chapter titled —Forward-Looking Statements beginning on page 15 of this Draft Prospectus, for a discussion of the risks and uncertainties related to those statements and also the section —Risk Factors for a discussion of certain factors that may affect our business, financial condition or results of operations. Our actual results may differ materially from those expressed in or implied by these forward-looking statements. Our fiscal year ends on March 31 of each year, so all references to a particular fiscal are to the twelve-month period ended March 31 of that year. The financial information used in this section, unless otherwise stated, is derived from our Consolidated Financial Information, prepared in accordance with Indian GAAP and Companies Act and restated in accordance with the SEBI Regulations. The following information is qualified in its entirety by, and should be read together with, the more detailed financial and other information included in this Prospectus, including the information contained in the sections titled — “Risk Factors” and —Financial Information as restated beginning on pages 16 and 137, respectively.

Unless otherwise stated, reference to this section to “TRL”, “the Company”, or “our Company” are to Taylormade Renewables Limited”, and references to “we”, “our” or “us” are to the Company.

Overview

We are an ISO 9001-2008 registered Company which is a newly organized, closely managed energy company that intends to provide solutions to the customers for their various thermal energy needs at a reasonable cost. It is promoted by First Generation Entrepreneurs Dharamendra Gor, Neera Gor and Jayesh Shah, who are affianced in Solar Thermal technology. We believe solar energy projects generally offer more predictable power generations characteristics, due to the relative predictability of sunlight over the course of time compared to other renewable energy classes and therefore we expect they will provide more stable income streams. Solar energy projects provide maximum energy production during the middle of the day and in the summer months when days are longer and nights shorter. Generally, the demand for power tends to be higher at those times due to the use of air conditioning and as a result energy prices tend to be higher. In addition, solar projects are eligible to receive significant government incentives at both the Central and State levels which can be applied to offset project development costs or supplement the price at which power generated by these projects can be sold. Solar energy projects also tend to have minimal environmental impact enabling such projects to be developed close to areas of dense population where electricity demand is highest.

Our Company was incorporated in the year 2010 and subsequently started its commercial production from GIDC, Pardi, Valsad . Later in the year 2017 we shifted our manufacturing unit from Valsad to our present location at Ahmedabad which is spread over to approximately 44,000 sq.feet. We are primarily engaged in manufacturing of Solar Parabolic Concentrating Systems for steam generation for steam cooking or other industrial application, direct or in-direct heating of water or any other media for industrial requirement, solar air-conditioning, and space heating, solar sludge drying, solar waste water evaporation and many more applications requiring thermal energy. We also manufacture and market Solar Dish Cooker, Solar Box Cooker, Solar Dryer, Biomass cook stoves and Gasifier, Biomass Cook stoves, solar dryers, solar box cookers and solar dish cookers. In our limited operating history of approx 7 years we have been bestowed upon with several awards, recognition and appreciation towards our work in Renewable energy field. Consecutively for 3 years we received awards like, in 2014 Govt. of India, Ministry of New and Renewable Energy has awarded Taylormade Solar Solutions as the Most Active Channel Partner in the county for Concentrated Solar Thermal Technologies, Presented by Piyush Goyal, Honorable Minister of Power, Coal & NRE, in 2015 we received award for Influential Solar Energy Leaders by solar energy global

conference award, in 2016 we received award for most active channel partner in India by Ministry of New and Renewable Energy, Government of India for our contribution in the field Solar Renewable energy.

Recently we tied up with Linuo Group of China for import of Evacuated Tube Collector (ETC), Compound Parabolic Collector (CPC), Photovoltaic (PV) Cells and Modules. We have also tied-up with Larkfleet Ltd. U.K for manufacturing of Containerized Solar Steam technology for various solar thermal applications. As on the date of this Draft Prospectus, our Company has collaborated with Larkfleet Limited, Cranfield University and Aston University in the UK and Pandit Deendayal Petroleum University (PDPU) in India and all the four Institutions (including TRL) is proposing the development of an innovative and cost-effective solar thermally driven Reverse Osmosis water desalination system to be exploited in India.

We have expanded our business and operations significantly during the past three years since our incorporation. We have linear growth in our financials. In financial year 2017, 2016, 2015 our turnover (net) was Rs. 1819.12, 1210.82, 840.79 and for the period ended December 31, 2017 was Rs. 1897.73 respectively. Our restated profits in the financial year 2017, 2016, 2015 were Rs. 42.24, 6.90 and 3.89 respectively and for the period ended December 31, 2017 was Rs. 132.89 respectively.

For information on our Company's incorporation and history and financial details, please refer to chapters titled "History and certain other Corporate matters", and "Financial statement as Restated", "beginning on page 114 and 137 respectively of this Draft Prospectus.

OUR COMPETITIVE STRENGTHS

- ***Experience of our Promoters and management personnel***

We believe in offering customized solution and are focused in delivering what we promise to our customers through our dedicated team of competent personnel having knowledge of core aspects of our Business. We have an experienced, dedicated and skilled workforce with wide experience in their respective fields. Our Promoters have years of experience in Solar Thermal Application Systems, Renewable Energy and various other activities. We believe that the experience of our management team and its in-depth knowledge of business will enable us to continue to take advantage of both current and future market opportunities.

- ***Timely completion of projects***

Timely completion of the project as per the schedule and terms of the contract is of utmost importance for us. It is very critical for the growth of the organization. We have a good track record for timely completion of projects with minimum cost overruns. Timely completion of projects also helps the organization in reducing the possibilities of any penalty or liquidated damage being imposed upon by the clients. Execution of the projects in time also helps the company in maintaining good reputation among the clients and gaining repeated orders.

- ***Quality Assurance***

Our Company adheres strictly on supplying quality products. Each of the Company's products passes through quality checks. The quality assurance measures taken by the Company include checking of all raw materials and production process and intensive care is taken to determine the standard of each and every product dispatched. All the products manufactured by us are as per Ministry of New and Renewable Energy (MNRE) specifications and are tested and certified by Regional Research Test Laboratories of India those who are accredited by MNRE.

- ***Strategic Relationships and Access to Deal Flow***

Our Promoters, Dharmendra Gor and Jayesh Shah have extensive experience in the renewable energy markets and as a result have an extensive network of contacts in these sectors, including long-standing relationships with project developers, and commercial banks, individual and institutional investors, consultants, contractors, renewable energy technology manufacturers, such as panel manufacturers, solar insurance specialists, component manufacturers, software providers and other industry participants. We believe the breadth and depth of our promoter's relationships will generate a continual source of attractive investment opportunities for us. Furthermore, we believe that Promoters ability to source quality investment opportunities will enhance our ability to utilize our growth capital in an efficient timeframe.

- ***Established client relationship***

Customer satisfaction is the prime focus of our organization and we serve our level best to give them opportunity services. We are able to provide all kinds of solution for our customer due to in house team of professional expert in various fields. We believe that our existing relationship with our clients represents a competitive advantage in gaining new clients and growing our business.

OUR BUSINESS STRATEGY

We envisage long term growth by supplying qualitative products and efficient services and building long term relations with our customers. In line with this vision, our Company is implementing a business strategy with the following key components. Our strategy will be to focus on capitalizing on our core strengths and expanding the operations of our business. We intend to focus on our existing range of products and services with specific emphasis on the following factors as business and growth strategy:

- ***Training and Motivation of the staff***

Training is an investment employers make in their work force. We focus on training and motivation of our staff on continuous basis. We educate our staff about product and market knowledge. Our Company gives opportunity to employees to continue to grow and develop through such trainings. Our management and employees exchange their ideas, views and opinions and for maintaining good competitive work atmosphere at all levels.

- ***Improve and increase operational efficiencies***

We will continue to focus on further increasing our operations and improving operational effectiveness at our production facilities. Higher operational effectiveness results in greater production volumes and higher sales, and therefore allows us to spread fixed costs over a higher number of units sold, thereby increasing profit margins. We will also continue to identify various strategic initiatives to improve our operational efficiencies and reduce operating costs. We continue to focus on investing in automation, modern technology and equipment to continually upgrade our products including the quality of our products to address changing customer preferences as well as to improve operational efficiency.

- ***Enhancing client relationships***

We plan to grow our business primarily by growing the number of client relationships, as we believe that increased client relationships will add stability to our business. We seek to build on existing relationships and also focus on bringing into our portfolio more clients. Our Company believes that business is a by-product of relationship. Our Company believes that a long-term client relationship with large clients fetches better dividends. Long-term relations are built on trust and continuous meeting with the requirements of the customers

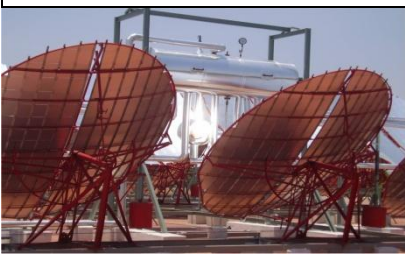

- ***Increase geographical presence***

We are currently located in Ahmedabad. Going forward, we plan to establish our presence in the other geographical areas including overseas market. Our emphasis is on expanding the scale of our operations as well as growing our supply chain network, which we believe will provide attractive opportunities to grow our client base and revenues.

SPECTRUM OF OUR PRODUCTS

At TSSPL, we offer various products & applications:-

Product	Name of the Product	Description
	Dish Cooker	Dish cooker is used for faster outdoor cooking for about 5 - 50 persons with solar energy. It concentrates sunlight to a single point. When this point is focused on the bottom of a pot, it can heat the pot quickly to very high temperatures which can often be comparable with the temperatures achieved in gas and charcoal grills. / Rural families who use traditional mud stoves (dirty stove) and uses firewood, cow-dung and crop residue etc. Residential schools mid-day meal program, defense teams deployed in remote and urban areas, small canteen facilities to employees, and many more catering up to 50 persons daily.
	Box Cooker	A Box Cooker is a device that uses sunlight for energy. They use no fuel and cost nothing to run. They also help slow deforestation and desertification. Another benefit of solar cooking is that unlike cooking with fire, Solar cookers don't pollute the air. Solar cookers are also sometimes used for cooking outside, especially when using fire is risky or there is no fuel.
	Surya Biomass Cook Stove	Surya Cookstoves are the best in class Cookstoves with maximum efficiency and sturdy structures. Surya Cookstoves work on the principal of gasification and this process greatly improves the efficiency of the Cookstoves. In this process we attain complete combustion of the fuel.
	Solar Dryers	The solar drying system utilizes solar energy to heat up air and to dry any food substance or other product loaded, which is beneficial in reducing wastage of agricultural product or any other product and helps in preservation of the product. Based on the limitations of the natural sun drying e.g. exposure to direct sunlight, liability to pests and rodents lack of proper monitoring, and the escalated cost of the

Product	Name of the Product	Description
		mechanical dryer, a solar dryer is therefore developed to cater for this limitation.
	Solar Direct Cooking System	Solar Direct Cooking System Enables you to cook in the comfort of the Kitchen. One dish can cook for approx. 50 to 100 persons per day.
	Solar Thermic Fluid Cooking System	Solar Thermic Fluid Cooking System is the World's First Solar Hybrid Cooking System for all cooking needs. The Thermic fluid heated in the receivers due to solar energy goes to Hot oil storage tank. The system is connected with Thermic Fluid Storage tanks and Hot oil pipelines that in turn are inter-connected with the boiler and cooking vessels for all your cooking needs.
	Solar Waste Water Evaporator System	The Waste water will be pumped on a Metal Open tray (painted with absorber paint) through a simple pump and from there it will be falling on the Receiver by gravity. The receivers will be heated by concentrating solar energy. The temperatures on the Receivers will be more than 1,000° C. The falling water on the receivers will start evaporating and the rest of the water which is not evaporated will be heated up. The heated water will fall again in the nearby Solar Pond through a sprinkler system and the cycle will be repeated continuously.
	Solar Hot Water Application	In Thermo Siphoning Technology the water is fed through feed water line to the receiver which comes from the storage tank and the outlet of the receiver sends the water back to the storage tank (small systems). In Pressurized Hot Water applications the water is pumped by pressure so the phase change does not occur due to high temperatures.

COLLABORATIONS

As on date of this Draft Prospectus, our Company has not entered into any collaboration agreements.

UTILITIES & INFRASTRUCTURE FACILITIES

Infrastructure Facilities

Our Registered Office and Manufacturing Unit is located in Gujarat, Ahmedabad and is well equipped with computer systems, internet connectivity, other communication equipment, security and other facilities, which are required for our business operations to function smoothly. It is equipped with requisite utilities and modern facilities including the following:

Water

Water is required only for drinking and sanitary purposes and adequate water sources are available at the existing premises.

Power

Our company does not require much power except the normal requirement in the office premise for lighting, systems etc. Adequate power is available from Uttar Gujarat Vij Company Limited

Logistics

We deliver products to our customers through third party transport service providers.

EXPORT AND EXPORT OBLIGATIONS

As on date of this draft prospectus our Company does not have any export and export obligation.

RAW MATERIAL

Raw Material used in manufacture of our products are Solar Grade Mirrors, MS Structures, Cables, Structures, S.S Vessels, Electrical Switchgears, Tanks, Stands, Tube, Collectors/Glass Collectors, MS. Channel, Angles etc. and Energy Storage Equipment's.

HUMAN RESOURCE

We believe that our employees are key contributors to our business success. We focus on attracting and retaining the best possible talent. Our Company looks for specific skill-sets, interests and background that would be an asset for our business. As on the date of this Draft Prospectus, our manufacturing facility has 54 employees who look after our business operations, production and factory management. Apart from these employees, we also employ casual labour or temporary labour on need basis. Our manpower is a prudent mix of the experienced and youth which gives us the dual advantage of stability and growth. Our work processes and skilled/ semi-skilled/ unskilled resources together with our strong management team have enabled us to successfully implement our growth plans. Our Company is committed towards creating an organization that nurtures talent. We provide our employees an open atmosphere with a continuous learning platform that recognizes meritorious performance. We believe that our employees are key contributors to our business success. We focus on attracting and retaining the best possible talent. Our Company employs both skilled and semi skilled workers.

MARKETING STRATEGY

Our company has always focused on meeting the requirement of our clients in the most efficient way by offering them quality products, reasonable price, just in time delivery. We support our marketing efforts by maintaining regular contacts and meetings. We also participate in exhibition and fairs being conducted at various locations. Our success lies in the strength of our relationship with our customers who have been associated with our Company. Our principle markets in India include the state of Chattisgarh, Himachal Pradesh, Gujarat, Uttarakhand, Uttar Pradesh.

COMPETITION

We believe that the principal factors affecting future competition in our business may include customer relationships, reputation, and the abilities of employees, market focus and the relative quality and price of the products. We strive to reduce our cost of production and improve our product offerings, our advertising communications and our operating efficiencies, to remain competitive for future. Many of our competitors have substantially large capital base and resources than we do and offer broader range products. We strive to reduce our cost of production and improve our product offerings, our advertising communications and our operating efficiencies, to remain competitive.

END USERS

Our end users are industries which require heat for process applications, Educational Institutions, Households.

OUR PROPERTIES

The following table sets forth the location and other details of the leasehold properties of our Company:

- Land and Properties owned by the Company.

For details of the trademarks registered in the name of our Company and the application made for registration, please refer "Government and Other Approvals" on page 155 of this Draft Prospectus.

INSURANCE

Our insurance policies are subject to customary exclusions and deductibles. We believe that our insurance coverage is adequate for our business needs and operations. We will continue to review our policies to ensure adequate insurance coverage maintained. We maintain insurance policies in respect of our operations. These policies insure our assets against standard fire and special peril, earthquake, etc.

KEY INDUSTRY REGULATIONS AND POLICIES

Environmental Legislations

The Environment (Protection) Act, 1986 as amended, (“Environment Protection Act”), the Water (Prevention and Control of Pollution) Act, 1974, as amended, (“Water Act”) and the Air (Prevention and Control of Pollution) Act, 1981, (“Air Act”) provide for the prevention, control and abatement of pollution. Pollution control boards have been constituted in all states in India to exercise the powers and perform the functions provided for under these statutes for the purpose of preventing and controlling pollution. Companies are required to obtain consents of the relevant state pollution control boards for emissions and discharge of effluents into the environment. The Hazardous Wastes (Management, Handling and Transboundary Movement) Rules, 2008 as amended, (“Hazardous Wastes Rules”) impose an obligation on every occupier of an establishment generating hazardous waste to recycle or reprocess or reuse such wastes in a registered recycler or to dispose of such hazardous wastes in an authorized disposal facility. Every person engaged, inter alia, in the generation, processing, treatment, package, storage and destruction of hazardous waste is required to obtain an authorization from the relevant state pollution control board for collecting, recycling, reprocessing, disposing, storing and treating the hazardous waste.

The Environmental Impact Assessment Notification dated September 14, 2006 read with notifications dated October 11, 2007, December 1, 2009, April 4, 2011 and January 25, 2012, issued under the Environment Protection Act and the Environment (Protection) Rules, 1986, requires prior environmental clearance of the Ministry of Environment and Forests, GoI and at state level, of the state environment impact assessment authority, if any new project (specified in the notification) is proposed to be undertaken or for expansion and modernization of existing projects beyond certain specified threshold limits. The environment clearance (for commencement of the production operations) is valid for the time period prescribed in the notification.

The Public Liability Insurance Act, 1991 (the “**Public Liability Act**”) imposes liability on the owner or controller of hazardous substances for death or injury to any person (other than a workman) or any damage to property arising out of an accident involving such hazardous substances. A list of hazardous substances covered by the legislation has been enumerated by the Government by way of a notification. The owner or handler is also required to obtain an insurance policy insuring him against liability under the legislation. The Public Liability Insurance Rules, 1991 mandate that the owner has to contribute towards the environment relief fund, a sum equal to the premium paid on the insurance policies. The amount is payable to the insurer.

Industry-Specific Regulations

Gujarat Solar Power Policy in 2015

The state of Gujarat has been a pioneer in solar energy generation and has a solar power programme that predates the National Solar Mission developed by the centre for the country. In August 2015, the Gujarat state government’s Department of Energy and Petrochemicals announced the launch of a new ‘Gujarat Solar Power Policy-2015’. The 2009 solar policy of the state had resulted in creation of solar power generation capacity far beyond the state’s utility (in excess of 1000 MW) by investing about INR 9000 crore. The 2015 policy promised to scale up this solar power generation capacity to over 10,000 MW. The policy announced a number of benefits and incentives for solar power generators (SPGs) that are installed across the country between 2015 and 2020.

The grid-connected rooftop solar power generation project was also proposed by the Gujarat Solar Power Policy in 2015. The state aims at developing a solar energy generation capacity of 40 GW only from rooftop projects by March 2022. If this dream is realised it will be a paradigm shift in the way the state’s resources are utilised and will set an example for regional green initiatives in the country. For the remotest regions of the state, which are yet to be lit up and where grid-based power

connections are not viable, the state government plans to implement schemes to enable basic lighting and power usage using photo-voltaic (PV) systems.

The Electricity Act, 2003

The Government of India has enacted a comprehensive legislation in the form of The Electricity Act, 2003 which attempts to impart renewed thrust to co-ordinated development of the power sector in the country, provides a comprehensive yet flexible legislative framework for power development and envisions a sector characterized by a competitive market in power where the regulators and the power utilities play increasingly significant roles.

The Electricity Act, 2003 lays a clear roadmap for following major transformations in the electricity sector. The main objectives of the Act are:

- Distancing the government from the day-to-day activities of the business of supply of electricity;
- Complete removal of licensing constraints from generation;
- Providing an environment that encourages competition by allowing power trading and open access;
- Encouraging private sector participation;
- Obviating the need to enact separate electricity reform laws in each State;
- Provide enabling provisions for rationalizing tariffs;
- Stipulate adaptations of transparent policies with regards to subsidies by the States;
- With this legislation in place, the stage has been set for various states to implement the reforms in their respective utilities and enhance their attractiveness for private sector investments.

The Gujarat Industry (Reorganisation and Regulation) Act, 2003

The Govt. has enacted the Gujarat Electricity Industry (Reorganisation & Regulation) act in May 2003. The act aimed to provide for reorganisation and rationalisation of electricity industry in the state and for establishing an Electricity Regulatory Commission in the state for regulating the electricity industry and all other in related aspects.

- The salient features of the Act are as under:
- Reorganisation of the Gujarat Electricity Board.
- Empowering state regulator to become nodal agency for regulating the industry in Gujarat, determining tariff, wheeling charges, surcharge etc.
- Defining role of State Government
- Aligning tariffs towards cost of supply.

such person and employer has to obtain the registration from the assessing authority in the prescribed manner.

General Laws

Competition Act, 2002 (“Competition Act”)

The Competition Act, 2002 aims to prevent anti-competitive practices that cause or are likely to cause an appreciable adverse effect on competition in the relevant market in India. The Competition Act regulates anti-competitive agreements, abuse of dominant position and combinations. The Competition Commission of India (“**Competition Commission**”) which became operational from May 20, 2009 has been established under the Competition Act to deal with inquiries relating to anti-competitive agreements and abuse of dominant position and regulate combinations. The Competition Act also provides that the Competition Commission has the jurisdiction to inquire into and pass orders in relation to an anti-competitive agreement, abuse of dominant position or a combination, which even though entered into, arising or taking place outside India or signed between one or more non-Indian parties, but causes an appreciable adverse effect in the relevant market in India.

The Companies Act, 1956

The Companies Act, 1956 deals with laws relating to companies and certain other associations. It was enacted by the parliament in 1956. The Act primarily regulates the formation, financing, functioning and winding up of companies. The Companies Act, 1956 prescribes regulatory mechanism regarding all relevant aspects, including organizational, financial and managerial aspects of companies. It deals with issue, allotment and transfer of securities and various aspects relating to company management. It provides for standard of disclosure in public issues of capital, particularly in the fields of company management and projects, information about other listed companies under the same management, and management perception of risk factors. In the functioning of the corporate sector, although freedom of companies is important, protection of the investors and shareholders, on whose funds they flourish, is equally important. The Companies Act, 1956 plays the balancing role between these two competing factors, namely, management autonomy and investor protection.

The Negotiable Instruments Act, 1881 (“NI Act”)

In India, the laws governing monetary instruments such as cheques are contained in the “**NI Act**”, which is largely a codification of the English Law on the subject. To ensure prompt remedy against defaulters and to ensure credibility of the holders of the negotiable instrument a criminal remedy of penalty was inserted in Negotiable Instruments Act, 1881 in form of the Banking, Public Financial Institutions and Negotiable Instruments Laws (Amendment), 1988 which were further modified by the Negotiable Instruments (Amendment and Miscellaneous Provisions) Act, 2002. The Act provides effective legal provision to restrain people from issuing cheques without having sufficient funds in their account or any stringent provision to punish them in the event of such cheque not being honoured by their bankers and returned unpaid. Section 138 of the Act, creates statutory offence in the matter of dishonour of cheques on the ground of insufficiency of funds in the account maintained by a person with the banker which is punishable with imprisonment for a term which may extend to two year, and with fine which may extend to twice the amount of the cheque, or with both.

The Companies Act, 2013

The Companies Act, 2013, has been introduced to replace the existing Companies Act, 1956 in a phased manner. The Ministry of Corporate Affairs has vide its notification dated September 12, 2013 has notified 98 (Ninety Eight) Sections of the Companies Act, 2013 and the same are applicable from the date of the aforesaid notification. A further 183 (One Eighty Three) Sections have been

notified on March 26, 2014 and have become applicable from April 1, 2014. The Companies (Amendment) Act, 2015 has inter-alia amended various Sections of the Companies Act, 2013 to take effect from May 29, 2015. Further, vide the Companies (Amendment) Act, 2015, Section 11 of the Companies Act, 2013 has been omitted and Section 76A has been inserted in the Companies Act, 2013. The Ministry of Corporate Affairs, has also issued rules complementary to the Companies Act, 2013 establishing the procedure to be followed by companies in order to comply with the substantive provisions of the Companies Act, 2013.

The Trade Marks Act, 1999

Indian trademark law permits the registration of trademarks for goods and services. The Trade Marks Act, 1999 (“**Trademark Act**”) governs the statutory protection of trademarks and for the prevention of the use of fraudulent marks in India. An application for trademark registration may be made by individual or joint applicants and can be made on the basis of either use or intention to use a trademark in the future. Once granted, trademark registration is valid for ten years, unless cancelled. If not renewed after ten years, the mark lapses and the registration has to be restored. The Trademark (Amendment) Act, 2010 has been enacted by the government to amend the Trademark Act to enable Indian nationals as well as foreign nationals to secure simultaneous protection of trademark in other countries. It also seeks to simplify the law relating to transfer of ownership of trademarks by assignment or transmission and to align the law with international practice.

The Patents Act, 1970

The Patents Act, 1970 (“**Patents Act**”) governs the patent regime in India. Being a signatory to the Agreement on Trade Related Aspects of Intellectual Property Rights, India is required to recognise product patents as well as process patents. In addition to broad requirement that an invention satisfy the requirements of novelty, utility and non-obviousness in order for it to avail patent protection, the Patents Act further provides that patent protection may not be granted to certain specified types of inventions and materials even if they satisfy the above criteria. The Patents Act prohibits any person resident in India from applying for patent for an invention outside India without making an application for the invention in India. The term of a patent granted under the Patents Act is for a period of twenty years from the date of filing of the application for the patent.

The Copyright Act, 1957

The Copyright Act, 1957 (“**Copyright Act**”) governs copyright protection in India. Under the Copyright Act, a copyright may subsist in original literary, dramatic, musical or artistic works, cinematograph films, and sound recordings. While copyright registration is not a prerequisite for acquiring or enforcing a copyright in an otherwise copyrightable work, registration constitutes *prima facie* evidence of the particulars entered therein and may expedite infringement proceedings. Once registered, copyright protection of a work lasts for a period of sixty years from the demise of the author. Reproduction of a copyrighted work for sale or hire, issuing of copies to the public, performance or exhibition in public, making a translation of the work, making an adaptation of the work and making a cinematograph film of the work without consent of the owner of the copyright are all acts which amounts to an infringement of copyright.

Tax Related Legislations

Income Tax Act, 1961

Income Tax Act, 1961 is applicable to every Domestic / Foreign Company whose income is taxable under the provisions of this Act or Rules made under it depending upon its “Residential Status” and “Type of Income” involved. The IT Act provides for taxation of person resident in India on global income and person not resident in India on income received, accruing or arising in India or deemed to have been received, accrued or arising in India. Every Company assessable to income tax under IT

Act is required to comply with the provisions thereof, including those relating to Tax Deduction at Source, Fringe Benefit Tax, Advance Tax, Minimum Alternative Tax and like. Every such Company is also required to file its Return by September 30 of each assessment year.

Goods & Service Tax (“GST”)

Goods and Services Tax (GST) is an indirect tax applicable throughout India which replaced multiple cascading taxes levied by the central and state governments. The GST shall be levied as Dual GST separately but concurrently by the Union (central tax - CGST) and the States (including Union Territories with legislatures) (State tax - SGST) / Union territories without legislatures (Union territory tax- UTGST). The Parliament would have exclusive power to levy GST. (integrated tax - IGST) on inter-State trade or commerce (including imports) in goods or services. It was introduced as The Constitution (One Hundred and First Amendment) Act 2017, following the passage of Constitution 122nd Amendment Bill. The GST is governed by a GST Council and its Chairman is the Finance Minister of India. Under GST, goods and services are taxed at the following rates, 0%, 5%, 12% and 18%. Besides, some goods and services would be under the list of exempt items.

Other Indian laws

In addition to the above, our Company are also governed by the provisions of the Companies Act and rules framed thereunder, relevant central and state tax laws, foreign exchange and investment laws and foreign trade laws and other applicable laws and regulation imposed by the central and state government and other authorities for over day to day business, operations and administration.

HISTORY AND CERTAIN OTHER CORPORATE MATTERS

Corporate profile and Brief History of our Company

Our Company was originally incorporated as “Taylormade Solar Solutions Private Limited” at Ahmedabad, Gujarat on July 28, 2010, as a private limited company under the provisions of the Companies Act, 1956 with the Assistant Registrar of Companies, Gujarat, Dadra and Nagar Haveli, bearing Corporate Identification Number U29307GJ2010PTC061759. Subsequently, name of our Company was changed from “Taylormade Solar Solutions Private Limited” to “Taylormade Renewables Private Limited” pursuant to Shareholders resolution passed at the Extra-ordinary General Meeting of our Company held on November 23, 2017 and a fresh Certificate of Incorporation was issued by Assistant Registrar of Companies, Gujarat, Dadra and Nagar Haveli dated December 12, 2017. Consequently, our Company was converted to public limited Company pursuant to shareholders resolution passed at the Extra Ordinary General Meeting held on December 13, 2017 and the name of our Company was changed to “Taylormade Renewables Limited”. A fresh certificate of incorporation consequent upon conversion to public limited Company was issued by the Deputy Registrar of Companies, Gujarat, Ahmedabad, on December 21, 2017 bearing Corporate Identification Number U29307GJ2010PLC061759.

The Promoters of our Company are Dharmendra Gor, Neera Gor, Jayesh Shah who were also the initial subscribers to the Memorandum of Association of our Company.

We are an ISO 9001-2008 registered Company which is a newly organized, closely managed energy company that intends to provide solutions to the customers for their various thermal energy needs at a reasonable cost. It is promoted by First Generation Entrepreneurs Dharamendra Gor, Neera Gor and Jayesh Shah, who are affianced in Solar Thermal technology. We believe solar energy projects generally offer more predictable power generations characteristics, due to the relative predictability of sunlight over the course of time compared to other renewable energy classes and therefore we expect they will provide more stable income streams. Solar energy projects provide maximum energy production during the middle of the day and in the summer months when days are longer and nights shorter. Generally, the demand for power tends to be higher at those times due to the use of air conditioning and as a result energy prices tend to be higher. In addition, solar projects are eligible to receive significant government incentives at both the Central and State levels which can be applied to offset project development costs or supplement the price at which power generated by these projects can be sold. Solar energy projects also tend to have minimal environmental impact enabling such projects to be developed close to areas of dense population where electricity demand is highest.

DIVIDEND POLICY

Under the Companies Act, 2013, an Indian company pays dividends upon a recommendation by its Board of Directors and approval by a majority of the shareholders. Under the Companies Act, 2013 dividends may be paid out of profits of a company in the year in which the dividend is declared or out of the undistributed profits or reserves of the previous years or out of both.

Our Company does not have a formal dividend policy. Any dividends to be declared shall be recommended by the Board of Directors depending upon the financial condition, results of operations, capital requirements and surplus, contractual obligations and restrictions, the terms of the credit facilities and other financing arrangements of our Company at the time a dividend is considered, and other relevant factors and approved by the Equity Shareholders at their discretion. Our Company has not paid any dividend for the last three years.

Dividends are payable within 30 days of approval by the Equity Shareholders at the annual general meeting of our Company. When dividends are declared, all the Equity Shareholders whose names appear in the register of members of our Company as on the “record date” are entitled to be paid the dividend declared by our Company. Any Equity Shareholder who ceases to be an Equity Shareholder prior to the record date, or who becomes an Equity Shareholder after the record date, will not be entitled to the dividend declared by our Company.

ANNEXURE-IV

SIGNIFICANT ACCOUNTING POLICY AND NOTES TO THE RESTATED SUMMARY STATEMENTS

A. BACKGROUND

Our Company was originally incorporated as “Taylormade Solar Solutions Private Limited” at Ahmedabad, Gujarat on July 28, 2010, as a private limited company under the provisions of the Companies Act, 1956 with the Assistant Registrar of Companies, Gujarat, Dadra and Nagar Havelli, bearing Corporate Identification Number U29307GJ2010PTC061759. Subsequently, name of our Company was changed from “Taylormade Solar Solutions Private Limited” to “Taylormade Renewables Private Limited” pursuant to Shareholders resolution passed at the Extra-ordinary General Meeting of our Company held on November 23, 2017 and a fresh Certificate of Incorporation was issued by Assistant Registrar of Companies, Gujarat, Dadra and Nagar Havelli dated December 12, 2017. Consequently, our Company was converted to public limited Company pursuant to shareholders resolution passed at the Extra Ordinary General Meeting held on December 13, 2017 and the name of our Company was changed to “Taylormade Renewables Limited”. A fresh certificate of incorporation consequent upon conversion to public limited Company was issued by the Deputy Registrar of Companies, Gujarat, Ahmedabad, on December 21, 2017 bearing Corporate Identification Number U29307GJ2010PLC061759.

B. STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES

1. BASIS OF PREPARATION OF FINANCIAL STATEMENTS

The Restated Summary Statement of Assets and Liabilities of the Company as on December 31, 2017, March 31, 2017, March 31, 2016, March 31, 2015, March 31, 2014 and March 31, 2013 and the Restated Summary Statement of Profit and Loss and Restated Summary Statements of Cash Flows for the stub period ended on December 31, 2017 and financial year ended on March 31, 2017, March 31, 2016, March 31, 2015, March 31, 2014 and March 31 2013 and the annexure thereto (collectively, the “**Restated Financial Statements**” or “**Restated Summary Statements**”) have been extracted by the management from the Financial Statements of the Company for the stub period ended on December 31, 2017 and financial year ended on March 31, 2017, March 31, 2016, March 31, 2015, March 31, 2014 and March 31 2013.

The financial statements are prepared and presented under the historical cost convention and evaluated on a going-concern basis using the accrual system of accounting in accordance with the accounting principles generally accepted in India (Indian GAAP) and the requirements of the Companies Act, 1956 (up to March 31, 2014), and notified sections, schedules and rules of the Companies Act 2013 (with effect from April 01, 2014), including the Accounting Standards as prescribed by the Companies (Accounting Standards) Rules, 2006 as per section 211(3C) of the Companies Act, 1956 (which are deemed to be applicable as Section 133 of the Companies Act, 2013 (“the Act”) read with Rule 7 of Companies (Accounts) Rules, 2014).

2. USE OF ESTIMATES

The preparation of financial statements in conformity with Generally Accepted Accounting Principles (GAAP) requires the management of the Company to make estimates and assumptions that affect the reported balances of assets and liabilities and disclosures relating to the contingent liabilities, if any, as at the date of the financial statements and reported amounts of income and expenses during the year. Examples of such estimates include provisions for doubtful debts, employee retirement benefit plans, provision for income tax and the useful lives of fixed assets. The difference between the actual results and estimates are recognized in the period in which results are known or materialized.

3. FIXED ASSETS

Fixed assets are stated at historical cost/revalued value (as valued by registered valuer) less accumulated depreciation and impairment losses, if any. Cost includes purchase price and all other attributable cost to bring the assets to its working condition for the intended use.

Subsequent expenditures related to an item of tangible asset are added to its book value only if they increase the future benefits from the existing asset beyond its previously assessed standard of performance.

Projects under which assets are not ready for their intended use are shown as Capital Work-in-Progress. Cost includes cost of land, materials, construction, services, borrowing costs and other overheads relating to projects.

Intangible assets are stated at acquisition cost, Net of accumulated amortization and accumulated impairment losses, if any. Intangible assets are amortized on a straight line basis over their estimated useful lives.

Gains or losses arising from the retirement or disposal proceeds and the carrying amount of the asset and recognized as income or expense in the Statement of Profit & Loss.

4. DEPRECIATION

Tangible Fixed Assets

In accordance with AS-6 “Depreciation”, depreciation on tangible fixed assets is computed on considering useful life provided in the Schedule - II of the Act. During the preceding years, the Company was providing depreciation on Written down Value Basis at the rate prescribed in Schedule XIV of the Companies Act, 1956.

Pursuant to Companies Act, 2013 (‘the Act’) being effective from April 1, 2014, the Company has revised depreciation rates on tangible fixed assets as per useful life specified in Part ‘C’ of Schedule II of the Act. And due to the same there has been a change in the estimated useful life of depreciable tangible assets which affects the depreciation in the current period and in each period during the remaining useful life of the assets. As the change is only in regard to accounting estimate requiring an adjustment of the carrying amount of tangible assets. The same do not require adjustment in the financial information for the years ended on March 31, 2014, 2013, and 2012. The Company has consistently calculated depreciation based on Written down Value basis.

5. BORROWING COSTS

Borrowing cost includes interest and amortization of ancillary costs incurred in connection with the arrangement of borrowings. Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the respective asset. All other borrowing costs are expensed in the period they occur.

6. IMPAIRMENT OF ASSETS

- (i) The company assesses, at each reporting date whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the company estimates the asset’s recoverable amount. An asset’s (including goodwill) recoverable amount is the higher of an assets net selling price and its value in use. The recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. Where the carrying amount of an asset exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. In assessing the value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount

- (ii) rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining net selling price, recent market transactions are taken into account, if available. If no such transactions can be identified, an appropriate valuation model is used.
- (iii) After impairment, depreciation/ amortization is provided on the revised carrying amount of the asset over its remaining useful life.

7. INVESTMENTS

Investments, which are readily realizable and intended to be held for not more than one year from the date on which such investments are made, are classified as current investments. All other investments are classified as long-term investments.

On initial recognition, all investments are measured at cost. The cost comprises purchase price and directly attributable acquisition charges such as brokerage, fees and duties.

Current investments are carried in the financial statements at lower of cost and fair value determined on an individual investment basis. Long-term investments are carried at cost. However, provision for diminution in value is made to recognize a decline other than temporary in the value of the investments.

On disposal of an investment, the difference between its carrying amount and net disposal proceeds is charged or credited to the statement of profit and loss.

8. INVENTORIES

Inventories are valued as under:

- a) Raw Material: At lower of cost or net realizable value
- b) Finished goods: At lower of cost or net realizable value
- c) Stores & spares parts: At cost price

Cost of inventories comprise of all cost of purchase. Cost of conversion and other cost incurred in bringing them to their respective present location and condition.

9. REVENUE RECOGNITION

Revenue in respect of purchases/sale of product and scraps is recognized at the point of receipt/dispatch from parties at/from factory.

Income and expenditures are recognized on accrual basis. However, since it is not possible to ascertain with reasonable accuracy/ the quantum of accrual in respect of discount receivable/payable from/to parties, the same continue to be accounted for as and when received/settled.

10. PRICE CONCESSION FROM GOVERNMENT:

The price concession from Government on sale of single super phosphate & granular single super phosphate is recognized at the point of sale at the prevailing rates announced by the Government of India. Any shortfall in actual receipt or deduction made by the Government is written off as an expense in the year in which the same is determined. The Company treats the price concession as part of the sale proceeds.

11. FOREIGN CURRENCY TRANSACTIONS

Transaction denominated in foreign currencies are normally recorded at the exchange rate prevailing at the time of the transaction and any income or expenses on account of exchange difference either on settlement or on translation is recognized in the Statement of profit and Loss except in case where they relate to acquisition of fixed assets, are adjusted with the carrying cost of such assets.

12. EMPLOYEE BENEFITS

Defined-contribution plans:

(i) There are no defined contribution plan for post-employment benefit plan under which the company pays specified contributions to a separate entity. The Company does not makes specified monthly contributions towards Provident Fund.

(ii) The company has no policy of encashment and accumulation of Leave. Therefore, no provision of Leave Encashment is being made.

(iii) Short Term Employee Benefits like leave benefit, if any, are paid along with salary and wages on a month to month basis, bonus to employees are charged to profit and loss account on the basis of actual payment on year to year basis.

13. ACCOUNTING FOR TAXES ON INCOME

Tax expense comprises of current and deferred tax. Current income tax is measured at the amount expected to be paid to the tax authorities in accordance with the Income-tax Act, 1961 enacted in India. The tax rates and tax laws used to compute the amount that are enacted or substantively enacted, at the reporting date.

(i) Deferred income taxes reflect the impact of timing differences between taxable income and accounting income originating during the current year and reversal of timing differences for the earlier years. Deferred tax is measured using the tax rates and the tax laws enacted or substantively enacted at the reporting date.

(ii) Deferred tax liabilities are recognized for all taxable timing differences. Deferred tax assets are recognized for deductible timing differences only to the extent that there is reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realized. In situations where the Company has unabsorbed depreciation or carry forward tax losses, all deferred tax assets are recognized only if there is virtual certainty supported by convincing evidence that they can be realized against future taxable profits.

(iii) The carrying amount of deferred tax assets are reviewed at each reporting date. The company writes-down the carrying amount of a deferred tax asset to the extent that it is no longer reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available against which deferred tax asset can be realized. Any such write-down is reversed to the extent that it becomes reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available.

14. CONTINGENT LIABILITIES AND PROVISIONS

Provisions are recognized only when there is a present obligation as a result of past events and when a reliable estimate of the amount of obligation can be made.

Contingent Liability is disclosed for

- a) Possible obligation which will be confirmed only by future events not wholly within the control of the Company or
- b) Present obligations arising from the past events where it is not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount of the obligation cannot be made.
- c) Contingent Assets are not recognized in the financial statements since this may result in the recognition of income that may never be realized.

A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. Where there is a possible obligation or a present obligation that the likelihood of outflow of resources is remote, no provision or disclosure is made.

15. EARNINGS PER SHARE:

In determining the Earnings Per share, the company considers the net profit after tax which does not include any post tax effect of any extraordinary / exceptional item. The number of shares used in computing basic earnings per share is the weighted average number of shares outstanding during the period.

The number of shares used in computing Diluted earnings per share comprises the weighted average number of shares considered for computing Basic Earnings per share and also the weighted number of equity shares that would have been issued on conversion of all potentially dilutive shares.

In the event of issue of bonus shares, or share split the number of equity shares outstanding is increased without an increase in the resources. The number of Equity shares outstanding before the event is adjusted for the proportionate change in the number of equity shares outstanding as if the event had occurred at the beginning of the earliest period reported.

16. CASH FLOW:

Cash flows are reported using the indirect method, whereby profit before tax is adjusted for the effects of transactions of non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. Cash flows from operating, investing and financing activities of the Company are segregated, accordingly.

17. SEGMENT REPORTING:

(i) Business Segment

- (a) The business segment has been considered as the primary segment.
- (b) The Company's primary business segments are reflected based on principal business activities, the nature of service, the differing risks and returns, the organization structure and the internal financial reporting system.

(ii) Geographical Segment

The Company operates in one Geographical Segment namely "within India" and hence no separate information for geographic segment wise disclosure is required.

Profits after Tax as per Restated Accounts	129.50	41.98	8.11	3.87	2.62	0.98

a) Adjustment on account of provision for Gratuity:

The Company has not been following the provisions of Accounting Standard – 15 “Employee Benefits” issued by the Institute of Chartered Accountants of India for provision for Gratuity and accordingly, the provision of gratuity has not been accounted for by the management in books of account.

b) Accounting of Depreciation (AS -6)

During the process of restatement of Accounts, Company has rectified the Depreciation provision which was wrong on account of arithmetical errors and wrong rate of depreciation adopted, wrong accounting of revaluation reserve and non Compliance with the requirement of schedule II of the Companies Act, 2013 w.e.f. 1.4.2014 onwards. The same has been rectified and accordingly effect thereof has been stated in Table 1 (Statement of Profit and Loss after Tax).

c) Adjustment on account of Provision of Deferred Tax:

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATION

The following discussion of our financial condition and results of operations should be read in conjunction with our restated financial statements for the period ended December 31, 2017 and for the financial years ended March 31, 2017, 2016 and 2015 prepared in accordance with the Companies Act and Indian GAAP and restated in accordance with the SEBI (ICDR) Regulations, including the schedules, annexure and notes thereto and the reports thereon, included in the section titled "*Financial Statements*" on page 137 of this Draft Prospectus.

Indian GAAP differs in certain material aspects from U.S. GAAP and IFRS. We have not attempted to quantify the impact of IFRS or U.S. GAAP on the financial data included in this Prospectus, nor do we provide reconciliation of our financial statements to those under U.S. GAAP or IFRS. Accordingly, the degree to which the Indian GAAP financial statements included in this Prospectus will provide meaningful information is entirely dependent on the reader's level of familiarity with the Companies Act, Indian GAAP and SEBI (ICDR) Regulations.

This discussion contains forward-looking statements and reflects our current views with respect to future events and financial performance. Actual results may differ materially from those anticipated in these forward-looking statements as a result of certain factors such as those set forth in "*Risk Factors*" and "*Forward-Looking Statements*" on pages 16 and 15 respectively, of this Draft Prospectus beginning respectively.

The Management's Discussion and Analysis of Financial Condition and Results of Operations, reflects the analysis and discussion of our financial condition and results of operations for the for the period ended December 31, 2017 and for the financial years ended March 31, 2017, 2016 and 2015

OVERVIEW

Our Company was originally incorporated in the name and style of "Taylormade Solar Solutions Private Limited" at Ahmedabad, Gujarat on July 28, 2010, as a private limited company under the provisions of the Companies Act, 1956 with the Registrar of Companies, Gujarat, Dadra and Nagar Haveli, bearing Corporate Identification Number U29307GJ2010PTC061759. Subsequently our Company was converted to public limited Company pursuant to shareholders resolution passed at the Extra-ordinary General Meeting held on November 23, 2017 and the name of our Company was changed to "Taylormade Renewables Limited". A fresh certificate of incorporation consequent upon conversion to public limited Company was issued by the Registrar of Companies, Gujarat, Ahmedabad, on December 21, 2017 bearing Corporate Identification Number U29307GJ2010PLC061759.

We are an ISO 9001-2008 registered Company which is a newly organized, closely managed energy company that intends to provide solutions to the customers for their various thermal energy needs at a reasonable cost. It is promoted by First Generation Entrepreneurs Dharamendra Gor, Neera Gor and Jayesh Shah, who are affianced in Solar Thermal technology. We believe solar energy projects generally offer more predictable power generations characteristics, due to the relative predictability of sunlight over the course of time compared to other renewable energy classes and therefore we expect they will provide more stable income streams. Solar energy projects provide maximum energy production during the middle of the day and in the summer months when days are longer and nights shorter. Generally, the demand for power tends to be higher at those times due to the use of air conditioning and as a result energy prices tend to be higher. In addition, solar projects are eligible to receive significant government incentives at both the Central and State levels which can be applied to offset project development costs or supplement the price at which power generated by these projects can be sold. Solar energy projects also tend to have minimal environmental impact enabling such projects to be developed close to areas of dense population where electricity demand is highest.

The Promoters of our Company are Dharmendra Gor, Neera Gor and Jayesh Shah who were also initial subscribers to the Memorandum of Association of our Company.

For information on our Company's profile, activities, market, products, etc., market of each segment, capacity built-up, exports and profits due to foreign operations together with country wise analysis, standing of our Company in comparison with prominent competitors, with reference to its products, management, managerial competence, technology, market, major suppliers and customers, environmental issues, geographical segment, etc. wherever applicable, please refer to chapters titled "*Our Business*", "*Financial Statements as Restated*", "*Management's Discussion and Analysis of Financial Condition and Results of Operation*", "*Government and Other Statutory Approvals*" beginning on page 95, 137, 138 and 155 respectively.

SIGNIFICANT DEVELOPMENTS SUBSEQUENT TO THE LAST FINANCIAL PERIOD

Fresh nomination can be made only on the prescribed form available on request at our Registered Office or with the registrar and transfer agents of our Company.

Any person who becomes a nominee by virtue of the provisions of Section 72 of the Companies Act, 2013 shall upon the production of such evidence as may be required by the Board, elect either:

- a. to register himself or herself as the holder of the Equity Shares; or
- b. to make such transfer of the Equity Shares, as the deceased holder could have made.

Further, the Board may at any time give notice requiring any nominee to choose either to be registered himself or herself or to transfer the Equity Shares, and if the notice is not complied with within a period of ninety days, the Board may thereafter withhold payment of all dividends, bonuses or other moneys payable in respect of the Equity Shares, until the requirements of the notice have been complied with.

Since the Allotment of Equity Shares in the Issue will be made only in dematerialized mode there is no need to make a separate nomination with our Company. Nominations registered with respective depository participant of the applicant would prevail. If the investor wants to change the nomination, they are requested to inform their respective depository participant.

MINIMUM SUBSCRIPTION

This Issue is not restricted to any minimum subscription level. This Issue is 100% underwritten.

As per Section 39 of the Companies Act, 2013, if the “stated minimum amount” has not be subscribed and the sum payable on application is not received within a period of 30 days from the

date of the Prospectus, the application money has to be returned within such period as may be prescribed. If our Company does not receive the 100% subscription of the offer through the Offer Document including devolvement of Underwriters, if any, within sixty (60) days from the date of closure of the issue, our Company shall forthwith refund the entire subscription amount received. If there is a delay beyond eight days after our Company becomes liable to pay the amount, our Company and every officer in default will, on and from the expiry of this period, be jointly and severally liable to repay the money, with interest or other penalty as prescribed under the SEBI Regulations, the Companies Act 2013 and applicable law.

The minimum number of allottees in this Issue shall be 50 shareholders. In case the minimum number of prospective allottees is less than 50, no allotment will be made pursuant to this Issue and the monies blocked by the SCSBs shall be unblocked within 6 working days of closure of issue.

Further, in accordance with Regulation 106(Q) of the SEBI (ICDR) Regulations, our Company shall ensure that the minimum application size in terms of number of specified securities shall not be less than Rs. 1,00,000 (Rupees One Lakh Only) per application.

The Equity Shares have not been and will not be registered, listed or otherwise qualified in any other jurisdiction outside India and may not be offered or sold, and applications may not be made by persons in any such jurisdiction, except in compliance with the applicable laws of such jurisdiction.

MIGRATION TO MAIN BOARD

Our company may migrate to the Main Board of BSE from BSE SME Platform on a later date subject to the following:

- a) If the Paid up Capital of our Company is likely to increase above Rs. 2,500 Lacs by virtue of any further issue of capital by way of rights issue, preferential issue, bonus issue etc. (which has been approved by a special resolution through postal ballot wherein the votes cast by the shareholders other than the Promoter in favour of the proposal amount to at least two times the number of votes cast by shareholders other than promoter shareholders against the proposal and for which the company has obtained in-principal approval from the Main Board), our Company shall apply to BSE for listing of its shares on its Main Board subject to the fulfilment of the eligibility criteria for listing of specified securities laid down by the Main Board.
- b) If the Paid up Capital of our company is more than Rs. 1,000 Lacs and upto Rs. 2,500 Lacs, our Company may still apply for migration to the Main Board if the Company fulfils the eligible criteria for listing laid down by the Main Board and if the same has been approved by a special resolution through postal ballot wherein the votes cast by the shareholders other than the Promoter in favour of the proposal amount to at least two times the number of votes cast by shareholders other than promoter shareholders against the proposal.

- (j) No petition for winding up is admitted by a court of competent jurisdiction against the ssuer.
- (k) No material regulatory or disciplinary action should have been taken by any stock exchange or regulatory authority in the past three years against the Issuer.
- (l) The Company should have a website

Issuer shall also comply with all the other requirements as laid down for such an Issue under Chapter X-B of SEBI (ICDR) Regulations and subsequent circulars and guidelines issued by SEBI and the Stock Exchange.

As per Regulation 106(M)(3) of SEBI (ICDR) Regulations, 2009, the provisions of Regulations 6(1), 6(2), 6(3), Regulation 8, Regulation 9, Regulation 10, Regulation 25, Regulation 26, Regulation 27 and Sub regulation (1) of Regulation 49 of SEBI (ICDR) Regulations, 2009 shall not apply to this Issue.

Thus Company is eligible for the Issue in accordance with regulation 106M(2) and other provisions of chapter XB of the SEBI (ICDR) Regulations as the post issue face value capital exceed Rs. 1,000 lakhs. Company also complies with the eligibility conditions laid by the SME Platform of BSE for listing of our Equity Shares.

2.3 TYPES OF PUBLIC ISSUES – FIXED PRICE ISSUES AND BOOK BUILT ISSUES

In accordance with the provisions of the SEBI ICDR Regulations, 2009, an Issuer can either determine the Issue Price through the Book Building Process (**“Book Built Issue”**) or undertake a Fixed Price Issue (**“Fixed Price Issue”**). An Issuer may mention Floor Price or Price Band in the RHP (in case of a Book Built Issue) and a Price or Price Band in the Draft Prospectus (in case of a fixed price Issue) and determine the price at a later date before registering the Prospectus with the Registrar of Companies.

The cap on the Price Band should be less than or equal to 120% of the Floor Price. The Issuer shall announce the Price or the Floor Price or the Price Band through advertisement in all newspapers in which the pre-issue advertisement was given at least five Working Days before the Issue Opening Date, in case of an IPO and at least one Working Day before the Issue Opening Date, in case of an FPO.

The Floor Price or the Issue price cannot be lesser than the face value of the securities. Applicants should refer to the Prospectus or Issue advertisements to check whether the Issue is a Book Built Issue or a Fixed Price Issue.

2.4 ISSUE PERIOD

The Issue shall be kept open for a minimum of three Working Days (for all category of Applicants) and not more than ten Working Days. Applicants are advised to refer to the Application Form and Abridged Prospectus or Prospectus for details of the Issue Period. Details of Issue Period are also available on the website of Stock Exchange(s).

2.5 MIGRATION TO MAIN BOARD

SME Issuer may migrate to the Main Board of SE from the SME Exchange at a later date subject to the following:

- (a) If the Paid up Capital of the Company is likely to increase above Rs. 25 crores by virtue of any further issue of capital by way of rights, preferential issue, bonus issue etc. (which has been approved by a special resolution through postal ballot wherein the votes cast by the shareholders other than the Promoter in favour of the proposal amount to at least two times the number of votes cast by shareholders other than promoter shareholders against the proposal and for which the company has obtained in-principal approval from the main board), the Company shall apply to SE for listing of its shares on its Main Board subject to the fulfilment of the eligibility criteria for listing of specified securities laid down by the Main Board.

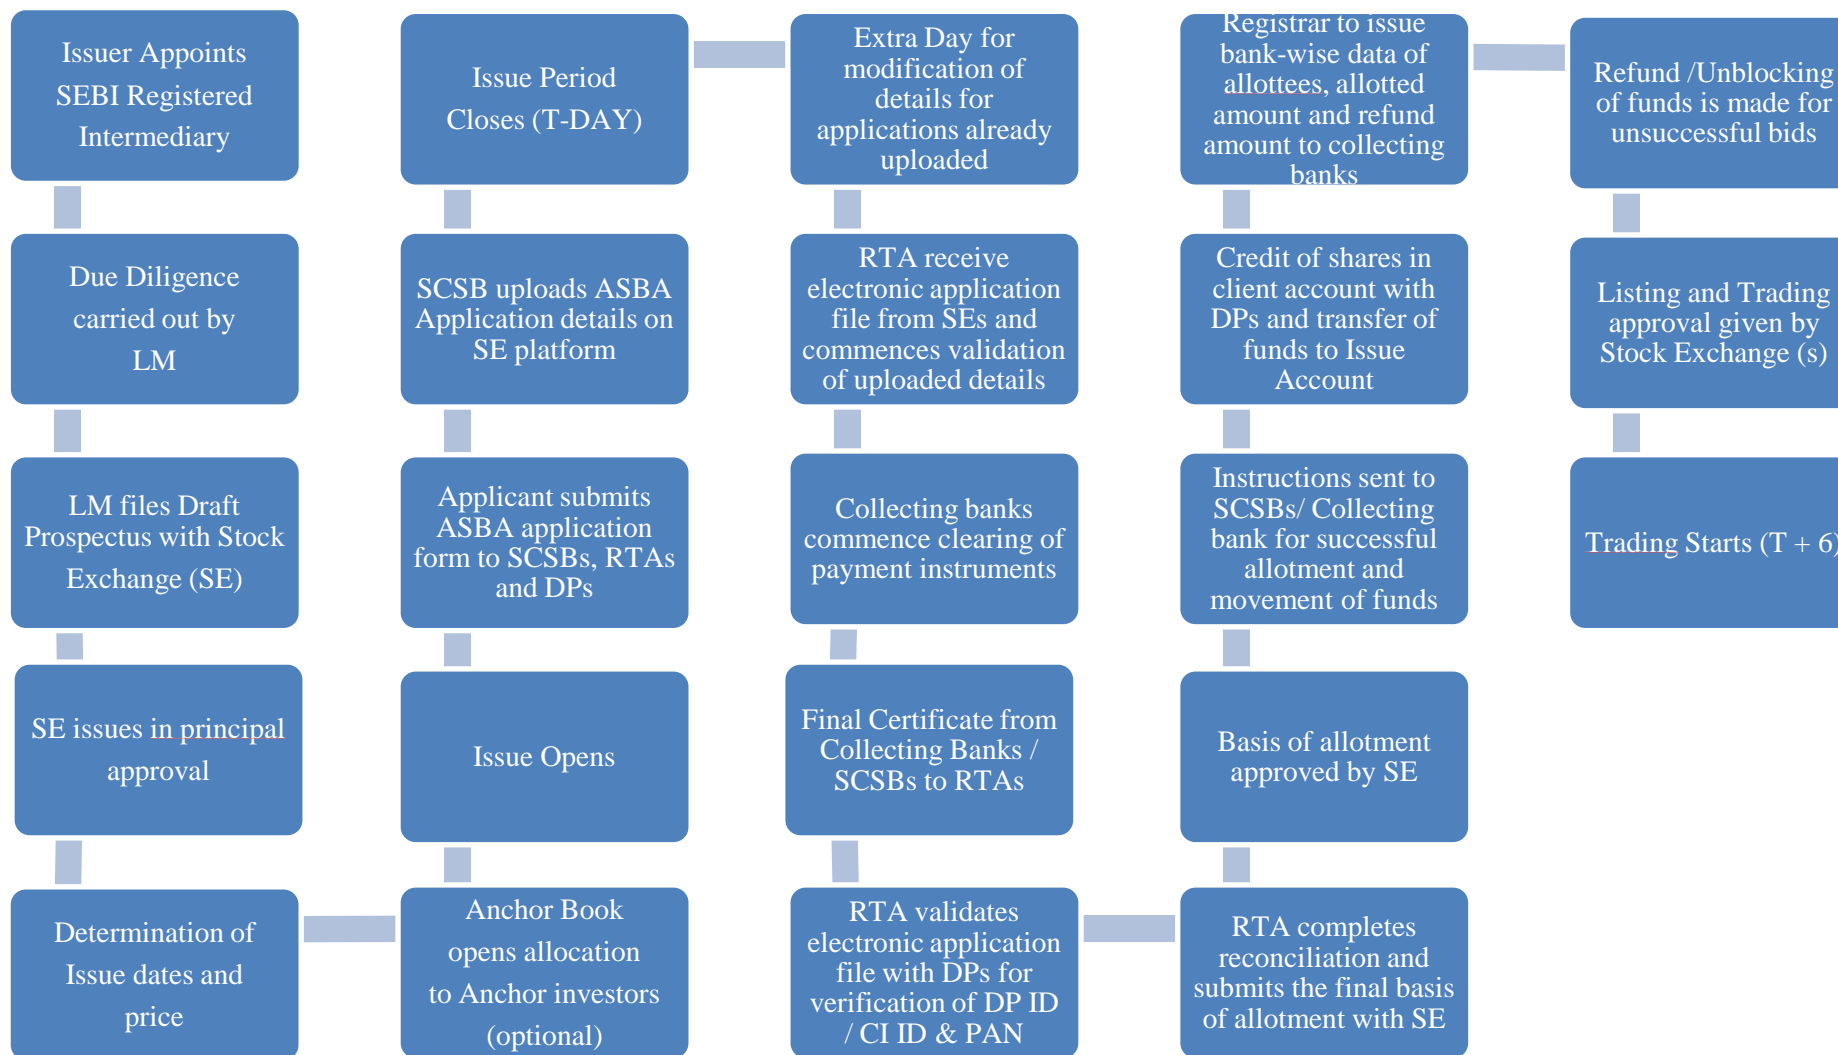

OR

- (b) If the Paid up Capital of the company is more than 10 crores but below Rs. 25 crores, the Company may still apply for migration to the main board if the same has been approved by a

special resolution through postal ballot wherein the votes cast by the shareholders other than the Promoter in favour of the proposal amount to at least two times the number of votes cast by shareholders other than promoter shareholders against the proposal.

2.6 FLOWCHART OF TIMELINES

A flow chart of process flow in Fixed Price Issues is as follows

4.1.1 FIELD NUMBER 1: NAME AND CONTACT DETAILS OF THE SOLE/ FIRST APPLICANT

Applicants should ensure that the name provided in this field is exactly the same as the name in which the Depository Account is held.

- (a) **Mandatory Fields:** Applicants should note that the name and address fields are compulsory and e-mail and/or telephone number/ mobile number fields are optional. Applicants should note that the contact details mentioned in the Application Form may be used to dispatch communications) in case the communication sent to the address available with the Depositories are returned undelivered or are not available. The contact details provided in the Application Form may be used by the Issuer, the members of the Syndicate, the Registered Broker and the Registrar to the Issue only for correspondence(s) related to an Issue and for no other purposes.
- (b) **Joint Applications:** In the case of Joint Applications, the Applications should be made in the name of the Applicant whose name appears first in the Depository account. The name so entered should be the same as it appears in the Depository records. The signature of only such first Applicant would be required in the Application Form and such first Applicant would be deemed to have signed on behalf of the joint holders. All payments may be made out in favour of the Applicant whose name appears in the Application Form or the Revision Form and all communications may be addressed to such Applicant and may be dispatched to his or her address as per the Demographic Details received from the Depositories.
- (c) **Impersonation:** Attention of the Applicants is specifically drawn to the provisions of sub section (1) of Section 38 of the Companies Act, 2013 which is reproduced below:
- ‘Any person who:**
- **makes or abets making of an application in a fictitious name to a Company for acquiring, or subscribing for, its securities; or**
 - **makes or abets making of multiple applications to a Company in different names or in different combinations of his name or surname for acquiring or subscribing for its securities; or**
 - **otherwise induces directly or indirectly a Company to allot, or register any transfer of securities to him, or to any other person in a fictitious name,**
- Shall be liable for action under section 447 of the said Act.’**
- (d) **Nomination Facility to Applicant:** Nomination facility is available in accordance with the provisions of Section 109A of the Companies Act. In case of allotment of the Equity Shares in dematerialized form, there is no need to make a separate nomination as the nomination registered with the Depository may prevail. For changing nominations, the Applicants should inform their respective DP.

4.1.2 FIELD NUMBER 2: PAN NUMBER OF SOLE /FIRST APPLICANT

- (a) PAN (of the sole/ first Applicant) provided in the Application Form should be exactly the same as the PAN of the person(s) in whose name the relevant beneficiary account is held as per the Depositories’ records.
- (b) PAN is the sole identification number for participants transacting in the securities market irrespective of the amount of transaction except for Applications on behalf of the Central or State Government, Applications by officials appointed by the courts and Applications by Applicants residing in Sikkim (“PAN Exempted Applicants”). Consequently, all Applicants, other than the PAN Exempted Applicants, are required to disclose their PAN in the Application Form, irrespective of the Application Amount. An Application Form without PAN, except in case of Exempted Applicants, is liable to be rejected. Applications by the Applicants whose PAN is not available as per the Demographic Details available in

their Depository records, are liable to be rejected.

- (c) The exemption for the PAN Exempted Applicants is subject to (a) the Demographic Details received from the respective Depositories confirming the exemption granted to the beneficiary owner by a suitable description in the PAN field and the beneficiary account remaining in “active status”; and (b) in the case of residents of Sikkim, the address as per the Demographic Details evidencing the same.
- (d) Application Forms which provide the General Index Register Number instead of PAN may be rejected.
- (e) Applications by Applicants whose demat accounts have been ‘suspended for credit’ are liable to be rejected pursuant to the circular issued by SEBI on July 29, 2010, bearing number CIR/MRD/DP/22/2010. Such accounts are classified as “Inactive demat accounts” and demographic details are not provided by depositories.

4.1.3 FIELD NUMBER 3: APPLICANTS DEPOSITORY ACCOUNT DETAILS

- (a) Applicants should ensure that DP ID and the Client ID are correctly filled in the Application Form. The DP ID and Client ID provided in the Application Form should match with the DP ID and Client ID available in the Depository database, otherwise, the Application Form is liable to be rejected.
- (b) Applicants should ensure that the beneficiary account provided in the Application Form is active.
- (c) Applicants should note that on the basis of DP ID and Client ID as provided in the Application Form, the Applicant may be deemed to have authorized the Depositories to provide to the Registrar to the Issue, any requested Demographic Details of the Applicant as available on the records of the depositories. These Demographic Details may be used, among other things, for sending allocation advice and for other correspondence(s) related to an Issue.
- (d) Applicants are, advised to update any changes to their Demographic Details as available in the records of the Depository Participant to ensure accuracy of records. Any delay resulting from failure to update the Demographic Details would be at the Applicants’ sole risk.

4.1.4 FIELD NUMBER 4: APPLICATION DETAILS

- (a) The Issuer may mention Price in the draft Prospectus. However a prospectus registered with RoC contains one price.
- (b) Minimum And Maximum Application Size

i. For Retail Individual Applicants

The Application must be for a minimum of [•] Equity Shares. As the Application Price payable by the Retail Individual Applicants cannot exceed Rs. 2,00,000, they can make Application for only minimum Application size i.e. for [•] Equity Shares.

ii. For Other Applicants (Non Institutional Applicants and QIBs):

The Application must be for a minimum of such number of Equity Shares such that the Application Amount exceeds Rs. 2,00,000 and in multiples of [•] Equity Shares thereafter. An Application cannot be submitted for more than the Issue Size. However, the maximum Application by a QIB investor should not exceed the investment limits prescribed for them by applicable laws. Under existing SEBI Regulations, a QIB Applicant cannot withdraw its Application after the Issue Closing Date and is required to pay 100% QIB Margin upon submission of Application. In case of revision in Applications, the Non Institutional Applicants, who are individuals, have to ensure that the Application Amount is greater than Rs. 2,00,000 for being considered for allocation in the Non Institutional Portion. Applicants are

advised to ensure that any single Application from them does not exceed the investment limits or maximum number of Equity Shares that can be held by them under applicable law or regulation or as specified in the Prospectus.

- (c) **Multiple Applications:** An Applicant should submit only one Application Form. Submission of a second Application Form to either the same or to any other Application Collecting Intermediary and duplicate copies of Application Forms bearing the same application number shall be treated as multiple applications and are liable to be rejected.
- (d) Applicants are requested to note the following procedures may be followed by the Registrar to the Issue to detect multiple applications:
 - i. All applications may be checked for common PAN as per the records of the Depository. For Applicants other than Mutual Funds and FPI sub-accounts, Applications bearing the same PAN may be treated as multiple applications by an Applicant and may be rejected.
 - ii. For applications from Mutual Funds and FPI sub-accounts, submitted under the same PAN, as well as Applications on behalf of the PAN Exempted Applicants, the Application Forms may be checked for common DP ID and Client ID. In any such applications which have the same DP ID and Client ID, these may be treated as multiple applications and may be rejected.
- (e) The following applications may not be treated as multiple Applications:
 - i. Applications by Reserved Categories in their respective reservation portion as well as that made by them in the Net Issue portion in public category.
 - ii. Separate applications by Mutual Funds in respect of more than one scheme of the Mutual Fund provided that the Applications clearly indicate the scheme for which the Application has been made.
 - iii. Applications by Mutual Funds, and sub-accounts of FPIs (or FPIs and its sub-accounts) submitted with the same PAN but with different beneficiary account numbers, Client IDs and DP IDs.

4.1.5 FIELD NUMBER 5: CATEGORY OF APPLICANTS

- i. The categories of applicants identified as per the SEBI ICDR Regulations, 2009 for the purpose of Application, allocation and allotment in the Issue are RIIs, individual applicants other than RII's and other investors (including corporate bodies or institutions, irrespective of the number of specified securities applied for).
- ii. An Issuer can make reservation for certain categories of Applicants permitted under the SEBI ICDR Regulations, 2009. For details of any reservations made in the Issue, applicants may refer to the Prospectus.
- iii. The SEBI ICDR Regulations, 2009 specify the allocation or allotment that may be made to various categories of applicants in an Issue depending upon compliance with the eligibility conditions. For details pertaining to allocation and Issue specific details in relation to allocation, applicant may refer to the Prospectus.

4.1.6 FIELD NUMBER 6: INVESTOR STATUS

- (a) Each Applicant should check whether it is eligible to apply under applicable law and ensure that any prospective allotment to it in the Issue is in compliance with the investment restrictions under applicable law.
- (b) Certain categories of Applicants, such as NRIs, FPIs and FVCIs may not be allowed to apply in the Issue or hold Equity Shares exceeding certain limits specified under applicable law. Applicants are requested to refer to the Prospectus for more details.
- (c) Applicants should check whether they are eligible to apply on non-repatriation basis or

repatriation basis and should accordingly provide the investor status. Details regarding investor status are different in the Resident Application Form and Non-Resident Application Form.

- (d) Applicants should ensure that their investor status is updated in the Depository records.

4.1.7 FIELD 7: PAYMENT DETAILS

- (a) Please note that, providing bank account details in the space provided in the Application Form is mandatory and Applications that do not contain such details are liable to be rejected.

4.1.7.1 Payment instructions for Applicants

- (a) Applicants may submit the Application Form in physical mode to the Application Collecting Intermediaries.
- (b) Applicants should specify the Bank Account number in the Application Form.
- (c) Applicants should ensure that the Application Form is also signed by the ASBA Account holder(s) if the Applicant is not the ASBA Account holder;
- (d) Applicants shall note that that for the purpose of blocking funds under ASBA facility clearly demarcated funds shall be available in the account.
- (e) From one Bank Account, a maximum of five Application Forms can be submitted.
- (f) Applicants applying directly through the SCSBs should ensure that the Application Form is submitted to a Designated Branch of a SCSB where the ASBA Account is maintained. Incase Applicant applying through Application Collecting Intermediary other than SCSB, after verification and upload, the Application Collecting Intermediary shall send to SCSB for blocking of fund.
- (g) Upon receipt of the Application Form, the Designated Branch of the SCSB may verify if sufficient funds equal to the Application Amount are available in the ASBA Account, as mentioned in the Application Form.
- (h) If sufficient funds are available in the ASBA Account, the SCSB may block an amount equivalent to the Application Amount mentioned in the Application Form and may upload the details on the Stock Exchange Platform.
- (i) If sufficient funds are not available in the ASBA Account, the Designated Branch of the SCSB may not upload such Applications on the Stock Exchange platform and such Applications are liable to be rejected.
- (j) Upon submission of a completed Application Form each ASBA Applicant may be deemed to have agreed to block the entire Application Amount and authorized the Designated Branch of the SCSB to block the Application Amount specified in the Application Form in the ASBA Account maintained with the SCSBs.
- (k) The Application Amount may remain blocked in the aforesaid ASBA Account until finalisation of the Basis of allotment and subsequent transfer of the Application Amount against the Allotted Equity Shares, if any, to the Public Issue Account, or until withdrawal or failure of the Issue, or until withdrawal or rejection of the Application, as the case may be.
- (l) SCSBs applying in the Issue must apply through an ASBA Account maintained with any other SCSB; else their Applications are liable to be rejected.

4.1.8 Unblocking of ASBA Account

- (a) Once the Basis of Allotment is approved by the Designated Stock Exchange, the Registrar to the Issue may provide the following details to the controlling branches of each SCSB, along with instructions to unblock the relevant bank accounts and for successful

applications transfer the requisite money to the Public Issue Account designated for this purpose, within the specified timelines: (i) the number of Equity Shares to be Allotted against each Application, (ii) the amount to be transferred from the relevant bank account to the Public Issue Account, for each Application, (iii) the date by which funds referred to in (ii) above may be transferred to the Public Issue Account, and (iv) details of rejected/ partial/ non allotment ASBA Applications, if any, along with reasons for rejection and details of withdrawn or unsuccessful Applications, if any, to enable the SCSBs to unblock the respective bank accounts.

- (b) On the basis of instructions from the Registrar to the Issue, the SCSBs may transfer the requisite amount against each successful ASBA Application to the Public Issue Account and may unblock the excess amount, if any, in the ASBA Account.
- (c) In the event of withdrawal or rejection of the Application Form and for unsuccessful Applications, the Registrar to the Issue may give instructions to the SCSB to unblock the Application Amount in the relevant ASBA Account within 6 Working Days of the Issue Closing Date.

4.1.8.1 Discount (if applicable)

- (a) The Discount is stated in absolute rupee terms.
- (b) RIIs, Employees and Retail Individual Shareholders are only eligible for discount. For Discounts offered in the Issue, applicants may refer to the Prospectus.
- (c) The Applicants entitled to the applicable Discount in the Issue may make payment for an amount i.e. the Application Amount less Discount (if applicable).

4.1.8.2 Additional Payment Instructions for NRIs

The Non-Resident Indians who intend to block funds in their Non-Resident Ordinary (NRO) accounts shall use the form meant for Resident Indians (non-repatriation basis). In the case of applications by NRIs applying on a repatriation basis, payment shall not be accepted out of NRO Account.

SECTION 6: ISSUE PROCEDURE IN BOOK BUILT ISSUE

This being Fixed Price Issue, this section is not applicable for this Issue.

SECTION 7: ALLOTMENT PROCEDURE AND BASIS OF ALLOTMENT

7.1 BASIS OF ALLOTMENT

Allotment will be made in consultation with the SME Platform of BSE (The Designated Stock Exchange). In the event of oversubscription, the allotment will be made on a proportionate basis in marketable lots as set forth hereunder:

- The total number of Shares to be allocated to each category as a whole shall be arrived at on a proportionate basis i.e. the total number of Shares applied for in that category multiplied by the inverse of the over subscription ratio (number of Applicants in the category x number of Shares applied for).
- The number of Shares to be allocated to the successful Applicants will be arrived at on a proportionate basis in marketable lots (i.e. Total number of Shares applied for into the inverse of the over subscription ratio).
- For applications where the proportionate allotment works out to less than [•] equity shares the allotment will be made as follows:
 - Each successful Applicant shall be allotted [•] equity shares; and
 - The successful Applicants out of the total applicants for that category shall be determined by the drawl of lots in such a manner that the total number of Shares allotted in that category is equal to the number of Shares worked out as per (2) above.
- If the proportionate allotment to an Applicant works out to a number that is not a multiple of [•] equity shares, the Applicant would be allotted Shares by rounding off to the nearest multiple of [•] equity shares subject to a minimum allotment of [•] equity shares.
- If the Shares allotted on a proportionate basis to any category is more than the Shares allotted to the Applicants in that category, the balance available Shares or allocation shall be first adjusted against any category, where the allotted Shares are not sufficient for proportionate allotment to the successful Applicants in that category, the balance Shares, if any, remaining after such adjustment will be added to the category comprising Applicants applying for the minimum number of Shares. If as a result of the process of rounding off to the nearest multiple of 6,000 Equity Shares, results in the actual allotment being higher than the shares offered, the final allotment may be higher at the sole discretion of the Board of Directors, up to 110% of the size of the offer specified under the Capital Structure mentioned in this Draft Prospectus.

- (f) The above proportionate allotment of Shares in an Issue that is oversubscribed shall be subject to the reservation for Retail individual Applicants as described below:
- i. As per Regulation 43 (4) of SEBI (ICDR), as the retail individual investor category is entitled to more than fifty per cent on proportionate basis, the retail individual investors shall be allocated that higher percentage.
 - ii. The balance net offer of shares to the public shall be made available for allotment to
 - individual applicants other than retails individual investors and
 - other investors, including corporate bodies/ institutions irrespective of number of shares applied for.
 - iii. The unsubscribed portion of the net offer to any one of the categories specified in a) or b) shall/may be made available for allocation to applicants in the other category, if so required.

“Retail Individual Investor” means an investor who applies for shares of value of not more than Rs. 2,00,000/-. Investors may note that in case of over subscription allotment shall be on proportionate basis and will be finalized in consultation with BSE.

The Executive Director / Managing Director of BSE - the Designated Stock Exchange in addition to Lead Manager and Registrar to the Public Issue shall be responsible to ensure that the basis of allotment is finalized in a fair and proper manner in accordance with the SEBI (ICDR) Regulations.

7.2 DESIGNATED DATE AND ALLOTMENT OF EQUITY SHARES

- (a) **Designated Date:** On the Designated Date, the SCSBs shall transfer the funds represented by allocation of Equity Shares into the Public Issue Account with the Bankers to the Issue.
- (b) **Issuance of Allotment Advice:** Upon approval of the Basis of Allotment by the Designated Stock Exchange, the Registrar shall upload the same on its website. On the basis of the approved Basis of Allotment, the Issuer shall pass necessary corporate action to facilitate the Allotment and credit of Equity Shares. Applicants **are advised to instruct their Depository Participant to accept the Equity Shares that may be allotted to them pursuant to the Issue.**

Pursuant to confirmation of such corporate actions, the Registrar will dispatch Allotment Advice to the Applicants who have been Allotted Equity Shares in the Issue.

- (c) The dispatch of Allotment Advice shall be deemed a valid, binding and irrevocable contract.
- (d) Issuer will ensure that: (i) the Allotment of Equity Shares; and (ii) initiate corporate action for credit of shares to the successful Applicants Depository Account will be completed within 4 Working Days of the Issue Closing Date. The Issuer also ensures the credit of shares to the successful Applicant's depository account is completed within one Working Day from the date of Allotment, after the funds are transferred from the Public Issue Account on the Designated Date.

SECTION 8: INTEREST AND REFUNDS

8.1 COMPLETION OF FORMALITIES FOR LISTING & COMMENCEMENT OF TRADING:

If such money is not repaid within eight days after the Issuer becomes liable to repay it, then the Issuer and every director of the Issuer who is an officer in default may, on and from such expiry of eight days, be liable to repay the money, with interest at such rate, as prescribed under Section 73 of the Companies Act, and as disclosed in the Prospectus.

8.2.2 MINIMUM SUBSCRIPTION

This Issue is not restricted to any minimum subscription level. This Issue is 100% underwritten. As per Section 39 of the Companies Act, 2013, if the “stated minimum amount” has not been subscribed and the sum payable on application is not received within a period of 30 days from the date of the Prospectus, the application money has to be returned within such period as may be prescribed. If the Issuer does not receive the subscription of 100% of the Issue through this offer document including devolvement of Underwriters within sixty days from the date of closure of the Issue, the Issuer shall forthwith refund the entire subscription amount received. If there is a delay beyond eight days after the Issuer becomes liable to pay the amount, the Issuer shall pay interest prescribed under section 73 of the Companies Act, 1956 (or the Company shall follow any other substitutional or additional provisions as has been or may be notified under the Companies Act, 2013).

8.2.3 MINIMUM NUMBER OF ALLOTTEES

The Issuer may ensure that the number of prospective Allottees to whom Equity Shares may be allotted may not be less than 50 failing which the entire application monies may be refunded forthwith.

8.3 MODE OF REFUND

Within 6 Working Days of the Issue Closing Date, the Registrar to the Issue may give instructions to SCSBs for unblocking the amount in ASBA Account on unsuccessful Application and also for any excess amount blocked on Application.

8.3.1 Mode of making refunds

The Registrar to the Issue may instruct the controlling branch of the SCSB to unblock the funds in the relevant ASBA Account for any withdrawn, rejected or unsuccessful ASBA applications or in the event of withdrawal or failure of the Issue.

8.4 INTEREST IN CASE OF DELAY IN ALLOTMENT OR REFUND

The Issuer may pay interest at the rate of 15% per annum /or demat credits are not made to Applicants or instructions for unblocking of funds in the ASBA Account are not done within the 4 Working days of the Issue Closing Date.

The Issuer may pay interest at 15% per annum for any delay beyond 6 days from the Issue Closing Date, if Allotment is not made

RESTRICTIONS ON FOREIGN OWNERSHIP OF INDIAN SECURITIES

Foreign investment in Indian securities is regulated through the Industrial Policy, 1991 of the Government of India and Foreign Exchange Management Act, 1999 (“**FEMA**”). While the Industrial Policy, 1991 prescribes the limits and the conditions subject to which foreign investment can be made in different sectors of the Indian economy, FEMA regulates the precise manner in which such investment may be made. Under the Industrial Policy, unless specifically restricted, foreign investment is freely permitted in all sectors of Indian economy up to any extent and without any prior approvals, but the foreign investor is required to follow certain prescribed procedures for making such investment.

The Government of India, from time to time, has made policy pronouncements on Foreign Direct Investment (“**FDI**”) through press notes and press releases. The Department of Industrial Policy and Promotion, Ministry of Commerce and Industry, Government of India (“**DIPP**”), has issued consolidated FDI Policy Circular of 2016 (“**FDI Policy 2016**”), which with effect from June 7, 2016, consolidates and supersedes all previous press notes, press releases and clarifications on FDI Policy issued by the DIPP that were in force. Further, DIPP has issued Press note 5, dated June 24, 2016 which introduces few changes in FDI Policy. The Government proposes to update the consolidated circular on FDI policy once every year and therefore, FDI Policy 2016 will be valid until the DIPP issues an updated circular.

The Reserve Bank of India (“**RBI**”) also issues Master Circular on Foreign Investment in India every year. Presently, FDI in India is being governed by Master circular on Foreign Investment dated July 01, 2015 as updated from time to time by RBI. In terms of the Master Circular, an Indian company may issue fresh shares to people resident outside India (who is eligible to make investments in India, for which eligibility criteria are as prescribed). Such fresh issue of shares shall be subject to inter-alia, the pricing guidelines prescribed under the Master Circular. The Indian company making such fresh issue of shares would be subject to the reporting requirements, inter-alia with respect to consideration for issue of shares and also subject to making certain filings including filing of Form FC-GPR.

Under the current FDI Policy of 2016, foreign direct investment in micro and small enterprises is subject to sectoral caps, entry routes and other sectoral regulations. At present 100 % foreign direct investment through automatic route is permitted in the sector in which our Company operates. Therefore applicable foreign investment up to 100% is permitted in our company under automatic route.

The transfer of shares between an Indian resident and a non-resident does not require the prior approval of the FIPB or the RBI, subject to fulfilment of certain conditions as specified by DIPP/RBI, from time to time. Such conditions include (i) the activities of the investee company are under the automatic route under the FDI Policy and transfer does not attract the provisions of the Takeover Regulations; (ii) the non-resident shareholding is within the sectoral limits under the FDI Policy; and (iii) the pricing is in accordance with the guidelines prescribed by the SEBI/ RBI. As per the existing policy of the Government of India, OCBs cannot participate in this Issue and in accordance with the extant FDI guidelines on sectoral caps, pricing guidelines etc. as amended by Reserve bank of India, from time to time. Investors are advised to confirm their eligibility under the relevant laws before investing and / or subsequent purchase or sale transaction in the Equity Shares of Our Company

The Equity Shares have not been and will not be registered under the U.S. Securities Act of 1933, as amended (“US Securities Act”) or any other state securities laws in the United States of America and may not be sold or offered within the United States of America, or to, or for the account or benefit of “US Persons” as defined in Regulation S of the U.S. Securities Act), except pursuant to exemption from, or in a transaction not subject to, the registration requirements of US Securities Act and applicable state securities laws.

Accordingly, the equity shares are being offered and sold only outside the United States of America in an offshore transaction in reliance upon Regulation S under the US Securities Act and the applicable laws of the jurisdiction where those offers and sale occur. Further, no offer to the public (as defined under Directive 20003/71/EC, together with any amendments) and

implementing measures thereto, (the “Prospectus Directive”) has been or will be made in respect of the Draft Prospectus or otherwise in respect of the Bonds, in any member State of the European Economic Area which has implemented the Prospectus Directive except for any such offer made under exemptions available under the Prospectus Directive, provided that no such offer shall result in a requirement to publish or supplement a prospectus pursuant to the Prospectus Directive, in respect of the Draft Prospectus or otherwise in respect of the Bonds. Any forwarding, distribution or reproduction of this document in whole or in part is unauthorised. Failure to comply with this directive may result in a violation of the Securities Act or the applicable laws of other jurisdictions. Any investment decision should be made on the basis of the final terms and conditions of the Bonds and the information contained in this Draft Prospectus.

The Equity Shares have not been and will not be registered, listed or otherwise qualified in any other jurisdiction outside India and may not be offered or sold, and Application may not be made by persons in any such jurisdiction, except in compliance with the applicable laws of such jurisdiction.

The above information is given for the benefit of the Applicants. Our Company and the Lead Manager are not liable for any amendments or modification or changes in applicable laws or regulations, which may occur after the date of this Draft Prospectus. Applicants are advised to make their independent investigations and ensure that the Applications are not in violation of laws or regulations applicable to them and do not exceed the applicable limits under the laws and regulations
