Further we have not identified any alternate source of funding and hence any failure or delay on our part to raise money from this Issue or any shortfall in the Issue Proceeds may delay the implementation schedule and could adversely affect our growth plans. For further details please refer “*Objects of the Issue*” on page 54 of this Draft Prospectus.

21. ***Our Company had negative cash flow in recent fiscals, details of which are given below. Sustained negative cash flow could adversely impact our business, financial condition and results of operations.***

The detailed break up of cash flows is summarized in below mentioned table and our Company has reported negative cash flow in certain financial years and which could affect our business and growth:

(Rs. in lakhs)

Particulars	For the Financial Year ended March 31,		
	2017	2016	2015
Net Cash from Operating Activities	(111.76)	70.46	(3.25)
Net Cash from Investing Activities	(42.74)	(10.36)	99.45
Net Cash from Financing Activities	317.29	(62.58)	(85.44)

22. ***We are dependent on a number of key managerial personnel, including our senior management, and the loss of or our inability to attract or retain such persons with specialized technical know-how could adversely affect our business, results of operations, cash flows and financial condition.***

Our performance depends largely on the efforts and abilities of our senior management and other key managerial personnel, including our present officers who have specialized technical know-how. The inputs and experience of our senior management and key managerial personnel are valuable for the development of our business and operations strategy. We cannot assure you that we will be able to retain these employees or find adequate replacements in a timely manner, or at all. Our Company does not maintain any director's and officer's insurance policy or any key man insurance policy. The loss of the services of such persons could have an adverse effect on our business, results of operations, cash flows and financial condition.

23. ***We have not made any dividend payments in the past and our ability to pay dividends in the future will depend upon future earnings, financial condition, cash flows, working capital requirements, capital expenditures and restrictive covenants in our financing arrangements.***

In the past, we have not made dividend payments to the shareholders of our Company. The amount of our future dividend payments, if any, will depend upon various factors including our future earnings, financial condition, cash flows and requirement to fund operations and expansion of the business. There can be no assurance that we will be able to declare dividends. Any future determination as to the declaration and payment of dividends will be at the discretion of our Board of Directors. For further details, please refer "Dividend Policy" on page 103 of this Draft Prospectus.

24. ***Delay in raising funds from the IPO could adversely impact the implementation schedule.***

The proposed objects, as detailed in the section titled "Objects of the Issue" are to be largely funded from the proceeds of the issue. We have not identified any alternate source of funding and hence any failure or delay on our part to mobilize the required resources or any shortfall in the Issue proceeds may delay the implementation schedule. We therefore, cannot assure that we would be able to execute the expansion process within the given timeframe, or within the costs as originally estimated by us. Any time overrun or cost overrun may adversely affect our growth plans and profitability.

25. ***Our inability to protect or use the intellectual property rights in relation to “ TRIDENT™” brand, may adversely affect our business.***

As on the date of this Draft Prospectus, Hardik J. Desai, one of the promoter of our Company has made applications for registration of “ TRIDENT™” trademarks (in various classes) . The applications for registration of these trademarks have been objected. There can be no assurance that the applications for registration of these trademarks will be approved by the Trade Marks Registry in a timely manner, or at all. For further details see the section titled “Government and Other Approvals” on page 137. We may not be able to prevent infringement of these trademarks and a passing off action may not provide sufficient protection until such time that our registrations are granted.

26. ***Our inability to manage growth could disrupt our business and reduce profitability.***

Our Business strategy is to continuously grow by expanding the size and geographical scope of our businesses. This growth strategy will place significant demands on our management, financial and other resources. It will require us to continuously develop and improve our operational, financial and internal controls. Continuous expansion increases the challenges involved in financial management, recruitment, training and retaining high quality human resources, preserving our culture, values and entrepreneurial environment, and developing and improving our internal administrative infrastructure. Any inability on our part to manage such growth could disrupt our business prospects, impact our financial condition and adversely affect our results of operations

27. ***Our Promoters play key role in our functioning and we heavily rely on their knowledge and experience in operating our business and therefore it may affect our business if our Promoters disassociate with us.***

We benefit from our relationship with our Promoters and our success depends upon the continuing services of our Promoters who have been responsible for the growth of our business and are closely involved in the overall strategy, direction and management of our business. Our Promoters have been actively involved in the day to day operations and management of the Company. Accordingly, our performance is heavily dependent upon the services of our Promoters. If our Promoters are unable or unwilling to continue in their present position, we may not be able to replace them easily or at all.

28. ***The Promoters and Promoter Group will continue to exercise control post completion of the Issue and will have considerable influence over the outcome of matters.***

Upon completion of this Issue, our Promoters and Promoter Group will continue to own a majority of our Equity Shares. As a result, our Promoters will have the ability to exercise significant influence over all matters requiring shareholders' approval. Our Promoters will also be in a position to influence any shareholder action or approval requiring a majority vote, except where they may be required by applicable law to abstain from voting. This control could also delay, defer or prevent a change in control of our Company, impede a merger, consolidation, takeover or other business combination involving our Company, or discourage a potential acquirer from obtaining control of our Company even if it is in the best interests of our Company. The interests of our Promoters/Promoter Group could conflict with the interests of our other equity shareholders and could make decisions that materially and adversely affect your investment in the Equity Shares.

29. ***Our insurance cover may be inadequate to fully protect us from all losses and may in turn adversely affect our financial condition.***

Our Company believes that its insurance coverage is adequate and consistent with industry standards. Our Company maintains an insurance policy to cover our assets, liabilities and risks that we face inherent to our business activities and operations.

Our insurance policy, however, may not provide adequate coverage in certain circumstances and are subject to certain deductibles, exclusions and limits on coverage. We cannot assure you that the terms of our insurance policy will be adequate to cover all damage or loss suffered by us or that such coverage will continue to be available on reasonable terms or will be available in sufficient amounts to cover one or more large claims, or that the insurer will not disclaim coverage as to any future claim. Further, there can be no assurance that any claim under the insurance policy maintained by us will be honoured fully, in part or on time. To the extent that we suffer loss or damage that is not covered by insurance or which exceeds our insurance coverage, our results of operations or cash flow may be affected.

30. ***We have high working capital requirements. If we experience insufficient cash flows to enable us to make required payments on our debt or fund working capital requirements, there may be an adverse effect on our results of operations.***

Our business requires a substantial amount of working capital for our business operations. We would require additional working capital facilities in the future to satisfy our working capital need which is partially proposed to be met through the IPO proceeds. In case of our inability to obtain the requisite additional working capital finance, our internal accruals/cash flows would be adversely affected to that extent, and consequently affect our operations, revenue and profitability.

31. ***Some of the information disclosed in this Draft Prospectus is based on information from industry sources and publications which may be based on projections, forecasts and assumptions that may prove to be incorrect. Investors should not place undue reliance on, or base their investment decision on this information***

The information disclosed in the “Industry” section of this Draft Prospectus is based on information from publicly-available industry, Government and research information, publications and websites and has not been verified by us independently and we do not make any representation as to the accuracy of the information. The data may have been re-classified by us for the purposes of presentation. Industry sources and publications generally state that the information contained therein has been obtained from sources generally believed to be reliable, but that their accuracy, completeness and underlying assumptions are not guaranteed and their reliability cannot be assured. Accordingly, investors should not place undue reliance on, or base their investment decision on this information.

EXTERNAL RISKS

32. ***Political, economic or other factors that are beyond our control may have an adverse effect on our business and results of operations.***

The following external risks may have an adverse effect on our business and results of operations should any of them materialize:

- a change in the central or state governments or a change in the economic and deregulation policies could adversely affect economic conditions prevalent in the areas in which we operate in general and our business in particular;
- high rates of inflation in India could increase our costs without proportionately increasing our revenues, and as such decrease our operating margins; and
- a slowdown in economic growth or financial instability in India could adversely affect our business and results of operations.

33. ***Our business is dependent on economic growth in India.***

The performance and growth of our business are necessarily dependent on economic conditions prevalent in India, which may be materially and adversely affected by centre or state political instability or regional conflicts, a general rise in interest rates, inflation, economic slowdown elsewhere in the world or otherwise.

There have been periods of slowdown in the economic growth of India. India’s economic growth is affected by various factors including domestic consumption and savings, balance of trade movements, namely export demand and movements in key imports (oil and oil products), global economic uncertainty and liquidity crisis, volatility in exchange currency rates and annual rainfall which affects agricultural production. Any continued or future slowdown in the Indian economy or a further increase in inflation could have a material adverse effect on the price of our raw materials and demand for our products and, as a result, on our business and financial results.

The Indian financial market and the Indian economy are influenced by economic and market conditions in other countries, particularly in emerging market in Asian countries. Financial turmoil in Asia, Europe, the U.S. and elsewhere in the world in recent years has affected the Indian economy. Although economic conditions are different in each country, investors’ reactions to developments in one country can have adverse effects on the securities of companies in other countries, including India. A loss in investor confidence in the financial systems of other emerging markets may cause increased volatility in Indian financial markets and, indirectly, in the Indian economy in general. Any worldwide financial instability, including the financial crisis and fluctuations in the stock markets in China and further deterioration of credit conditions in the U.S. or European markets, could also have a negative impact on the Indian economy. Financial disruptions may occur again and could harm our business and financial results.

34. ***Changing laws, rules and regulations and legal uncertainties in India, including adverse application of corporate and tax laws, may adversely affect our business and financial results.***

Our business and financial performance could be adversely affected by any change in laws or interpretations of existing laws, or the promulgation of new laws, rules and regulations applicable to us and our business including those relating to the industry in which we operate. There can be no assurance that the Government of India or state governments will not introduce new laws, regulations and policies which will require us to obtain additional approvals and licenses or impose onerous requirements on our business.

For example, the new Companies Act, 2013 contains significant changes to Indian company law, including in relation to the issue of capital by companies, disclosures in offer documents, related party transactions, corporate governance, audit matters, internal controls, shareholder class actions, restrictions on the number of layers of subsidiaries, prohibitions on loans to directors, insider trading and restrictions on directors and key management personnel from engaging in forward dealing. Moreover, effective April 1, 2014, companies exceeding certain net worth, revenue or profit thresholds are required to spend at least 2% of average net profits from the immediately preceding three financial years on corporate social responsibility projects, failing which an explanation is required to be provided in such companies' annual reports.

Additionally, the Government of India has implemented a comprehensive national goods and services tax ("GST") regime that combine taxes and levies by the Central and State Governments into a unified rate structure. Further, any disagreements between certain state governments may also create further uncertainty towards the implementation of the GST. Any such future increases or amendments may affect the overall tax efficiency of companies operating in India and may result in significant additional taxes becoming payable.

Further, the Government of India has proposed, the General Anti Avoidance Rules ("GAAR"). The tax consequences of the GAAR provisions being applied to an arrangement could result in denial of tax benefit amongst other consequences. In the absence of any precedents on the subject, the application of these provisions is uncertain. If the GAAR provisions are made applicable to our Company, it may have an adverse tax impact on us.

The impact of any changes to Indian legislation on our business cannot be fully determined at this time. Additionally, our business and financial performance could be adversely affected by unfavourable changes in or interpretations of existing, or the promulgation of new, laws, rules and regulations applicable to us and our business. Such unfavourable changes could decrease demand for our services and products, increase costs and/or subject us to additional liabilities. Any such changes could have an adverse effect on our business and financial results.

35. *There is uncertainty on the impact of currency demonetization in India on our business.*

The Reserve Bank of India, or RBI, and the Ministry of Finance of the GoI withdrew the legal tender status of Rs.500 and Rs. 1,000 currency notes pursuant to notification dated November 8, 2016. The short-term impact of these developments has been, among other things, a decrease in liquidity of cash in India. There is uncertainty on the long-term impact of this action. The RBI has also established, and continues to refine, a process for holders of affected banknotes to tender such notes for equivalent value credited into the holders' bank accounts. The short and long-term effects of demonetization on the Indian economy and our business are uncertain and we cannot accurately predict its effect on our business, results of operations and financial condition.

36. *The occurrence of natural or man-made disasters could adversely affect our results of operations and financial condition.*

The occurrence of natural disasters, including cyclones, storms, floods, earthquakes, tsunamis, tornadoes, fires, explosions, pandemic disease and man-made disasters, including acts of terrorism and military actions, could adversely affect our results of operations or financial condition, including in the following respects:

- A natural or man-made disaster could result in damage to our assets or losses in our projects, or the failure of our counterparties to perform, or cause significant volatility in global financial markets.
- Pandemic disease, caused by a virus such as H5N1, the "avian flu" virus, the Ebola virus, or H1N1, the "swine flu" virus, could have a severe adverse effect on our business.
- Political tension, civil unrest, riots, acts of violence, situations of war or terrorist activities may result in disruption of services and may potentially lead to an economic recession and/or impact investor confidence.

37. *The Equity Shares have never been publicly traded, and, after the Issue, the Equity Shares may experience price and volume fluctuations, and an active trading market for the Equity Shares may not develop. Further, the price of the Equity Shares may be volatile, and you may be unable to resell the Equity Shares at or above the Issue Price, or at all.*

Prior to the Issue, there has been no public market for the Equity Shares, and an active trading market on the SME Platform of BSE Limited may not develop or be sustained after the Issue. Our Company and the Lead

Managers have appointed Guinness Securities Limited as Designated Market Maker for the Equity Shares of our Company. Listing and quotation does not guarantee that a market for the Equity Shares will develop, or if developed, the liquidity of such market for the Equity Shares. The Issue Price of the Equity Shares may not be indicative of the market price of the Equity Shares at the time of commencement of trading of the Equity Shares or at any time thereafter. The market price of the Equity Shares may be subject to significant fluctuations in response to, among other factors, variations in our operating results of our Company, market conditions specific to the industry we operate in, developments relating to India, volatility in the SME Platform of BSE Limited, securities markets in other jurisdictions, variations in the growth rate of financial indicators, variations in revenue or earnings estimates by research publications, and changes in economic, legal and other regulatory factors.

38. *You will not be able to immediately sell any of the Equity Shares you purchase in this Issue on the SME Platform of BSE Limited.*

In accordance with Indian law and practice, permission for listing of the Equity Shares will not be granted until after the Equity Shares in this Issue have been allotted. Approval will require all other relevant documents authorizing the issue of the Equity Shares to be submitted. There could be failure or delays in listing the Equity Shares on the SME Platform of BSE Limited. Further, certain actions must be completed before the Equity Shares can be listed and trading can commence. Investors' "book entry", or "demat", accounts with Depository Participants are expected to be credited within three Working Days of the date on which the Basis of Allotment is approved by the Designated Stock Exchange. Thereafter, upon receipt of final approval from the Designated Stock Exchange, trading in the Equity Shares is expected to commence within 6 Working Days from Issue Closing Date.

We cannot assure you that the Equity Shares will be credited to the investors' demat account, or that the trading in the Equity Shares will commence in a timely manner or at all. Any failure or delay in obtaining the approvals would restrict your ability to dispose of the Equity Shares.

39. *There are restrictions on daily movements in the price of the Equity Shares, which may adversely affect a shareholder's ability to sell, or the price at which it can sell, Equity Shares at a particular point in time.*

Following the Issue, our listed Equity Shares will be subject to a daily "circuit breaker" imposed on listed companies by BSE Limited, which does not allow transactions beyond specified increases or decreases in the price of the Equity Shares. This circuit breaker operates independently of the index-based, market-wide circuit breakers generally imposed by SEBI on Indian stock exchanges. The percentage limit on our circuit breakers will be set by the BSE Limited based on the historical volatility in the price and trading volume of the Equity Shares.

BSE Limited is not required to inform us of the percentage limit of the circuit breaker in effect from time to time and may change it without our knowledge. This circuit breaker will limit the upward and downward movements in the price of the Equity Shares. As a result of this circuit breaker, no assurance can be given regarding your ability to sell the Equity Shares or the price at which you may be able to sell the Equity Shares at any particular time.

40. *There is no guarantee that the Equity Shares will be listed on the SME Platform of BSE in a timely manner or at all, and any trading closures at the BSE may adversely affect the trading price of the Equity Shares.*

In accordance with Indian law and practice, permission for listing of the Equity Shares will not be granted until after those Equity Shares have been issued and allotted. In addition, we are required to deliver the Prospectus for registration to the Registrar of Companies under the Companies Act, 2013. We cannot assure you that the Registrar of Companies will register such Prospectus in a timely manner or at all. Approval requires all other relevant documents authorizing the issuing of Equity Shares to be submitted. There could be a failure or delay in listing the Equity Shares on the SME Platform of BSE Limited. Any delay in obtaining the approval would restrict your ability to dispose of the Equity Shares.

The regulation and monitoring of Indian securities markets and the activities of investors, brokers and other participants differ, in some cases significantly, from those in Europe and the U.S. The BSE and the NSE have in the past experienced problems, including temporary exchange closures, broker defaults, settlements delays and strikes by brokerage firm employees, which, if continuing or recurring, could affect the market price and liquidity of the securities of Indian companies, including the Equity Shares, in both domestic and international markets. A closure of, or trading stoppage on the BSE could adversely affect the trading price of the Equity Shares.

41. ***Any future issuance of Equity Shares, or convertible securities or other equity linked securities by us and any sale of Equity Shares by our significant shareholders may dilute your shareholding and adversely affect the trading price of the Equity Shares.***

Any future issuance of the Equity Shares, convertible securities or securities linked to the Equity Shares by us may dilute your shareholding in the Company, adversely affect the trading price of the Equity Shares and our ability to raise capital through an issue of our securities. In addition, any perception by investors that such issuances or sales might occur could also affect the trading price of the Equity Shares. No assurance may be given that we will not issue additional Equity Shares. The disposal of Equity Shares by any of our significant shareholders, or the perception that such sales may occur may significantly affect the trading price of the Equity Shares. We cannot assure you that we will not issue Equity Shares or that such shareholders will not dispose of, pledge or encumber their Equity Shares in the future.

42. ***You may be subject to Indian taxes arising out of capital gains on the sale of the Equity Shares.***

Under current Indian tax laws, unless specifically exempted, capital gains arising from the sale of Equity Shares in an Indian company are generally taxable in India. Any gain realized on the sale of listed equity shares on a stock exchange held for more than 12 months will not be subject to capital gains tax in India if Securities Transaction Tax (“STT”) has been paid on the transaction. STT will be levied on and collected by a domestic stock exchange on which the Equity Shares are sold. Any gain realized on the sale of equity shares held for more than 12 months, which are sold other than on a recognized stock exchange and on which no STT has been paid to an Indian resident, will be subject to long term capital gains tax in India. Further, any gain realized on the sale of listed equity shares held for a period of 12 months or less will be subject to short term capital gains tax in India. Capital gains arising from the sale of the Equity Shares will be exempt from taxation in India in cases where the exemption from taxation in India is provided under a treaty between India and the country of which the seller is resident. Generally, Indian tax treaties do not limit India’s ability to impose tax on capital gains. As a result, residents of other countries may be liable for tax in India as well as in their own jurisdiction on a gain upon the sale of the Equity Shares.

43. ***Rights of shareholders under Indian laws may be more limited than under the laws of other jurisdictions.***

Indian legal principles related to corporate procedures, directors’ fiduciary duties and liabilities, and shareholders’ rights may differ from those that would apply to a company in another jurisdiction. Shareholders’ rights including in relation to class actions, under Indian law may not be as extensive as shareholders’ rights under the laws of other countries or jurisdictions. Investors may have more difficulty in asserting their rights as shareholder in an Indian company than as shareholder of a corporation in another jurisdiction.

44. ***There may be less information available about Companies listed on the Indian securities markets compared to information that would be available if we were listed on securities markets in certain other countries.***

There may be differences between the level of regulation and monitoring of the Indian securities markets and the activities of investors, brokers and other participants and that of the markets in the U.S. and certain other countries. SEBI regulates the Indian capital market (along with the Indian stock exchanges, which also govern the companies whose securities are listed with them) and has issued regulations and guidelines on disclosure requirements, insider trading, substantial acquisitions and takeovers of listed companies and other matters. There may, however, be less publicly available information about companies listed on an Indian stock exchange compared to information that would be available if that company was listed on a securities market in certain other jurisdictions.

45. ***Statistical and industry data contained in this Draft Prospectus may be incomplete or unreliable.***

The Copyright Act, 1957 (“**Copyright Act**”) protects original literary, dramatic, musical and artistic works, Cinematographic films and sound recordings from unauthorized use of such works. Unlike the case with patents, copyright protects the expressions and not the ideas. There is no copyright in an idea. The object of copyright law is to encourage authors, artists and composers to create original works by rewarding them with exclusive right for a fixed period to reproduce the works for commercial exploitation. Copyrights subsist in following class of works: a) Original literary, musical, dramatic and artistic works b) Cinematograph films c) Sound recordings Under the copyright law the creator of the original expression in a work is its author who is vested with a set of exclusive rights with respect to the use and exploitation of the work. The author is also the owner of the copyright, unless there is a written agreement by which the author assigns the copyright to another person or entity, such as a publisher, where work is done under a ‘work for hire’ agreement, the copyright vests with the hirer, i.e., the person providing the work. The owner of copyright in a work can assign or license his copyright to any person, such as publisher, under a written agreement. Copyright subsists in a work since the time it comes into being. Therefore, registration of copyright neither creates any rights nor precludes enforcement of the existing ones. However, owing to its evidentiary value, a registered copyright is easier to establish in the court of law. The term of copyright varies across different types of works.
